The Crystal Palace and the Great Exhibition Hermione Hobhouse, 2002-03-05 The Great Exhibition of 1851 and the Crystal Palace which housed it together became a British icon a symbol of free trade and a national success funded not only by taxes but by public subscription Though the Palace itself was banished to Sydenham to leave Hyde Park free for Londoners the Commission was re-invented under Prince Albert to spend the profits for the advancement of British industry The Commissioners first established South Kensington with its Museums and Colleges of Art and Science the Albert Hall and the Royal College of Music and then moved into the training of scientists and artists They assisted in the expansion of the British School at Rome and for over a century 1851 Scholars have been contributing to British scientific discoveries This book celebrates 150 years of the Commission s work fired by the application of art and science to productive industry a story

of some success and permanent record yet a pilgrimage not without its episodes of dissension and controversy *Rome* Chris Michaelides, 2000 *Italy* Diane Ghirardo, 2013-02-15 Packed in its dense historic city centers Italy holds some of the most prized architecture and art in the world with which planners and politicians have had to negotiate as they struggle to cope with massive migration from the countryside to the city Early modern architecture coincided with a sustained drive to transform a country that was still primarily rural into a modern industrial state and throughout the twentieth century architects in Italy have attempted to define the role of architecture within a capitalist economy and under diverse political systems In Italy Modern Architectures in History Diane Yvonne Ghirardo addresses these and other issues in her analysis of the last century of Italy's building practices Specifically she examines the post unification efforts to identify a distinctly Italian architectural language as well as the transformation of the urban environment in Italian cities undergoing industrialization in the late nineteenth and early twentieth centuries She challenges received interpretations of modern architecture and also looks at the subject of illegal building and current responses to ecological challenges In order to illuminate the full scope of the building industry in Italy her examples are drawn not only from the work of widely published architects in the largest cities but from throughout the peninsula including small towns and rural areas Insightful reading for those interested in Italian culture this book offers a new way of understanding the architectural history of modern Italy

Artistic Reconfigurations of Rome Kaspar Thormod, 2019-04-09 In *Artistic Reconfigurations of Rome* Kaspar Thormod examines how visions of Rome manifest themselves in artworks produced by international artists who have stayed at the city's foreign academies Structured as an alternative guide to Rome the book represents an interdisciplinary approach to creating a dynamic visual history that brings into view facets of the city's diverse contemporary character Thormod demonstrates that when artists successfully reconfigure Rome they provide us with visions that being anchored in a present undermine the

connotations of permanence and immovability that cling to the Eternal City epithet Looking at the work of these artists the reader is invited to engage critically with the question what is Rome today or perhaps better what can Rome be *Incantati Da Roma* Museo Hendrik Christian Andersen (Rome, Italy),2005 *Encyclopedia of the History of Classical Archaeology* Nancy Thomson de Grummond,2015-05-11 With 1 125 entries and 170 contributors this is the first encyclopedia on the history of classical archaeology It focuses on Greek and Roman material but also covers the prehistoric and semi historical cultures of the Bronze Age Aegean the Etruscans and manifestations of Greek and Roman culture in Europe and Asia Minor The Encyclopedia of the History of Classical Archaeology includes entries on individuals whose activities influenced the knowledge of sites and monuments in their own time articles on famous monuments and sites as seen changed and interpreted through time and entries on major works of art excavated from the Renaissance to the present day as well as works known in the Middle Ages As the definitive source on a comparatively new discipline the history of archaeology these finely illustrated volumes will be useful to students and scholars in archaeology the classics history topography and art and architectural history *Brill's New Pauly* Manfred Landfester,Hubert Cancik,Helmuth Schneider,Francis G.
