Migrants Minorities And Health Historical And Contemporary Studies:

Migrants, Minorities & Health Lara Marks, Michael Worboys, 2002-11-01 How has twentieth century medicine dealt with immigrants and minorities The contributors to *Migrants Minorities and Health* have studied a number of different types of migrant and minority groups from different societies around the world in order to examine the complex relations between health issues and ideas of ethnicity and race The collection explores the historical origins and the contemporary power of stereotypical views of immigrants as importers of disease for instance or of minorities as a source of infection in the host society The authors show how ideas of ethnicity and race have shaped and in turn have been influenced by the construction of medical ideas Challenging our common assumptions about migrants minorities and health this collection brings together new perspectives from a variety of disciplines It will make fascinating reading for social historians medical historians and social policy makers

Migrants, Minorities and Health Lara Marks, Michael Worboys, 2014-12-01 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company

Migration, Health and Ethnicity in the Modern World C. Cox, H. Marland, 2013-10-29 The volume focuses on the relationship between migration health and illness in a global context from c 1820 to the present day It takes a wide range of finely grained case studies to examine epidemic disease and its containment chronic illness and mental breakdown and the health management of migrant populations in the modern world

An Introduction to Immigrant Incorporation Studies Jan Rath, Marco Martiniello, 2025-10-01 Focusing mainly on the European experience including Eastern Europe this important volume offers an advanced introduction to immigrant incorporation studies from a historical empirical and theoretical perspective Beyond incorporation theories renowned scholars in the field explore incorporation in action in different fields policy issues and normative dimensions

Contagious Communities Roberta Bivins, 2015-09-24 It was only a coincidence that the NHS and the Empire Windrush a ship carrying 492 migrants from Britain's West Indian colonies arrived together On 22 June 1948 as the ship's passengers disembarked frantic preparations were already underway for 5 July the Appointed Day when the nation's new National Health Service would first open its doors The relationship between immigration and the NHS rapidly attained and has enduringly retained notable political and cultural significance Both the Appointed Day and the post war arrival of colonial and Commonwealth immigrants heralded transformative change Together they reshaped daily life in Britain and notions of Britishness alike Yet the reciprocal impacts of post war immigration and medicine in post war Britain have yet to be explored *Contagious Communities* casts new light on a period which is beginning to attract significant historical interest Roberta Bivins draws attention to the importance but also the limitations of medical knowledge approaches and professionals in mediating post war British responses to race ethnicity and the emergence of new and distinctive ethnic communities By presenting a wealth of newly available or previously ignored archival evidence she interrogates and re balances the political history of Britain's response to New Commonwealth immigration *Contagious Communities* uses a set of linked case studies to

map the persistence of race in British culture and medicine alike the limits of belonging in a multi ethnic welfare state and the emergence of new and resolutely unimagined communities of patients researchers clinicians policy makers and citizens within the medical state and its global contact zones *Plural Medicine, Tradition and Modernity, 1800-2000* Waltraud Ernst, 2002-11 This book brings together current critical research into medical pluralism during the last two centuries It includes a rich selection of historical anthropological and sociological case studies *Afterlife of Empire* Jordanna Bailkin, 2012-11-15 This book investigates how decolonization transformed British society in the 1950s and 1960s and examines the relationship between the postwar and the postimperial *Tuberculosis Then and Now* Flurin Condrau, Michael Worboys, 2010-01-01 In *Tuberculosis Then and Now* leading scholars and new researchers in the field reflect on the changing medical social and cultural understanding of the disease and engage in a wider debate about the role of narrative in the social history of medicine and how it informs current debates and issues surrounding the treatment of tuberculosis and other infectious diseases Through a case study of the history of tuberculosis and its treatment this collection examines medicine and health care from the perspectives of class race and gender providing a challenging and refreshing addition to the field of bacteria centred accounts of the history of medicine *Mental Health and Human Rights* Michael Dudley, Derrick Silove, Fran Gale, 2012-06-21 People with mental disorders often suffer the worst conditions of life This book is the first comprehensive survey of the mental health human rights relationship It examines the relationships and histories of mental health and human rights and their interconnections with law culture ethnicity class economics biology and stigma

Securing Empire Beatrice de Graaf, Ozan Ozavci, Erik de Lange, 2024-10-17 This volume explores how the quest for security reshaped the world over the course of the 19th century altering the structures hierarchies and dynamics of international relations during a pivotal moment in world history Taking a unique approach to imperial and international history the essays in this volume show how security propelled imperial expansion supported institutions of cooperation maintained networks of imperial actors and shaped experiences of imperial rule Contending that security should be studied as a force in its own right one that drove processes of colonization civilization and commerce *Securing Empire* shows how cooperation between and across empires hinged on shared notions of threats and common ways of countering them In showing that security did not solely inform support and complicate unilateral imperial endeavours but also brought different imperial entities together and forged global modes of government this book shows how integral security was to the global transformation of the 19th century and the new world order that emerged **Race, Science and Medicine, 1700-1960** Waltraud Ernst, Bernard Harris, 2002-01-04 Considering cases from Europe to India this collection brings together current critical research into the role played by racial issues in the production of medical knowledge Confronting such controversial themes as colonialism and medicine the origins of racial thinking and health and migration the distinguished contributors examine the role played by medicine in the construction of racial categories **The Politics of Madness** Joseph

