It all started in the quiet Dorset town of Cerne Abbas during the Napoleonic Wars. Vicar's daughter Christina Proud marries smithy and sometime smuggler Will Jenkins, who soon falls foul of the law. Will is given a choice: take the King's shilling or the noose. So Will joins the army, and Christina's begins her odyssey as a camp follower. The battalion is quickly deployed to Spain to join General Arthur Wellesley's Peninsula Army, fighting against the French. Threatened by platoon Sergeant Jack Newell and with her husband powerless to help, Christina is befriended by Lieutenant Jonathan McAlister, who offers her protection. With the French Army massing at Talavera, the battalion marches into battle. Under the blistering Spanish sun, Christina must now fight for her life, and those she loves, beset on all sides by bandits, partisans, deserters, French cavalry, and the squalor of a military campaign gone wrong. Teaming Amy C. Edmondson,2012-03-20 New breakthrough thinking in organizational learning leadership and change Continuous improvement understanding complex systems and promoting innovation are all part of the landscape of learning challenges today s companies face Amy Edmondson shows that organizations thrive or fail to thrive based on how well the small groups within those organizations work In most organizations the work that produces value for customers is carried out by teams and increasingly by flexible team like entities The pace of change and the fluidity of most work structures means

that it is not really about creating effective teams anymore but instead about leading effective teaming. Teaming shows that organizations learn when the flexible fluid collaborations they encompass are able to learn. The problem is teams and other dynamic groups don't learn naturally. Edmondson outlines the factors that prevent them from doing so such as interpersonal fear, irrational beliefs about failure, groupthink, problematic power dynamics and information hoarding. With Teaming, leaders can shape these factors by encouraging reflection, creating psychological safety and overcoming defensive interpersonal dynamics that inhibit the sharing of ideas. Further, they can use practical management strategies to help organizations realize the benefits inherent in both success and failure. Presents a clear explanation of practical management concepts for increasing learning capability for business results. Introduces a framework that clarifies how learning processes must be altered for different kinds of work. Explains how Collaborative Learning works and gives tips for how to do it well. Includes case study research on Intermountain healthcare, Prudential, GM, Toyota, IDEO, the IRS and both Cincinnati and Minneapolis Children's Hospitals among others. Based on years of research, this book shows how leaders can make organizational learning happen by building teams that learn.

The appearance of Martin Bernal's *Black Athena: The Afro-Asian Roots of Classical Civilization* in 1987 sparked intense debate and controversy in Africa, Europe and North America. The transportation of enslaved African persons into Europe, the Americas and the Caribbean brought African and diasporic African people into contact in significant numbers.

with the Greek and Latin classics for the first time in modern history In African Athena the contributors explore the impact of the modern African diaspora from the sixteenth century onwards on Western notions of history and culture examining the role Bernal's claim has played in European and American understandings of history and in classical European American and Caribbean literary production African Athena examines the history of intellectuals and literary writers who contested the white dominant Euro American constructions of the classical past and its influence on the present Martin Bernal has written an Afterword to this collection

Prayer and Politics Peter van der Veer, 2018-10-11 Prayer is an important religious practice that is rarely studied from the perspective of politics and yet it should be Though some forms of Protestantism teach that prayer should be individual and private this is an exception rather than a rule In many other religions and cultures the regulation of collective and public prayer cannot be separated from the complex world of politics Where is prayer allowed and where not Who can participate and who can't How should you pray and how shouldn't you Prayer is subject to a host of both written and unwritten political rules From the Pentecostal religious battle where prayer is both sword and shield against the Satanic Other to the relations between Islam and Christianity prayer as spiritual warfare can be found cross culturally and across the world This book brings together case studies of the political salience of prayer in Nigeria France India Russia and the United States It deals with Christian Muslim and Hindu practices In a world where religious tensions are ever present it reminds us of the intensely political nature of prayer This book was originally published as a special issue of the Journal of Religious and Political Practice
