Russian Unemployment and Enterprise Restructuring Guy Standing,1996-01-01 *Russian Unemployment and Enterprise Restructuring* Guy Standing,2014-01-14 In the 1990s attempted shock therapy generated unemployment much worse than many economists claimed This book based on an enterprise survey conducted between 1991 and 1994 examines how factories responded to unprecedented pressures highlighting employment cuts changing corporate governance and unanticipated labour market outcomes

The Russian Labour Market Vladimir Gimpelson,Douglas Lippoldt,2002-07-15 Labour markets are a central element of any transition from planned economy to market oriented system This groundbreaking book examines the plight of Russian workers and employers during the first decade of post Soviet reforms The authors argue that higher than expected labour market flexibility early in the transition provided an important cushion for workers who would have been displaced with little recourse to social protection However over time this flexibility reduced pressure for enterprise restructuring and accommodated policy drift Although many workers were quite mobile often this translated into a loss of human capital for older enterprises even potentially viable ones and to churning in the labour market accompanied by only limited restructuring There was little job creation labour hoarding persisted and many workers saw their wages eroded by inflation and late payment of wages The authors show this situation was largely the result of insufficient structural reforms poor institutional development and misplaced incentives First providing an overview of the economic situation key labour market trends and the institutional situation during the 1990s the book then reviews labour market dynamics The authors assess changes in old jobs at former state enterprises and evaluate new job creation mostly in private businesses They examine the evolution of wages and the availability of social protection to workers A special thematic section considers the political economy of labour market policy that brought the Russian approach to labour market adjustment to life The conclusion presents an integrated picture of the Russian labour market in the aftermath of the early transition period and highlights the implications of the experience for current policy

considers the crisis of 1998 and its effects which included the curtailment of speculation and growing investment in the old industrial sector which in turn put the new small and medium sized enterprises under increasing pressure discusses the wider theoretical implications of the Russian experience for other transitional economies **Economic Transition in Russia and the New States of Eurasia** Anjum Siddiqui,2007 Examines the economies and geo political developments of India Pakistan Afghanistan Nepal Bangladesh Sri Lanka and Bhutan This work focuses on three core areas of importance trade and development in the post WTO era of globalization macroeconomic adjustment and economic growth and more

Why is Unemployment Low in the Former Soviet Union? Simon Commander, Andrei Tolstopiatenko,1996 *The Political Economy of Post-Soviet Russia* V. Tikhomirov,2000-05-15 This book deals with general political and economic developments that took place in Russia since the collapse of the Soviet Union The major aim of the book is to analyse successes and failures of Russian reform attempts as well as their effect on the development of Russian regions particularly from the point of view of interrelation between socio economic tendencies and political developments Analysis concentrates on both national dynamics and dynamics of development in three main groups of regions mining agricultural and manufacturing Russian Trade Unions and Industrial Relations in Transition S. Ashwin,S. Clarke,2002-11-14 Many commentators expected the Russian trade unions to collapse along with the system of which they were an integral part but the trade unions survived the storms of the Yeltsin era by adopting a strategy of social partnership This book based on case study and survey research in eight Russian regions provides a detailed account of the development of trade unionism in Russia since the collapse of the soviet system Against the background of the role of the trade unions in the soviet system the book reviews the political role structure and functions of the trade unions development of social partnership at federal and regional levels and provides a detailed account of the activity of the trade unions at the level of enterprise The book concludes with a critical assessment of the Russian unions strategy of social partnership and locates it in comparative perspective
