Sacred Cows Make The Best Burgers:

Sacred Cows Make the Best Burgers Robert J. Kriegel, David Brandt, 2008-11-15 Sacred cows outdated and costly business practices such as the reports that are never read or a slow down of innovative ideas exist in every company Inspired by insights gained from more than 450 programs conducted with all types of organizations the authors of SACRED COWS MAKE THE BEST BURGERS show how corporations can kill off the sacred cows that are crippling them **Summary:**

Sacred Cows Make the Best Burgers BusinessNews Publishing, 2014-09-29 The must read summary of Robert Kriegel and David Brandt's book Sacred Cows Make the Best Burgers Paradigm Busting Strategies for Developing Change Ready People and Organizations This complete summary of the ideas from Robert Kriegel and David Brandt's book Sacred Cows Make the Best Burgers shows that sacred cows are the outdated policies practices procedures and paperwork that drain the productivity of companies and organisations In their book the authors argue that they prevent companies from changing to respond to evolving market conditions or from taking advantage of new emerging opportunities In an era of ever increasing changes however it is vital for corporations to be able to let go of their usual ways and strategies if necessary and to make themselves open and ready to adapt to these changes This summary shows how people working for corporations can get rid of all these sacred cows of the business world and bring dynamism and life to their business Added value of this summary Save time Understand key concepts Expand your knowledge To learn more read Sacred Cows Make the Best Burgers and find out how to get rid of old practices and create an organisation that is ready for change *Sacred Cows Make the Best*

Burgers ,2010 **In the Company of Sacred Cows** Stephen Quesnelle, Geoff Smith, 2009-02 While 70% of all organizational change initiatives fail this one succeeded and improved telecom producer Mitel Corporation's bottom line profitability by a factor of 40 Like many organizations Mitel's entrenched processes procedures and policies its Sacred Cows had resulted in products that were slow getting to market When they did get to market many products had quality problems The sluggish company culture was also making it impossible for Mitel to face a looming technology shift and do battle with new brand of competitors who threatened to wipe the company out Authors Geoff Smith and Stephen Quesnell were front and center driving the change that saved Mitel Geoff as the Vice President of Research and Development with 500 engineers reporting to him and Stephen as the Organizational Development OD professional partnered with Geoff to help lead the turnaround Refreshing and engaging this book tells how Geoff and Stephen met the challenge head on They used a behavior based leadership approach based on over 50 years of scientific research plus their own creative initiatives to kill the Sacred Cows More than a fascinating case study this book provides all the hard hitting lessons learned by the company by Geoff as the Change Champion and by Stephen as the Change Agent In the Company of Sacred Cows provides you with a framework for making organizational change in your company Whether your business is growing or shrinking this book provides you with a how to manual with the real life tools and techniques you need to meet rapidly changing business demands

Making the Matrix Work, 2nd edition Kevan Hall, 2023-09-05 How to work and manage others successfully in matrix organisations operating across regions and functions with global teams customers and supply chains Traditional management training prioritizes clarity predictability and control In a matrix we need to be able to balance this with the ability to tolerate ambiguity manage uncertainty and decentralize control Managers need an expanded toolkit to help them move from the hard to the soft from the concrete to the ambiguous and back again depending on the situation Making the Matrix Work helps you develop your matrix mindset and will show you how to establish and engage networks that do not depend on role control or authority to get things done This 10 year anniversary edition has been extensively revised to cover Agile and digital working for those working and managing in the fast paced new world of work with autonomous teams iterative working and non hierarchical leadership It will includes new material on alignment and connecting across silos and on autonomous teams as well as 3 major new chapters on Change and stability Hierarchy Networks There are updates to terms and techniques throughout the book to reflect hybrid and post pandemic working considerations and the impact of digital transformation

The Special Events Advisor David Sorin, 2004-04-26 There s no dearth of books on the logistics of event planning but not much has been published to address the legal and business issues that concern the thousands of companies that make up this industry This book covers all the legal and business issues that special events professionals need to understand from contractual considerations to little known governmental regulations with heavy ramifications Ignorance of the law can prove very costly in an industry in which expectations must be met the first time and in our ever more litigious society the need for this niche title is clear

Weird Ideas That Work Robert I. Sutton, 2002-03-02 A breakthrough in management thinking weird ideas can help every organization achieve a balance between sustaining performance and fostering new ideas To succeed you need to be both conventional and counterintuitive Creativity new ideas innovation in any age they are keys to success Yet as Stanford professor Robert Sutton explains the standard rules of business behavior and management are precisely the opposite of what it takes to build an innovative company We are told to hire people who will fit in to train them extensively and to work to instill a corporate culture in every employee In fact in order to foster creativity we should hire misfits goad them to fight and pay them to defy convention and undermine the prevailing culture Weird Ideas That Work codifies these and other proven counterintuitive ideas to help you turn your workplace from staid and safe to wild and woolly and creative In Weird Ideas That Work Sutton draws on extensive research in behavioral psychology to explain how innovation can be fostered in hiring managing and motivating people building teams making decisions and interacting with outsiders Business practices like hire people who make you uncomfortable and reward success and failure but punish inaction strike many managers as strange or even downright wrong Yet Weird Ideas That Work shows how some of the best teams and companies use these and other counterintuitive practices to crank out new ideas and it demonstrates that every company can reap sales and profits from such creativity Weird Ideas That Work is filled

with examples drawn from hi and low tech industries manufacturing and services information and products More than just a set of bizarre suggestions it represents a breakthrough in management thinking Sutton shows that the practices we need to sustain performance are in constant tension with those that foster new ideas The trick is to choose the right balance between conventional and weird and now thanks to Robert Sutton s work we have the tools we need to do so **The Other Side of Leadership** Rob Curry,2016-01-27 Get ready to embark on an expedition with a fresh approach to leadership You will discover contributing factors that may be slowing stopping or even reversing progress in your church ministry or organization The Other Side of Leadership takes you beyond the standard concepts to lesser understood approaches to enhance effectiveness and avoid pitfalls You will learn about the three aspects of the Other Side of Leadership that will equip you with Strategies for highly effective thinking both individually and corporately to gain and handle truth accurately and holistically Skills to understand and connect with people to unite leaders and followers toward a common cause A course of action to successfully follow through on plans with maturity and tenacity Guide to Organisation Design Naomi Stanford,The Economist,2015-04-28 Business failure is not limited to start ups Industry Watch published by BDO Stoy Hayward an accounting firm predicts that 17 043 businesses will fail in the UK in 2006 a further 4 per cent increase from 2005 In America between 1990 and 2000 there were over 6 3 million business start ups and over 5 7 million business shut downs Risk of failure can be greatly reduced through effective organizational design that encourages high performance and adaptability to changing circumstances Organization design is a straightforward business process but curiously managers rarely talk about it and even more rarely take steps to consciously design or redesign their business for success This new Economist guide explores the five principles of effective organization design which are that it must be driven by the business strategy and the operating context not by a new IT system a new leader wanting to make an impact or some other non business reason involve holistic thinking about the organization be for the future rather than for now not to be undertaken lightly it is resource intensive even when going well be seen as a fundamental process not a repair job Racing cars are designed and built They are then kept in good repair **Army RD & A.** ,1999 Professional publication of the RD A community
