Seven Pennies and Other Short Stories Zsigmond Mórícz, 1988 *Hungarian Rhapsodies* Richard Teleky, 2011-11-01

Like the renowned American writer Edmund Wilson who began to learn Hungarian at the age of 65 Richard Teleky started his study of that difficult language as an adult Unlike Wilson he is a third generation Hungarian American with a strong desire to understand how his ethnic background has affected the course of his life Exploring my ethnicity he writes became a way of exploring the arbitrary nature of my own life It was not so much a search for roots as for a way of understanding rootlessness how I stacked up against another way of being He writes with clarity perception and humor about a subject of importance to many Americans reconciling their contemporary identity with a heritage from another country From an examination of photographer Andre Kertesz to a visit to a Hungarian American church in Cleveland from a consideration of stereotypical treatment of Hungarians in North American fiction and film to a description of the process of translating Hungarian poetry into English Teleky's interests are wide ranging he concludes with an account of his first visit to Hungary at the end of Soviet rule , The Oxford Guide to Literature in English Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e g Virgil's Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e g poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e g the Thousand and One Nights or writers e g Ibsen Proust but the majority offer a critical overview of a genre e g Chinese poetry Spanish Golden Age drama or of a national literature e g Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators **7 best short stories - Victorian Fairy Tales** Oscar Wilde, Dinah Craik, John Ruskin, Edith Nesbit, Kenneth Grahame, George MacDonald, August Nemo, 2020-05-12 Welcome to the book series 7 best short stories specials selection dedicated to a special subject featuring works by noteworthy authors The texts were chosen based on their relevance renown

This compendium includes his landmark novels such as *Star Maker* and *Odd John*, which push the boundaries of human imagination and contemplate existence on both cosmic and evolutionary scales. Stapledon's literary style, marked by a blend of poetic prose and insightful commentary, situates his work within the modernist literary context, responding to the existential crises of the early 20th century while contemplating humanity's place in the universe. His narratives are rich in allegory and serve as meditations on both individual and collective experiences, inviting readers to reflect on both present and future possibilities. Olaf Stapledon (1886-1950), a British philosopher and author, was profoundly influenced by his experiences in World War I and the subsequent societal upheavals. His intellectual background, including his study of philosophy at the University of Liverpool, encouraged him to merge scientific inquiry with imaginative storytelling, fostering a unique vision that sought to explore complex questions regarding consciousness, civilization, and ethics. Stapledon's commitment to humanistic values and his inquiries into humanity's fate made him a pivotal figure in science fiction. This collection is not just a testament to Stapledon's imaginative prowess but also a philosophical treatise that prompts essential reflections on the future of humanity. I highly recommend *The Collected Works* to readers who seek to engage with profound questions through the lens of bold, visionary storytelling. Stapledon's works resonate profoundly today, urging us to contemplate our role in the cosmos and the ethical dimensions of our advancements. **The Bookseller**, 1913 Official organ of the book trade of the United Kingdom **British Books**, 1903 Catalogue of Printed Books British Museum, 1888 British Museum Catalogue of printed Books, 1888 The Pirates' Chronicles: Greatest Sea Adventure Books & Treasure Hunt Tales Jules Verne, Charles Dickens, Robert Louis Stevenson, James Fenimore Cooper, Edgar Allan Poe, William Hope Hodgson, Howard Pyle, Jack London, Arthur Conan
