

The background of the book cover is a soft, painterly illustration. It depicts a man with dark skin and short hair, wearing a white button-down shirt, looking down with a gentle smile at a young girl. The girl, also with dark skin, has her hair in pigtails with white bows and is wearing a white dress with ruffled sleeves. She is looking up at the man. They are standing in a field of tall, golden-brown grass under a warm, hazy sky. The title text is overlaid on the upper right portion of the illustration.

Black Communications and Learning to Read Terry Meier, 2020-08-19. This book is about effective literacy instruction for students in grades K-4 who use the language variety that many linguists call African American English, but which, as explained in the Introduction, the author calls Black Communications (BC). Throughout, considerable attention is given to discussing the integral and complex interconnections among African American language, culture, and history, drawing significantly on examples from African American historical and literary sources. Although it is theoretical in its description of the BC system and its discussion of research on language socialization in African American communities, the major focus of this book is pedagogy. Many concrete examples of successful classroom practices are included so that teachers can readily visualize and use the strategies and principles presented.

Part I: What is Black Communications? presents an overview of the BC system, providing a basic introduction to the major components of the language: phonology, grammar, lexicon, and pragmatics, and illustrating how these components work in synchrony to create a coherent whole.

Part II: Language Socialization in the African American Discourse Community examines existing research on African American children's language socialization.

Part III: Using African American Children's Literature draws connections between strategy instruction and the linguistic and rhetorical abilities discussed in Part II. Each chapter ends with suggestions for using African American literature to help children develop their speaking and writing abilities.

Part IV: Children Using Language moves from a focus on teaching comprehension strategies to helping BC speakers learn to decode text. This volume is directed to researchers, faculty, and graduate students in the fields of language and literacy education and linguistics and is well suited as a text for graduate-level courses in these areas.

Helbig, Agnes Regan Perkins, 2000-10-30. Celebrating the wealth of quality multicultural literature recently published for children and young adults, this valuable resource examines the fiction, oral tradition, and poetry from four major ethnic groups in the United States. Each of these genres is considered in turn for the literature dealing with African Americans, Asian Americans, Hispanic Americans, and Native American Indians. Taking up where their earlier volume *This Land is Our Land* left off, Helbig and Perkins have teamed up once again to identify and expertly evaluate more than 500 multicultural books published from 1994 through 1999. Both considered authorities in the field of children's literature, the two of them personally selected, read, and evaluated all the books included here. Their insightful annotations help readers carefully consider both literary standards such as plot, development, characterization, and style, as well as cultural values as they are represented in these cited works. Each entry

also indicates the suggested age and grade level appropriateness of the work With the proliferation and ever increasing popularity of multicultural literature for children and young adults this sensitively written volume will serve as an invaluable collection development tool Teachers as well as librarians will find the comprehensiveness and organization of this bibliography helpful as a guide in selecting appropriate materials for classroom use Even students will find this book easy to use with its five indexes identifying works by title writer illustrator grade level and subject Public libraries and school media centers will find much use for *Many Peoples One Land* **Best Books for Children** John Thomas Gillespie, Corinne J.
