

Major philosophical thinkers and schools: The Systems of Indian Philosophy

- The Vedas are the oldest scriptures in the world. The Indian philosophical systems are classified according as they **accept the authority of the Vedas or not**. The systems of Indian philosophy are classified into two groups:
 1.
 - The Orthodox Systems (*astika* or theistic)
 - The Unorthodox Systems (*nastika* or atheistic)
 - The Vedas are commonly accepted by their adherents as having originally emanated from God.
 - Therefore in the Indian tradition, any system of thought not grounded in the Vedas, even if it includes belief in God or gods, is considered atheistic, *nastika*.
 - The *astika* schools, originally called sanatana dharma, are collectively referred to as Hinduism in modern times.
 - The orthodox systems are:
 - Vaisheshika,
 - Nyaya,
 - Samkhya,
 - Yoga,
 - Purva-Mimamsa, and
 - Uttar-Mimamsa.
 - Very often, Purva-Mimamsa is referred to as "Mimamsa" only and Uttar-Mimamsa as "Vedanta".
 - The unorthodox systems are:
 - Charvakism,
 - Ajivika,
 - Jainism and
 - Buddhism.
 - The orthodox systems uphold the supremacy of the Vedas.
 - The unorthodox systems reject the authority of the Vedas.
 - Truly speaking Vaisheshika, Nyaya, Samkhya and Yoga are neither orthodox nor unorthodox.
 - These four systems, while originating, neither accepted nor rejected the Vedas.
 - The orthodox systems form pairs as follows:
 - - Nyaya-Vaisheshika,
 - Yoga-Samkhya,
 - Mimamsa-Vedanta.

Source Book in Ancient Philosophy Charles Montague Bakewell, 1907. From the preface: Every one who has attempted to introduce students to the study of Philosophy by way of its history must have felt the need of having in compact form the most significant documents upon which the interpretations of that history are based in order that it may be possible from the first to bring the student into direct contact with the sources so far at least as that may be done through the medium of translations. The primary aim of this book is to supply this need. It is intended to serve either as a companion volume to any History of Philosophy that may be adopted as a text book or as a substitute for such a history where the instructor may prefer through his own lectures to give his own interpretation of this philosophical movement. It is hoped that the book may also as a reference work prove of value to students of philosophy generally as well as to all who are interested in the development of ancient thought. Thales to Sextus Garrett Thomson, 2015-09-22. The period spanning approximately 624-545 BC to 175-225 AD is often considered the most exciting in Western philosophy. Designed as a companion to the original works of the ancient philosophers from this early period, this introductory text spotlights seminal thinkers including the Sophists, offers a detailed analysis of the thoughts and teachings of Socrates, Plato, and Aristotle, and features a well-rounded assessment of the Hellenistic and Roman philosophers examining Epicureanism, Stoicism, and skepticism. Thomson's comprehensive treatment features accessible explanations of the philosophers' central arguments in metaphysics, epistemology, ethics, and politics. He presents critical assessments of the philosophers' views and recounts some of the major interpretations of the original texts by noted scholars.

The Book of Job in Medieval Jewish Philosophy Robert Eisen, 2004-09-16. Medieval Jewish philosophers have been studied extensively by modern scholars, but even though their philosophical thinking was often shaped by their interpretation of the Bible, relatively little attention has been paid to them as biblical interpreters. In this study, Robert Eisen breaks new ground by analyzing how six medieval Jewish philosophers approached the Book of Job. These thinkers covered are Saadia Gaon, Moses Maimonides, Samuel ibn Tibbon, Zerahiah Hen Gersonides, and Simon ben Zemah Duran. Eisen explores each philosopher's reading of Job on three levels: its relationship to interpretations of Job by previous Jewish philosophers, the way in which it grapples with the major difficulties in the text, and its interaction with the author's systematic philosophical thought. Eisen also examines the resonance between

the readings of Job of medieval Jewish philosophers and those of modern biblical scholars What emerges is a portrait of a school of Joban interpretation that was creative original and at times surprisingly radical Eisen thus demonstrates that medieval Jewish philosophers were serious exegetes whom scholars cannot afford to ignore By bringing a previously overlooked aspect of these thinkers work to light Eisen adds new depth to our knowledge of both Jewish philosophy and biblical interpretation
