Our Nuclear Heritage:

Opposing Poetries: Readings Hank Lazer, 1996 Explains to structural engineers some of the basic equations for analyzing and designing buildings that were devised at the end of the 19th century but were so unmanageably complex to solve that they were displaced by approximation techniques until the recent advent of electronic computer Heyman engineering U of Cambridge warns that some of the equations turn out not to fit reality as close as future occupants of buildings might prefer and explains how to use them and in what context Annotation copyrighted by Book News Inc Portland OR *Trees, Our Precious Heritage* Martin Schmiede, 2025-09-10 There are two vital subjects in this book It is oxygen and longevity The oxygen production from trees plants and plankton organism have been a fascinating subject in Martin Schmiede s studies and articles Plankton activity produces 40% photosynthesis on this planet and 40% oxygen It is a fact that human beings and so many other organisms would stop to exist if oxygen would not be present *Our Heritage* ,1983

Our Unprotected Heritage Thomas F King, 2016-09-16 Most Americans agree that our heritage both natural and cultural should be protected Then why does development run rampant aided rather than limited by government inaction Tom King has been a participant in and observer of this system for decades as a government worker heritage consultant and advocate for local communities In this hard hitting critique of the heritage industrial complex King points the finger at watchdogs who instead serve as advocates unintelligible often contradictory regulations disinterested government employees and power seeking agencies all of whom conspire to keep our heritage unprotected His solution to this crisis will be uncomfortable to many in power but may help save more of our cultural and natural treasures **Our Roots Run Deep:**

A Heritage of Hypocrisy Holliston Perni, 2005-10 In the dark says since the attack on the World Trade Center the question that many Americans have asked is Why Why do they hate us as they do Is it as our leaders would have us believe because they hate our freedom To understand what others find objectionable in us we must take a long and brutally honest view of how we act versus what we like to say about ourselves The facts as this book demonstrates are incontrovertible Our history is an unbroken progression of atrocities betrayals of trust and abuses of the rule of law both to our global neighbors as well as our own citizens Since the arrival of the first settlers we have cheated and swindled committed the most sweeping genocide in history 100 000 000 members of the indigenous populations attacked civilian populations with nuclear weapons promoted conflicts at home and abroad supported brutal right wing regimes bullied those weaker than us and performed gruesome experiments on the most defenseless of our own citizens poor southern blacks retarded teens and pregnant women These sadly are the facts and are what others see when we say our proud slogans about peace and promoting democracy But who among us is actually responsible for this ignominious state of affairs As Perni argues all of these iniquities can be traced to three sources big business fundamentalist right wing Christians whom he characterizes as our own domestic Taliban and a corrupt government that serves the corporations while manipulating the easily swayed voters
