Weren, 2014-08-28 These Studies in Matthew's Gospel by Wim J C Weren are the result of scholarly work carried out using recent methods in Biblical exegesis such as structural analysis text semantics and intertextuality Part One presents a new proposal regarding the macrostructure of Matthew's Gospel and discusses meanings of textual units from this Gospel on the basis of synchronic research In Part Two intertextual theories are described and practical tools are developed that enable us to identify various types of relations between texts from Matthew's Gospel and co generic or co thematic textual units from the Hebrew Bible the Septuagint and early Jewish and early Christian writings Part Three answers the question to what extent the ways in which the disciples are portrayed in Matthew is related to real groups in the Matthean communities The three successive steps are deliberately chosen and are in a complementary relationship to each other

Biblical Studies on the Internet Roland H. Worth, Jr., 2008-09-18 The new edition includes more than 4 800 resources available at more than 10 000 Internet sites that provide information on a range of biblical study topics including Bible translations in English and other languages audio translations of the Bible in English and other languages commentaries dictionaries and other resource materials including ones in Greek Hebrew and other ancient languages The author also has adopted a new method of referencing and cataloging the most widely used web pages to facilitate a major expansion of resources without increasing the physical length of the book itself In cases when ten or more resources are listed on a single web page the author has assigned the web page a three digit code The code is used to identify this web page as a major resource within the main text
