## **Macau In Transition From Colony To Autonomous Region:**

*Macau in Transition* H. Yee, 2001-09-12 The book analyzes various aspects of the process of Macau's transition from a Portuguese autonomous territory to a Chinese special administrative region. It analyzes the role of those involved in the process: Beijing, Lisbon, the local Portuguese Macau administration, the Macau branch of the New China News Agency, the Luso-Chinese Joint Liaison Group, and the local political and social groups. It stresses the dynamics of interactions between actors as well as the political, economic, and social changes in the enclave that have direct or indirect impact on the transition.

**Reading China Against the Grain** Carlos Rojas, Mei-hwa Sung, 2020-10-28 Through an analysis of a wide array of contemporary Chinese literature from inside and outside of China, this volume considers some of the ways in which China and Chineseness are understood and imagined. Using the central theme of the way in which literature has the potential to both reinforce and to undermine a national imaginary, the volume contains chapters offering new perspectives on well-known authors from Jin Yucheng to Nobel Prize-winning Mo Yan, as well as chapters focusing on authors rarely included in discussions of contemporary Chinese literature, such as the expatriate authors Larissa Lai and Xiaolu Guo. The volume is complemented by chapters covering more marginalized literary figures throughout history, such as Macau-born poet Yiling, the Malaysian-born novelist Zhang Guixing, and the ethnically Korean author Kim Hak-chul. Invested in issues ranging from identity and representation to translation and grammar, it is one of the few publications of its kind devoting comparable attention to authors from Mainland China, authors from Manchuria, Macau, and Taiwan, and throughout the global Chinese diaspora. *Reading China Against the Grain: Imagining Communities* is a rich resource of literary criticism for students and scholars of Chinese studies, sinophone studies, and comparative literature.

*Portugal, China and the Macau Negotiations, 1986-1999* Carmen Amado Mendes, 2013-05-01 On December 20, 1999, the city of Macau became a Special Administrative Region of China after nearly four hundred and fifty years of Portuguese administration. Drawing extensively on Portuguese and other sources, and on interviews with key participants, this book examines the strategies and policies adopted by the Portuguese government during the negotiations. The study sets these events within the larger context of Portugal's retreat from empire, the British experience with Hong Kong, and changing social and political conditions within Macau. A weak player on the international stage, Portugal was still able to obtain concessions during the negotiations, notably in the timing of the retrocession and continuing Portuguese nationality arrangements for some Macau citizens. Yet the tendency of Portuguese leaders to use the Macau question as a tool in their domestic political agendas hampered their ability to develop an effective strategy, and left China with the freedom to control the process of negotiation.

*The Emerging Asian City* Vinayak Bharne, 2013 Asian cities create concomitant imagery: polarizations of poverty and wealth, blurry lines between formality and informality, and stark juxtapositions of ancient historic places with shimmering new skylines. With Asia's re-emergence on the global stage, there is an acute focus on its multifarious urban issues and identities. What are Asian cities going to become? Will