Melling,Bill Forsythe,2006-04-18 The discovery and treatment of insanity remains one of the most debated and discussed issues in social history Focusing on the second half of the nineteenth century The Politics of Madness provides a new perspective on this important topic based on research drawn from both local and national material Within a social and cultural history of the English political and class order it presents a fresh appraisal of the significance of the asylum in the decades following the creation of a national asylum system in 1845 Arguing that the new asylums provided a meeting place for different social interests and aspirations the text asserts that this then marked a transition in provincial power relations from the landed interests to the new coalition of professional commercial and populist groups which gained control of the public asylums at the end of the period surveyed

Sex, Sin and Suffering Roger Davidson,Lesley A. Hall,2003-09-02 This volume brings together for the first time a series of studies on the social history of venereal disease in modern Europe and its former colonies It explores from a comparative perspective the responses of legal medical and political authorities to the Great Scourge In particular how such responses reflected and shaped social attitudes towards sexuality and social relationships of class gender generation and race

Histories of the Normal and the Abnormal Waltraud Ernst,2006-09-27 This fascinating volume tackles the history of the terms normal and abnormal Originally meaning as occurring in nature normality has taken on significant cultural gravitas and this book recognizes and explores that fact The essays engage with the concepts of the normal and the abnormal from the perspectives of a variety of academic disciplines ranging from art history to social history of medicine literature and science studies to sociology and cultural anthropology The contributors use as their conceptual anchors the works of moral and political philosophers such as Canguilhem Foucault and Hacking as well as the ideas put forward by sociologists including Durkheim and Illich With contributions from a range of scholars across differing disciplines this book will have a broad appeal to students in many areas of history

Food, Science, Policy and Regulation in the Twentieth Century Jim Phillips,David F. Smith,2013-04-15 This highly topical book offers a comprehensive study of the interaction of food politics and science over the last hundred years A range of important case studies from pasteurisation in Britain to the E coli outbreak offers new material for those interested in science policy and the role of expertise in modern political culture

Financing Medicine Martin Gorsky,Sally Sheard,2006-10-03 Financing Medicine brings together a collection of essays dealing with the financing of medical care in Britain since the mid eighteenth century with a view to addressing two major issues Why did the funding of the British health system develop in the way it did What were the ramifications of these arrangements for the nature and extent of health care before the NHS The book also goes on to explore the lessons and legacies of the past which bear upon developments under the NHS The contributors to this volume provide a sustained and detailed examination of the model of health care which preceded the NHS an organization whose distinctive features hold such fascination for the scholars of health systems and their insights illuminate current debates on the future of the NHS For students and scholars of the history of medicine this will prove essential

reading Social Histories of Disability and Deformity David M. Turner, Kevin Stagg, 2006-09-27 Collecting together essays written by an international set of contributors this book provides an important contribution to the emerging field of disability history. It explores changes in understandings of deformity and disability between the sixteenth and twentieth centuries and reveals the ways in which different societies have conceptualised the normal and the pathological. Through a variety of case studies including early modern birth defects, homosexuality, smallpox, scarring, vaccination, orthopaedics, deaf education, eugenics, mental deficiency and the experiences of psychologically scarred military veterans, this book provides new perspectives on the history of physical, sensory and intellectual anomaly. Examining changes over five centuries, it charts how disability was delineated from other forms of deformity and disfigurement by a clearer medical perspective. Essays shed light on the experiences of oppressed minorities, often hidden from mainstream history, but also demonstrate the importance of discourses of disability and deformity as key cultural signifiers which disclose broader systems of power and authority, citizenship and exclusion. The diverse nature of the material in this book will make it relevant to scholars interested in cultural, literary, social and political as well as medical history.

Doctors beyond Borders Laurence Monnaï, David Wright, 2016-05-09 The transnational migration of health care practitioners has become a critical issue in global health policy and ethics. *Doctors beyond Borders* provides an essential historical perspective on this international issue, showing how foreign-trained doctors have challenged and transformed health policy and medical practice in countries around the world. Drawing on a wide variety of sources from immigration records and medical directories to oral histories, the contributors study topics ranging from the influence of South Asian doctors on geriatric medicine in the United Kingdom to the Swedish reaction to the arrival of Jewish physicians fleeing Nazi Germany and the impact of the Vietnam War on the migration of doctors to Canada. Combining social history, the history of health and medicine and immigration history, *Doctors beyond Borders* is an impressive selection of essays on a topic that continues to have global relevance.

The Healthy Country? Alistair Woodward, Tony Blakely, 2015-01-01 Did Maori or Europeans live longer when Captain James Cook arrived in New Zealand in 1769? Why were Pakeha New Zealanders the healthiest, longest-lived people on the face of the globe for 80 years, and why did Maori not enjoy the same life expectancy? Why were New Zealanders' health and longevity surpassed by other nations in the late 20th century? Through lively text and quantitative analysis presented in accessible graphics, the authors answer these questions by analyzing the impact of nutrition and disease, immigration and unemployment, alcohol and obesity, and medicine and vaccination. The result is a powerful argument about why people live and why people die in New Zealand and what might be done about it. *The Healthy Country* is important reading for anyone interested in the story of New Zealanders and a decisive contribution to current international debates about health, disease and medicine.

Worlds of Health Kate Reed, 2003-03-30 In this era of globalization, we are faced with a plethora of health goods and services on the local and global marketplace. Faced with such variety and availability, how do we choose? This volume examines the influence

of ethnicity gender and generation on our health choices focusing in particular on the choices of British Asian mothers Asian women who are born and raised in Britain but are members of a globally dispersed ethnic group Other factors such as family religion community and space are also taken into account by the author who uses original empirical research to explore the interconnections between the different factors and the ways in which these women combine western and nonwestern health discourses in their daily lives
