No Sense Of Obligation:

Playing Fair Richard Dagger, 2018-06-01 While much has been written on both political obligation and the justification of punishment there has been little sustained effort to link the two In *Playing Fair* Richard Dagger aims to fill this gap and provide a unified theory of political obligation and the justification of punishment that takes its bearings from the principle of fair play To do this he first establishes the principle of fair play the idea that people in a cooperative venture have obligations to one another to shoulder a fair share of the burdens because they receive a fair share of the benefits of cooperation as the basis of political obligation Dagger then argues that the members of a reasonably just polity have an obligation to obey its laws because they have an obligation of reciprocity or fair play to one another This theory of political obligation provides answers to fundamental and still debated questions about how to justify punishment who has the right to carry it out and how much to punish *Playing Fair* brings two long standing concerns of political and legal philosophy together to rebut those who deny the possibility of a general obligation to obey the law to defend the link between political authority and obligation and to establish the proper scope of criminal law *The Morals of Evolution* Minot Judson Savage, 1880 *Theoretical Ethics*

Milton Valentine, 2018-01-03 Reproduction of the original *Making Law for Families* Mavis Maclean, 2000-12 This book analyzes the concept of the family in the context of increasing challenges and questions created by multicultural societies

The Dao of Translation Douglas Robinson, 2015-06-12 The *Dao of Translation* sets up an East West dialogue on the nature of language and translation and specifically on the unknown forces that shape the act of translation To that end it mobilizes two radically different readings of the *Daodejing* formerly romanized as the *Tao Te Ching* the traditional mystical reading according to which the *Dao* is a mysterious force that cannot be known and a more recent reading put forward by Sinologists Roger T Ames and David L Hall to the effect that the *Dao* is simply the way things happen Key to Ames and Hall's reading is that what makes the *Dao* seem both powerful and mysterious is that it channels habit into action or what the author calls social ecologies or *icoses* The author puts Daoism and ancient Confucianism into dialogue with nineteenth century Western theorists of the sign Charles Sanders Peirce and Ferdinand de Saussure and their followers in order to develop an *icotic* understanding of the tensions between habit and surprise in the activity of translating The *Dao of Translation* will interest linguists and translation scholars This book will also engage researchers of ancient Chinese philosophy and provide Western scholars with a thought provoking cross examination of Eastern and Western perspectives

view dominates current debate about liberal politics DeLue establishes a basis for political discourse in a liberal society an enlarged discourse that allows people of both views to be critically reflective citizens with the necessary strong sense of obligation to the state DeLue describes this enlarged culture and prescribes what the state must do to nurture it *Rights and Persons* Abraham Irving Melden,1980-01-01 **The Popular Educator** Anonymous,2025-08-22 Reprint of the original first published in 1858 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

Randolph(Thomas Fitz Randolph) Mercein,1854 **Obligations** Martin Hogg,2017-02-16 A comparative examination of core words used by courts legislators and academic commentators in describing the nature of obligations law *Preventive Medicine between Obligation and Aspiration* M.F. Verweij,2013-04-17 Preventive Medicine between Obligation and Aspiration is a study of ethical questions regarding mass screening vaccination and health policy programmes These interventions aim to enhance public health but may also constrain personal autonomy and cause harm and influence our moral views So far these issues have hardly been subject to systematic ethical analysis This study aims to fill this gap by providing an overview of moral problems in preventive medicine and by explicating norms for good practice Throughout the book it is argued that some moral concerns about prevention namely concerns about medicalization cannot be adequately grasped in terms of strict and binding moral norms Various moral concepts and types of norms beyond obligation are explored and developed in order to give practical meaning to these rather vague concerns In this way the book contributes to applied ethics as well as to ethical theory It is of interest to professionals in public health and preventive medicine and to
