

Lung Transplantation

D.K. Cooper, L.W. Miller, G.A. Patterson

Lung Transplantation:

Lung Transplantation A.J. Fisher,G.M. Verleden,G. Massard,2009-09-01 Lung transplantation is a treatment option for selected patients who are not responding to maximal medical therapy or for whom no effective medical therapy exists This Monograph provides a comprehensive guide to the recent advances in lung transplantation and includes coverage of donor selection immunosuppression infectious and noninfectious complications and management of bronchiolitis obliterans syndrome and post transplant lymphoproliferative disease emerging after lung transplantation

Lung Transplantation Ganesh Raghu,Roberto G. Carbone,2018-07-28 This book details all aspects of lung transplantation and equips the general pulmonologist physician with the necessary tools and knowledge to assist patients with the preparation for and care post lung transplantation Written by global experts chapters present general principles and history indications and eligibility for lung transplantation including screening for COPD cystic fibrosis scleroderma Idiopathic pulmonary fibrosis IPF and idiopathic pulmonary arterial hypertension approach to and complications of lung transplantation such as prognostic markers radiological approach and immunology and rejection and medical and surgical guidelines for lung transplantation The goal of lung transplantation is to increase survival and to provide a greater quality of life for patients with untreatable end stage lung disease and this book serves to best prepare clinicians in achieving that goal Lung Transplantation Evolving knowledge and New horizons offers valuable insights into this modality and is an authoritative resource for multidisciplinary services that include experts in pulmonary diseases critical care cardiology thoracic surgery infection diseases internal medicine radiology immunology nephrology rehabilitation psychology psychiatry nurses social workers and nutritionists

Lung Transplantation Michael Perch,Federica Meloni,Robin Vos,2024-12-01 Most people are familiar with the general concept of lung transplantation Yet the actual number of patients who receive a transplant is limited and the number of healthcare workers dedicated to this area remains restricted to staff at selected highly specialised centres This Monograph provides an excellent tool for ensuring the knowledge gap between the basic and highly specialised healthcare worker remains as small as possible Aimed at healthcare professionals across the respiratory field the book covers medical and surgical treatment of advance lung disease prior to transplantation the identification optimisation and availability of donor organs and both early and long term post lung transplant management Readers will find it to be a comprehensive and state of the art overview of recent progress in the field and current best practices

Lung Transplantation Wickii Vigneswaran,Edward Garrity,John Odell,2016-01-05 Lung Transplantation Principles and Practice covers the current practice in donor and recipient management as well as current treatment strategies and outcomes With 39 chapters from international experts in the field the book is divided into four broad sections General Topics Donor Management Recipient Management and Outcome and the Future o

Contemporary Lung Transplantation Alessandro Bertani,Patrizio Vitulo,Paolo Antonio Grossi,2024-11-01 Lung transplantation is a successful therapeutic option for patients with end stage respiratory failure Although the clinical

outcomes of this procedure have been constantly improving the care of patients undergoing lung transplantation is still a striking challenge for the entire team involved in the process The complexity of a clinical lung transplant program requires a trained multi specialist team and continuing technical update Technology provides exciting new opportunities for the improvement of clinical outcomes This text provides a comprehensive practical and up to date insight into clinical lung transplantation It moves along the pre intra and post operative phases of transplantation It explores the most relevant surgical medical and immunological concepts of this field The content focuses not only on the technical scientific and medical aspects of lung transplantation but also on the administrative regulatory and nursing topics of running a lung transplant program Rather than presenting purely theoretical chapters the text sets the focus on clinical dilemmas and practical issues involving all the professionals who actively run a lung transplant program The reader will be able to access the book for reference on any topic related to clinical care in lung transplantation This text is intended as a practical resource for surgeons physicians and health professionals involved in lung transplantation or in setting up a lung transplant program All chapters are written by experts in their fields and will include the most up to date scientific and clinical information The overall intent of this publication is to assist the health care provider in all the daily aspects of lung transplantation and to offer a modern practical source of suggestions and answers

Essentials in Lung Transplantation Allan R.

Glanville,2018-08-30 This book presents a clear and concise summary of the clinical tenets of lung transplantation with an update on recent developments in the field It examines the operational principles which underpin successful lung transplantation and shows how an evidenced based approach combined with wisdom borne of experience leads to better outcomes in day to day management Focused on simplicity and elegance of style with ample visual images this book provides a unique overview of trends and strategies for the best outcomes in lung transplantation Approachable and easily digested this book will be a go to resource for professionals seeking a succinct and well illustrated guide to this growing area of surgical transplantation
