

A photograph of a narrow dirt path winding through a dense forest. The trees are tall and thin, with their trunks creating a rhythmic pattern on either side of the path. Sunlight filters through the canopy, creating a bright, hazy glow at the end of the path. The overall atmosphere is peaceful and serene. The text is overlaid on the upper half of the image.

Sorenson,2008-11-01 Christianity is in crisis in our North American context especially among the cultural elite and people with progressive views The reasons for the faith s loss of credibility have to do in large part with the dominant philosophical materialism of our culture and with the understanding of the faith almost universally held by Americans both inside the churches and outside them In this book Thomas C Sorenson calls this understanding Biblicism by which he means the belief that the Bible is to be understood only literally and that in one way or another its authority comes from its claimed origin with God Many enlightened people also reject Christianity because the only Christianity they know is the judgmental socially conservative faith that the most vocal and visible advocates of the faith among us so loudly espouse This book offers a different understanding of the faith It begins with a discussion of the universal

human experience of the spiritual dimension of reality It then discusses symbol and myth as the necessary language for communicating that experience The book shows that all human experience is necessarily subjective and that religious truth is thus also necessarily subjective Therefore religious truth is relative not universal and absolute The work argues that the Bible is a human work expressing its authors experience of the divine The book then discusses other obstacles to faith and offers a different understanding of the issues they raise The book replaces the classical theory of atonement with a theology of the cross based mainly on the work of Douglas John Hall It redefines salvation as having to do with this life not with the afterlife It closes with a section that replaces the dominant social conservatism of popular Christianity with Jesus s teachings of nonviolence economic justice and radical inclusivity

St. Luke's Missiology Harold E. Dollar,1996-06-01 How the Gospel Won the World Luke s writings make up over one fourth of the New Testament Yet despite an array of research studies of Luke and Acts frequently miss the missiological contributions that Luke makes to the story of early Christianity Accordingly *St Luke s Missiology* explores many of the fundamental contributions of Luke s two volume work as he tells how a small Jewish sect became a worldwide movement in just one generation Although this work focuses on Acts part one discusses the essential unity of the two volumes Part two considers key events that shape the church s mission to the Gentiles The final section highlights several applications for missiological practice Luke narrates the history of the Christian movement from a divine perspective His story of how the gospel moves from the particular to the universal gives insight into the missiological dynamics of early Christianity and provides models for the church and missions today

Reading the Bible across Contexts Esa J. Autero,2016-06-10 In *Reading the Bible Across Contexts* Esa Autero offers a fresh perspective on Luke s poverty texts In addition to an historical reading he conducted an empirical investigation of two Latin American Bible reading groups one poor and the other affluent to shed light on Luke s poverty texts The interaction between historical reading and present day readings demonstrates the impact of socio economic status on biblical hermeneutics and sheds new light on Luke s views on wealth and poverty At the same time Esa Autero critically examines
