New Parents Of Quotes:

Mano a Mano--Quote, Unquote Dave Save,2008-03 Mano a Mano is a satirical story based on historical events in Zimbabwe when Robert Gabriel Mugabe transformed himself from the much loved Prime Minister to a controversial polarizing figure Millions of people have left Zimbabwe due to horrific economic times and widespread starvation The villagers of Maze Wibb who remain behind have no choice but to rely on themselves in their fight for real independence and soon discover that a good beginning does not guarantee a happy ending Through sweat and blood they build a school hoping to secure a bright future for their children but it soon becomes clear that the headmaster has other ideas The book is divided into two parts the first is a fictionalized account of true events encompassing comprehensive descriptions of the narrator s life his country and his people The second part weaves a variety of stories into one creating a dialogue that provides an introspective look into the ways and customs of a culture across the world This insightful novel is not just about an African country but about the strong and beautiful people who live within its borders and struggle to survive despite the appalling and dangerous conditions that surround them each day

Every Day With ADHD Kerry Cooney, 2019-06-01 After years of working with parents and their ADHD children it became apparent to author Kerry Cooney that there were unmet needs in families where a child had been diagnosed with ADHD A lack of knowledge and specific tools for ADHD was also causing concern for professionals who desperately wanted information on how best to assist these children and families Very few people truly understood ADHD and its impact on the child and the family many having the view that a child with ADHD is simply naughty far too demanding and uncontrollable It is the author's belief that the controversial aspects of the existence of ADHD and the use of medication kept the focus away from the child and the family's real issues often preventing any hope of clarity and moving towards a positive outcome Along with the need for understanding was a disturbing lack of support for the child and family dealing with ADHD This book has been written for parents carers and teachers of children with ADHD to help understand the world of their child along with providing workable strategies for every day living

Goodbye Mommy Lora Lee Boynton, 2009 A memoir of growing up in a dysfunctional family in the United States during the 1970s and 80s Lora Lee describes how she responded to a chaotic world by closing in on herself and building a shell around her a shell which is

cracked open when she endures cancer treatment for the second time and is forced to take stock of her life up to that point. Goodbye Mommy explores our relationships with our families whether completely dysfunctional adoptive or more conventional but the book's real importance lies beyond that in the way it raises the question of how far our families' upbringing and traumas suffered can seriously affect our health both immediately and in later life. Lora Lee's story is honestly told without being mawkish or self-pitying. Her recovery from breast cancer provides a happy and hopeful ending.