they surpass the economic and environmental debacles of the West This collection of twenty four essays surveys the most dominant issues shaping the Asian urban landscape today It offers scholarly reflections and positions on the forces shaping Asian cities and the forces that they in turn are shaping Sovereignty at the Edge Cathryn H. Clayton, 2020-03-17 How have conceptions and practices of sovereignty shaped how Chineseness is imagined This ethnography addresses this question through the example of Macau a southern Chinese city that was a Portuguese colony from the 1550s until 1999 As the Portuguese administration prepared to transfer Macau to Chinese control it mounted a campaign to convince the city's residents 95 percent of whom identified as Chinese that they possessed a unique cultural identity that made them different from other Chinese and that resulted from the existence of a Portuguese state on Chinese soil This attempt sparked reflections on the meaning of Portuguese governance that challenged not only conventional definitions of sovereignty but also conventional notions of Chineseness as a subjectivity common to all Chinese people around the world Various stories about sovereignty and Chineseness and their interrelationship were told in Macau in the 1990s This book is about those stories and how they informed the lives of Macau residents in ways that allowed different relationships among sovereignty subjectivity and culture to become thinkable while also providing a sense of why at times it may not be desirable to think them Macau 20 Years after the Handover Meng U Ieong, 2020-05-25 This book outlines the major social and political changes in the city of Macau during its first 20 years under the One Country Two Systems arrangement with Mainland China Despite the long standing image of Macau as Asia's Las Vegas it is a city that has changed a great deal since its return to China Equally despite this return it retains a unique social economic and political character distinct both from the Mainland of China and from its larger neighbour Hong Kong The chapters in this book examine the detail of this uniqueness from a range of perspectives including the gambling industry police society relations media usage patterns and protest movements Analysing the state of affairs 20 years after the city's return to China they also attempt to anticipate its future trajectory This is a valuable guide for scholars of Asian and particularly Chinese urban politics that will be of interest to academics and students looking to better understand the particularities of Macau *Hybrid Constitutionalism* Eric C. Ip, 2019-04-25 This is the first book that focuses on the entrenched fundamental divergence between the Hong Kong Court of Final Appeal and Macau's Tribunal de Última Instância over their constitutional jurisprudence with the former repeatedly invalidating unconstitutional legislation with finality and the latter having never challenged the constitutionality of legislation at all This divergence is all the more remarkable when considered in the light of the fact that the two Regions commonly subject to oversight by China's authoritarian Party state possess constitutional frameworks that are nearly identical feature similar hybrid regimes and share a lot in history ethnicity culture and language Informed by political science and economics this book breaks new ground by locating the cause of this anomaly studied within the universe of authoritarian constitutionalism not in the common law civil law differences between these two former European dependencies but the disparate levels of

K. Lam, Ian Scott, 2011-08-01 The small city of Macao formerly a Portuguese colony now a Special Administrative Region of China liberalized its gaming industry in 2002 Since then a score of new casinos have been built and millions of gamblers have flooded in from mainland China Per capita income has more than doubled in five years and the gaming operators have outstripped their Las Vegas counterparts in revenue and profits But rapid economic growth has also brought social and political problems In this structured survey of modern Macao 15 experts examine the effects of massive foreign investment the problems of governance and increasing public policy challenges in a time of rapid change and potential social instability Newman M K Lam is professor of public administration at the University of Macau Ian Scott is emeritus professor and fellow of the Asia Research Centre at Murdoch University and adjunct professor of public and social administration at the City University of Hong Kong      **China's Macao Transformed** Eilo W.Y. **China's Policies On Its Borderlands And The International Implications** Yufan Hao,Bill K P Chou,2010-11-25 This book examines the interplay of two sets of policies the Chinese government s policies to its borderlands and international relations It proposes a conceptual framework and argues that China s policymakers fail to make complete use of the opportunities in the borderlands for accomplishing foreign policymakers agenda to strengthen China s relations with other countries neighboring ones in particular As a result these foreign policies reflect the political elites inadequate consideration of the negative impact of these policies on the borderlands and underscore their worry for territorial disintegration Therefore these policies center on the pursuit of central control through exercising administrative military coercion making the borderlands economically dependent standardizing

the cultural identity and indoctrinating CCP defined ideology The challenges of the borderlands to the national integration are exaggerated so much that political elites pursued control and standardization at the expense of the identification of many people in borderlands with the regime China's international image and the relations with its neighbouring countries

China's Rise - Threat or Opportunity? Herbert S. Yee,2010-10-15 The phenomenal growth of Chinese economic and military power in the first decade of the 21st century has drawn world wide attention Perceptions of China s rise have shifted from seeing China as a threat to a more mixed view where China is seen as playing a key role in economic recovery taking an increasingly responsible role in world affairs and contributing significantly to scientific and technological advances This book argues that China will only become a truly global power when its rising power status is accepted or at least tolerated by other major powers and China s neighbours Filling a major gap in the existing literature it presents a comprehensive overview of how China s rise is perceived in a wide range of countries and regions these include China s neighbours other world powers the parts of China not part of mainland China Taiwan Hong Kong and Macau and regions of the world where China is having an unexpected impact such as the Middle East It also examines changing perceptions of China in the western media Overall the book demonstrates that whilst many countries and regions are much more positive about China s rise than they were before considerable nervousness and concern persists
