Law in Modern Society Roberto Mangabeira

Unger,1977-07 Law in Modern Society is a comparative study of the place of law in societies as well as a criticism of social theory Under what conditions do different kinds of law emerge What are the bases of the rule of law ideal that marks advanced liberal capitalist societies What can the study of law teach us about social hierarchy and moral vision in these societies and indeed about the specificity of Western civilization Why do we find it necessary to struggle for the rule of law and impossible to achieve it What political possibilities are closed or opened by present day changes in the established styles of legality and legal thought Unger deals with these questions in a broad range of historical settings But he also relates them to the central issues of social theory the method of explanation the conditions of social order and the nature of modern society the book argues that to resolve its own internal dilemmas the science of society must once again become both metaphysical and political

Globalization and Common Responsibilities of States

Koen De Feyter,2017-05-15 There is a growing awareness that international law insufficiently protects common global

interests and that States and non State actors need to work together to protect global aims The focus of this book is on the different fields of international law where there is a need for global cooperation to achieve common aims for example the law of the sea protection of world cultural heritage sustainable development biological diversity and climate change human rights and international crimes The volume also identifies the legal developments which have taken place for example treaties which use the language of common heritage of mankind or common concern of humanity thereby identifying global concerns and reflecting a global set of values and interests independent of the interests of States *Realistic Socio-legal Theory* Brian Z. Tamanaha, 1997 Combining philosophical pragmatism with a methodological foundation Tamanaha formulates a framework for a realistic approach to socio legal theory The strengths of this approach are contrasted with that of the major schools of socio legal theory by application to core issues in this area Thus Tamanaha explores the problematic state of socio legal studies the relationship between behaviour and meaning the notion of legal ideology the problem of indeterminacy in rule following and application and the structure of judicial decision making These issues are tackled in a clear and concise fashion while articulating a social theory of law which draws equally from legal theory and socio legal theory *Electron Spin Resonance* P B Ayscough, 2007-10-31 Specialist Periodical Reports provide systematic and detailed review coverage of progress in the major areas of chemical research Written by experts in their specialist fields the series creates a unique service for the active research chemist supplying regular critical in depth accounts of progress in particular areas of chemistry For over 80 years the Royal Society of Chemistry and its predecessor the Chemical Society have been publishing reports charting developments in chemistry which originally took the form of Annual Reports However by 1967 the whole spectrum of chemistry could no longer be contained within one volume and the series Specialist Periodical Reports was born The Annual Reports themselves still existed but were divided into two and subsequently three volumes covering Inorganic Organic and Physical Chemistry For more general coverage of the highlights in chemistry they remain a must Since that time the SPR series has altered according to the fluctuating degree of activity in various fields of chemistry Some titles have remained unchanged while others have altered their emphasis along with their titles some have been combined under a new name whereas others have had to be discontinued The current list of Specialist Periodical Reports can be seen on the inside flap of this volume *Nonlinear And Chaotic Phenomena In Plasmas, Solids And Fluids - Proceedings Of The Conference* W Rozmus, Jack A Tuszynski, 1991-07-22 **Catalogue of Title-entries of Books and Other Articles Entered in the Office of the Librarian of Congress, at Washington, Under the Copyright Law ...
