Regional Policy in China Marek Świątek, 2022-12-12 Currently much is said about the directions of development of modern China However we still do not know what will determine the expected superpower position of the Middle Kingdom The book is an attempt to answer questions about China's main development challenges from a regional perspective China aspires to become the country with the largest economy and development potential This intention may turn out to be in vain

if such significant disparities and development imbalances in the regional system are still present in China The key to understanding the transformation of contemporary China is to recognize the internal determinants of the functioning of both the state and the economy from a regional perspective A better understanding of the ways of managing regional development disparities may contribute to a more accurate assessment of the dynamics and directions of China's socio-economic development

**Politics in China** William A. Joseph, 2014 On October 1 2009 the People's Republic of China PRC celebrated the 60th anniversary of its founding And what an eventful and tumultuous six decades it had been During that time under the leadership of the Chinese Communist Party CCP China was transformed from one of the world's poorest countries into the world's fastest growing major economy and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence Over those same years the PRC also experienced the most deadly famine in human history caused largely by the actions and inactions of its political leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy Today China is for the most part peaceful prospering and proud This is the China that was on display for the world to see during the Beijing Olympics in 2008 The CCP maintains a firm grip on power through a combination of popular support largely based on its recent record of promoting rapid economic growth and harsh repression of political opposition Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive corruption extreme inequalities and a rising tide of social protest
