## Luftwaffe Over The North:

Luftwaffe Over the North Bill Norman, 1993      *Hitler's Northern War* Adam R. A. Claasen, 2001 Adolf Hitler had high hopes for his conquest of Norway which held both great symbolic and great strategic value for the Fuhrer. Despite early successes, however, his ambitious northern campaign foundered and ultimately failed. Adam Claasen, for the first time, reveals the full story of this neglected episode and shows how it helped doom the Third Reich to defeat. Hitler and Raeder, the chief of the German navy, were determined to take and keep Norway. By doing so, they hoped to preempt Allied attempts to outflank Germany, protect sea lanes for German ships, access precious Scandinavian minerals for war production, and provide a launchpad for Luftwaffe and naval operations against Great Britain. Beyond those strategic objectives, Hitler also envisioned Norway as part of a pan-Nordic stronghold, a centerpiece of his new world order. But as Claasen shows, Hitler's grand expectations were never realized. Gring's Luftwaffe was the vital spearhead in the invasion of Norway, which marked a number of wartime firsts. Among other things, it involved the first large-scale aerial operations over sea rather than land; the first time operational objectives and logistical needs were fulfilled by air power; and the first deployment of paratroopers. Although it got off to a promising start, the German effort, particularly against British and Arctic convoys, was greatly hampered by flawed strategic thinking, interservice rivalries between the Luftwaffe and navy, the failure to develop a long-range heavy bomber, the diversion of planes and personnel to shore up the German war effort elsewhere, and the northern theater's harsh climate and terrain. Claasen's study covers every aspect of this ill-fated campaign from the 1940 invasion until war's end and shows how it was eventually relegated to a backwater status as Germany fought to survive in an increasingly unwinnable war. His compelling account sharpens our picture of the German air force and widens our understanding of the Third Reich's way of war.

[The Luftwaffe's Secret WWII Missions](#) Dmitry Degtev,Dmitry Zubov,2020-12-28 Full of mystery and intrigue surrounding the Abwehr and the Luftwaffe secret missions supporting the insertion and less frequent extraction of agents Aviation News There are many vivid episodes in the operational service of the Luftwaffe s special and secret units which engaged in the delivery of agents and saboteurs in the rear of the enemy throughout the Second World War not just on the Eastern Front but across Asia and Europe The activities of the pilots and crews of these squadrons even in the Luftwaffe itself were closed and secret Information on the operations and missions of these units was known only to a limited number of people It was common practice for the crew of one aircraft in these units to know nothing about the assignments of their fellow airmen The area of activity of such units and aircraft covered the whole of Europe North Africa the Arctic circle the Urals the Caucasus and Central Asia including Iran Iraq and Afghanistan The Luftwaffe not only flew to these remote regions but also created secret bases for their aircraft Drawn from German and Russian sources much of the latter only recently declassified the authors expose for the very first time the Luftwaffe s secret operations and reveal the fate of many of the pilots agents and saboteurs in a story as breathtakingly dramatic as any blockbuster novel A most interesting account of the special Luftwaffe units that flew agents into enemy territory during WWII What may surprise many readers is the extent of

these operations that stretched deep into the Soviet Union and also into the Middle East and Afghanistan Firetrench **RAF**  
**On the Offensive** Greg Baughen,2018-09-30 Long before the start of the Second World War it had been believed that strategic bombing would be the deciding factor in any future conflict Then Hitler launched the Blitzkrieg upon France and the Low Countries in 1940 and the much vaunted French Army and the British Expeditionary Force were swept away in just six weeks This new form of warfare shook the Air Ministry but the expected invasion never came and the Battle of Britain was fought in the air It seemed that air forces operating independently could determine the course of the war An Army scarcely seemed necessary for the defence of the UK and no British army could ever be powerful enough to mount an invasion of Europe on its own Bombing Germany into defeat seemed Britain s only option In North Africa however Commonwealth armies and air forces were demonstrating that they too could use blitzkrieg tactics to crush opponents Britain was also no longer alone Greece and then the Soviet Union joined the fight RAF on the Offensive describes how British air power developed after the Battle of Britain Attitudes were beginning to change the fighter rather than the bomber was re emerging as the principal means of gaining air superiority As 1941 drew to a close the strategic air offensive appeared to be achieving little and conventional land warfare seemed poised to replace it as the way to defeat the enemy Which direction then would the war take **The Army Air Forces in World War II, Volume One: Plans and Early Operations, January 1939 to August 1942** , **History of World War II.** Tim Cooke,Edward Horton,Christer Jorgensen,2005 Presents a comprehensive discussion of the origins events campaigns and personalities of World War II
