Purloined Epistles Based On A True Story:

Purloined Letters Mark H. Silver, 2008-04-07 This engaging study of the detective story's arrival in Japan and of the broader cross cultural borrowing that accompanied it argues for a reassessment of existing models of literary influence between unequal cultures Because the detective story had no pre existing native equivalent in Japan the genre's formulaic structure acted as a distinctive cultural marker making plain the process of its incorporation into late nineteenth and early twentieth century Japanese letters Mark Silver tells the story of Japan's adoption of this new Western literary form at a time when the nation was also remaking itself in the image of the Western powers His account calls into question conventional notions of cultural domination and resistance demonstrating the variety of possible modes for cultural borrowing the surprising vagaries of intercultural transfer and the power of the local contexts in which imitation occurs *Purloined Letters* considers a fascinating range of primary texts populated by wise judges faceless corpses wily confidence women desperate blackmailers a fetishist who secrets himself for days inside a leather armchair and a host of other memorable figures The work begins by analyzing Tokugawa courtroom narratives and early Meiji biographies of female criminals dokufu mono or poison woman stories which dominated popular crime writing in Japan before the detective story's arrival It then traces the mid Meiji absorption of French British and American detective novels into Japanese literary culture through the quirky translations of muckraking journalist Kuroiwa Ruiko Subsequent chapters take up a series of detective stories nostalgically set in the old city of Edo by Okamoto Kido a Kabuki playwright inspired by Arthur Conan Doyle's Sherlock Holmes and the erotic grotesque and macabre works of Edogawa Ranpo whose pen name punned on Edgar Allan Poe **Epistolary Fiction**

Hayes,2015-05-19 A History of Virginia Literature chronicles a story that has been more than four hundred years in the making It looks at the development of literary culture in Virginia from the founding of Jamestown in 1607 to the twenty first century Divided into four main parts this History examines the literature of colonial Virginia Jeffersonian Virginia Civil War Virginia and modern Virginia Individual chapters survey such literary genres as diaries histories letters novels poetry political writings promotion literature science fiction and slave narratives Leading scholars also devote special attention to several major authors including William Byrd of Westover Thomas Jefferson Ellen Glasgow Edgar Allan Poe and William Styron This book is of pivotal importance to the development of American literature and of American studies more generally **Reclaiming Archaeology** Alfredo González-Ruibal,2013-08-21 Archaeology has been an important source of metaphors for some of the key intellectuals of the 20th century Sigmund Freud Walter Benjamin Alois Riegl and Michel Foucault amongst many others However this power has also turned against archaeology because the discipline has been dealt with perfunctorily as a mere provider of metaphors that other intellectuals have exploited Scholars from different fields continue to explore areas in which archaeologists have been working for over two centuries with little or no reference to the discipline It seems that excavation stratigraphy or ruins only become important at a trans disciplinary level when people from outside archaeology pay attention to them and somehow dematerialize them Meanwhile archaeologists have been usually more interested in borrowing theories from other fields rather than in developing the theoretical potential of the same concepts that other thinkers find so useful The time is ripe for archaeologists to address a wider audience and engage in theoretical debates from a position of equality

not of subalternity Reclaiming Archaeology explores how archaeology can be useful to rethink modernity's big issues and more specifically late modernity broadly understood as the 20th and 21st centuries The book contains a series of original essays not necessarily following the conventional academic rules of archaeological writing or thinking allowing rhetoric to have its place in disclosing the archaeological In each of the four sections that constitute this book method time heritage and materiality the contributors deal with different archaeological tropes such as excavation surface depth genealogy ruins fragments repressed memories and traces They criticize their modernist implications and rework them in creative ways in order to show the power of archaeology not just to understand the past but also the present Reclaiming Archaeology includes essays from a diverse array of archaeologists who have dealt in one way or another with modernity including scholars from non Anglophone countries who have approached the issue in original ways during recent years as well as contributors from other fields who engage in a creative dialogue with archaeology and the work of archaeologists *The Bloomsbury*
