[The Ruler in the Garden](#) Andreas Schönle, 2007. This monograph examines the contributions of landscape design to authority and to organization of public life in imperial Russia. Analyzing how tsars and nobles inscribed their political aspirations in the gardens they designed or inhabited, this study maps out a distinct trajectory in the meaning of landscape design. Based partly on archival documents, it explores the reasons for Catherine the Great's keen interest in landscape design. It reconstructs Grigorii Potemkin's attempts to transform the Crimea physically and symbolically into the garden of the empire. And it reveals the centrality of the garden for noblemen such as Andrei Bolotov and Alexander Kurakin, who expressed their political philosophy and their anxieties about unstable social relations through landscaping. The book follows the destiny of western aesthetic categories, notably of the picturesque, as they are first adopted, then transformed, and ultimately rejected. It analyzes the historical role and mythological representations of the country estate along with Leo Tolstoy's fraught commitment to Yasnaya Polyana and his critique of estate mythology in *War and Peace*. Finally, this study exposes how the current fashion for gardening in Russia, in particular among New Russians, alludes to imperial landscaping culture in order to justify a retreat from the public sphere.

[The Secret Life of the Georgian Garden](#) Kate Felus, 2016-12-09. Georgian landscape gardens are among the most visited and enjoyed of the UK's historical treasures. The Georgian garden has also been hailed as the greatest British contribution to European Art, seen as a beautiful composition created from grass, trees, and water, a landscape for contemplation. But scratch below the surface and history reveals these gardens were a lot less serene and in places a great deal more scandalous. Beautifully illustrated in colour and black and white, this book is about the daily life of the Georgian garden. It reveals its previously untold secrets from early morning rides through to evening amorous liaisons. It explains how, by the eighteenth century, there was a desire to escape the busy country house where privacy was at a premium, and how these gardens evolved aesthetically with modestly sized far-flung temples and other eye-catchers to cater for escape and solitude, as well as food, drink, music, and fireworks. Its publication coincides with the 2016 tercentenary of the birth of Lancelot Capability Brown, arguably Britain's greatest ever landscape gardener, and the book is uniquely positioned to put Brown's work into its social context.
