The New York Market for French Art in the Gilded Age, 1867-1893

Leanne M. Zalewski,2022-12-15 This transatlantic study analyses a missing chapter in the history of art collecting the first art market bubble in the United States In the decades following the Civil War French art monopolized art collections across the United States During this Gilded Age picture rush the commercial art system art dealers galleries auction houses exhibitions museums art journals press coverage art histories and collection catalogues established a strong foothold it has not relinquished to this day In addition a pervasive concern for improving aesthetics and providing the best contemporary art to educate the masses led to the formation not only of private art collections but also of institutions such as the Metropolitan Museum of Art and to the publication of art histories Richly informed by collectors and art dealers diaries letters stock books journals and hitherto neglected art histories The New York Market for French Art in the Gilded Age 1867 1893 offers a fresh perspective on this trailblazing era

Women Artists in Paris, 1850-1900 Laurence

Madeline,Pauline Willis,2017-01-01 Paris was the epicenter of art during the latter half of the nineteenth century luring artists from around the world with its academies museums salons and galleries Despite the city s cosmopolitanism and its cultural stature Parisian society remained strikingly conservative particularly with respect to gender Nonetheless many

women painters chose to work and study in Paris at this time overcoming immense obstacles to access the city's resources. *Women Artists in Paris 1850-1900* showcases the remarkable artistic production of women during this period of great cultural change, revealing the breadth and strength of their creative achievements. Guest Curator Laurence Madeline, Chief Curator at Musée d'Art et d'Histoire Geneva, has selected close to seventy compelling paintings by women of varied nationalities ranging from well-known artists such as Berthe Morisot, Mary Cassatt, and Rosa Bonheur to lesser-known figures such as Kitty Kielland, Louise Breslau, and Anna Ancher. *American Impressionism and Realism* Helene Barbara Weinberg, Doreen Bolger, David Park Curry, 1994. An examination of the continuities and differences between American Impressionism and Realism. Copyright Libri GmbH. All rights reserved. *American Stories* Helene Barbara Weinberg, Carrie Rebora Barratt, 2009. They also consider the artists' responses to foreign prototypes, travel and training, changing exhibition venues, and audience expectations. The persistence of certain themes: childhood, marriage, the family, and the community; the attainment and reinforcement of citizenship; attitudes toward race; the frontier as reality and myth; and the process and meaning of making art, underscores evolving styles and standards of storytelling. Divided into four chronological sections, the book begins with the years surrounding the American Revolution and the birth of the new republic, when painters such as Copley, Peale, and Samuel F. B. Morse incorporated stories within the expressive bounds of portraiture. During the Jacksonian and pre-Civil War decades, from about 1830 to 1860, Mount Bingham, Lilly Martin Spencer, and others painted genre scenes featuring lighthearted narratives that growing audiences for art could easily read and understand. **A Parisienne in Chicago** Madame Léon Grandin, 2010. This fascinating account of a French woman's impressions of America in the late nineteenth century reveals an unusual cross-cultural journey through fin de siècle Paris, Chicago, and New York. Madame Léon Grandin's travels and extended stay in Chicago in 1893 were the result of her husband's collaboration on the fountain sculpture for the World's Columbian Exposition. Initially impressed with the city's fast pace and architectural grandeur, Grandin's attentions were soon drawn to its social and cultural customs, reflected as observations in her writing. During a ten-month interval as a resident, she was intrigued by the interactions between men and women, mothers and their children, teachers and students, and other human relationships, especially noting the comparative social freedoms of American women. After this interval of acclimatization, the young Parisian socialite had begun to view her own culture and its less liberated mores with considerable doubt. "I had tasted the fruit of independence of intelligent activity and was revolted at the idea of assuming once again the passive and inferior role that awaited me," she wrote. Grandin's curiosity and interior access to Chicago's social and domestic spaces produced an unusual travel narrative that goes beyond the usual tourist reactions and provides a valuable resource for readers interested in late nineteenth-century America, Chicago, and social commentary. Significantly, her feminine views on American life are in marked contrast to parallel reflections on the culture by male visitors from abroad. It is precisely the dual narrative of this text—the simultaneous recounting of a foreigner's impressions and the

consequent questioning of her own cultural certainties that make her book unique This translation includes an introductory essay by Arnold Lewis that situates Grandin s account in the larger context of European visitors to Chicago in the 1890s

Passionate Discontent Patricia Mathews,1999 Art historian Patricia Mathews examines the artistic social and scientific discourses of fin de siecle France Along the way she illuminates the Symbolist construction of a feminized aesthetic that nonetheless excluded female artists from its realm She analyzes contemporary cultural assumptions as well as theories such as social Darwinism biological determinism and degeneracy BOOK JACKET **George Inness and the Science of**

Landscape Rachael Z. DeLue,2008-09-15 George Inness 1825-94 long considered one of America s greatest landscape painters has yet to receive his full due from scholars and critics A complicated artist and thinker Inness painted stunningly beautiful evocative views of the American countryside Less interested in representing the details of a particular place than in rendering the subjective mystery of nature Inness believed that capturing the spirit or essence of a natural scene could point to a reality beyond the physical or as Inness put it the reality of the unseen Throughout his career Inness struggled to make visible what was invisible to the human eye by combining a deep interest in nineteenth century scientific inquiry including optics psychology physiology and mathematics with an idiosyncratic brand of mysticism Rachael Ziady DeLue s **George Inness and the Science of Landscape** the first in depth examination of Inness s career to appear in several decades demonstrates how the artistic spiritual and scientific aspects of Inness s art found expression in his masterful landscapes In fact Inness s practice was not merely shaped by his preoccupation with the nature and limits of human perception he conceived of his labor as a science in its own right This lavishly illustrated work reveals Inness as profoundly invested in the science and philosophy of his time and illuminates the complex manner in which the fields of art and science intersected in nineteenth century America Long awaited this reevaluation of one of the major figures of nineteenth century American art will prove to be a seminal text in the fields of art history and American studies Overcoming All Obstacles Jane R.
