Matthew Todd's Journal Matthew Todd,1968 **Beyond the Grand Tour** Rosemary Sweet,Gerrit Verhoeven,Sarah Goldsmith,2017-02-17 Travel in early modern Europe is frequently represented as synonymous with the institution of the Grand Tour a journey undertaken by elite young males from northern Europe to the centres of the arts and antiquity in Italy Taking a somewhat different perspective this volume builds upon recent research that pushes beyond this narrow orthodoxy and which decentres Italy as the ultimate destination of European travellers Instead it explores a much broader pattern of travel undertaken by people of varied backgrounds and with divergent motives for travelling By tapping into current reactions against the reification of the Grand Tour as a unique and distinctive practice this volume represents an important contribution to the ongoing process of resituating the Grand Tour as part of a wider context of travel and topographical writing Focusing upon practices of travel in northern and western Europe rather than in Italy particularly in Britain the Low Countries and Germany the essays in this collection highlight how itineraries continually evolved in response to changing political economic and intellectual contexts In so doing the reasons for travel in northern Europe are subjected to a similar level of detailed analysis as has previously only been directed on Italy By doing this the volume demonstrates the variety of travel experiences including the many shorter journeys made for pleasure health education and business undertaken by travellers of varying age and background across the period In this way the volume brings to the fore the experiences of varied categories of traveller from children to businessmen which have traditionally been largely invisible in the historiography of travel *Servants Abroad* Richard Ansell,2024-11-18 *Servants Abroad* presents the journals of four British domestic servants who travelled to continental Europe in the eighteenth century With a full introduction these texts overturn the standard view of the Grand Tour by revealing the experiences and impressions of the majority who travelled in service **Aspects of English Negation** Yoko Iyeiri,2005-12-08 This book contains eleven carefully selected papers all discussing negative constructions in English The aim of this volume is to bring together empirical research into the development of English negation and analyses of syntactic variations in Present day English negation The first part *Aspects of Negation in the History of English* includes six contributions which focus on the usages of the negative adverbs *ne* and *not* the decline of negative concord and the development of the auxiliary *do* in negation Most of the themes discussed here are then linked to the second part *Aspects of Negation in Present day English* Especially the issue of negative concord is repeatedly explored by three of the five papers in this part one related to British English dialects in general another to Tyneside English and the other to African American Vernacular English This book uniquely highlights the importance of continuity from Old English to Present day English while in its introduction it provides a useful detailed survey of previous
