[The Precious and Sacred Writings of Martin Luther ...](#) Martin Luther,1905 *Cyclopaedia Bibliographica: a Library Manual of Theological and General Literature, and Guide to Books for Authors, Preachers, Students, and Literary Men. Subjects. Holy Scriptures* James Darling (Bookseller in London, 1797-1862.),1859 **God Is Not Fair, Thank God!** George E. Thompson,2014-02-05 Life is not fair What does this reality imply about the nature of God and the destiny of human beings In this engaging book Thompson asserts that fairness is not an expectation of the faithful within the Judeo Christian Scriptures Biblical narrative discloses the mystery of a paradoxical deity that indwells with the suffering of creation and thereby provides a mercy that exceeds the evasive goal of fairness The process of healing and redemption of this cracked creation occurs through the tears and suffering of the biblical God whose authentic power is revealed within divine vulnerability and weakness The Jesus of history truly manifested the fullness of this paradoxical God for he disclosed the richness of the divine Being by emptying himself and taking the form of a redemptive servant When the church grasps for power and control avoids compassionate and costly ministries among the poor and powerless and renders primary focus upon gaining heavenly rewards it rejects its Christ centered mission relinquishes its paradoxical purpose and ceases to strive toward becoming an extension of the incarnation Thompson explores various paradoxical facets of each person of the Trinity and richly illustrates with stories from his vast experience as a parish theologian [The Oxford Encyclopedia of the Books of the Bible](#) Michael D. The Global Edwards Rhys S. Science and Religion in Wittgenstein's Fly-Bottle Tim Labron, 2017-09-21 Are science and religion in accord or are they diametrically opposed to each other The common perspectives for or against religion are based on the same question Do religion and science fit together or not These arguments are usually stuck within a preconceived notion of realism which assumes that there is a true reality that is independent of us and is that which we discover However this context confuses our understanding of both science and religion The core concern is not the relation between science and religion it is realism in science and religion Wittgenstein's philosophy and developments in quantum theory can help us to untie the knots in our preconceived realism and as Wittgenstein would say show the fly out of the bottle This point of view changes the discussion from science and religion competing for the discovery of the true reality external to us realism and from claiming that reality is simply whatever we pragmatically think it is nonrealism to realizing the nature and interdependence of reality language and information in science and religion
