Letters, Postcards, Email Esther Milne, 2012-02-27 In this original study Milne moves between close readings of letters postcards and emails and investigations of the material technological infrastructures of these forms to answer the question How does presence function as an aesthetic and rhetorical strategy within networked communication practices As her work reveals the relation between old and new communication systems is more complex than allowed in much contemporary media theory Although the correspondents of letters postcards and emails are not usually present to one another as they write and read their exchanges this does not necessarily inhibit affective communication Indeed this study demonstrates how physical absence may in some instances provide correspondents with intense intimacy and a spiritual almost telepathic sense of the other's presence While corresponding by letter postcard or email readers construe an

imaginary incorporeal body for their correspondents that in turn reworks their interlocutor's self presentation. In this regard the fantasy of presence reveals a key paradox of cultural communication namely that material signifiers can be used to produce the experience of incorporeal presence.

Handbook of Research in Educational Communications and Technology
M. J. Bishop, Elizabeth Boling, Jan Elen, Vanessa Svihla, 2020-09-21
The 5th edition of the prestigious AECT Handbook continues previous efforts to reach outside the traditional instructional design and technology community to the learning sciences and computer information systems communities toward developing a conceptualization of the field. However given the pervasive and increasingly complex role technology now plays in education since the 1st edition of the Handbook in 1996 the editors have reorganized the research chapters in this edition to focus on the learning problems we are trying to solve with educational technologies rather than to focus on the things we are using to solve those problems. Additionally for the first time this edition of the Handbook reflects our field's growing understanding of the importance of design scholarship to inform practice by including design case chapters. These changes for this edition of the Handbook are intended to bring educational technology research into the broader framework of educational research by elaborating on the role instructional design and technology plays as a scholarly discipline in addressing education's increasingly complex issues. Provides comprehensive reviews of new developments in educational technology research and design practice. Includes concrete examples to guide future research and practice in the ways emerging technologies can be used to solve educational problems. Contains extensive references furnished to guide readers to the most recent research and design practice in the field of instructional design and technology.

Breakcore Andrew Whelan, 2009-05-27
Peer to peer music exchange sampling and digital distribution have garnered much attention in recent years notably in debates about authorship intellectual property media control and Web 2. However empirical scholarship on how these technologies are used creatively by musicians and fans is still sparse. In this interdisciplinary ethnography of bedroom producer culture Andrew Whelan examines interaction and exchange within a specific online milieu peer to peer chatrooms dedicated to electronic music focusing on a genre known as breakcore. The author draws on semantic anthropology ethnomethodology sociolinguistics and critical musicology to explore the activity afforded by this controversial and criminalised environment. Through in depth analysis of often ritually vituperative text based interaction discussions of music and the samples used in that music Whelan describes the cultural politics and aesthetics of bedroom producer identity highlighting the roles gender and ethnicity play in the constitution of subcultural authenticity. Empirically driven throughout this book also engages with a spectrum of social theory in doing so it highlights the intersections between gender interaction technology and music. This book will prove valuable for students and scholars with interests in gender and language use computer mediated communication online subcultures and virtual community and the evolution production and distribution of electronic music.

Gender, Ethics and Information Technology
A. Adam, 2005-03-14
This book brings feminist philosophy in the shape of feminist ethics politics and legal

theory to an analysis of computer ethics problems including hacking privacy surveillance cyberstalking and Internet dating Adam claims that these issues cannot be properly understood unless we see them as problems relating to gender For the first time these issues are put under the feminist spotlight to show that traditional responses reproduce the public private split which has so often reinforced the causes of women's oppression *New Media, Politics and Society in Israel* Gideon Doron, Azi Lev-On, 2014-06-11 This book addresses the social and political landscape of Internet usage in Israel and studies the formation of a networked information society in the hi tech nation As Israel is considered a highly technologically developed country it could serve as a model to assess and compare the performance and prospects of the Internet in other countries as well Chapters address a range of issues including the diffusion of the Internet to Israel religion and the Internet in the Israeli Jewish context Internet based planned encounters between Israeli Jews and Palestinians and between Jews and Arabs in Israel online journalism and user generated content Israeli public relations online Internet usage by Israeli parliamentarians parties and candidates as well as audiences and the facilitation of personalized politics through personal sites of politicians This book was originally published as a special issue of *Israel Affairs* Communities in Cyberspace Peter Kollock, Marc Smith, 2002-06-01 This wide ranging introductory text looks at the virtual community of cyberspace and analyses its relationship to real communities lived out in today's societies Issues such as race gender power economics and ethics in cyberspace are grouped under four main sections and discussed by leading experts identity social order and control community structure and dynamics collective action This topical new book displays how the idea of community is being challenged and rewritten by the increasing power and range of cyberspace As new societies and relationships are formed in this virtual landscape we now have to consider the potential consequences this may have on our own community and societies Clearly and concisely written with a wide range of international examples this edited volume is an essential introduction to the sociology of the internet It will appeal to students and professionals and to those concerned about the changing relationships between information technology and a society which is fast becoming divided between those on line and those not **Handbook of Research on Social Interaction Technologies and Collaboration Software: Concepts and Trends** Dumova, Tatyana, Fiordo, Richard, 2009-07-31 This book explores the origin structure purpose and function of socially interactive technologies known as social software Provided by publisher Parents and Children Communicating with Society Thomas J.
