Practicing Philosophy Richard Shusterman, 2016-02-04 Applying contemporary pragmatism to the crucial question of how philosophy can help us live better Shusterman develops his distinctive aesthetic model of philosophical living

that includes politics somatics and ethnicity while critically engaging the rival views of Dewey Wittgenstein and Foucault as well as Rorty Putnam Goodman Habermas and Cavell Three Philosophies of Life Peter Kreeft, 1989 I've been a philosopher for all my adult life and the three most profound books of philosophy that I have ever read are Ecclesiastes Job and Song of Songs These are the opening lines of Kreeft's Three Philosophies of Life He reflects that there are ultimately only three philosophies of life and each one is represented by one of these books of the Bible life is vanity life is suffering life is love In these three books Kreeft shows how we have Dante's great epic The Divine Comedy played out from Hell to Purgatory to Heaven But it is an epic played out in our hearts and lives here and now Just as there is movement in Dante's epic so there is movement in these books from Ecclesiastes to Job from Job to Song of Songs Love is the final answer to Ecclesiastes' quest the alternative to vanity and the true meaning of life Finally Kreeft sees in these books the epitome of theological virtues of faith hope and love and an essential summary of the spiritual history of the world Experiencing Philosophy - Second Edition Anthony Falikowski, Susan Mills, 2022-11-22 Experiencing Philosophy begins with the assumption that philosophy is not merely something you know but also something you experience and participate in The book presents philosophical theories and ideas with reference to their practical relevance to the lives of student readers To this end a number of engaging features and inserts are provided Original Sources Numerous primary readings are included introducing students directly to the philosophical work of diverse thinkers ranging from Plato to Martin Luther King Jr Each reading is thoughtfully excerpted and is followed by reflective questions Philosopher Profiles Abstract ideas are connected to the lives of real historical figures through fascinating biographical profiles Take It Personally To illustrate how philosophy can be useful and relevant each chapter begins by placing the material in a personal context Know Thyself Diagnostics This book takes seriously as did Socrates the Delphic Oracle's dictum to know thyself Students are given self diagnostics to explore their own philosophical values ideals and beliefs Philosophers in Action Philosophy is something you do not just something you know Prompts are provided throughout the text inviting students to conduct thought experiments analyze concepts and discuss and debate controversial points Thinking about Your Thinking These metacognitive prompts require students to engage in higher order thinking not only about the presented readings and ideas but also with respect to their own values assumptions and beliefs Plus Built in study guides diagrams famous philosophical quotations comics feature boxes and more

African Philosophies Séverine Kodjo-Grandvaux, 2025-08-19 For many students of philosophy in the West philosophy is understood as a discipline stemming from Ancient Greece embracing the great thinkers of medieval and early modern Europe and continuing through to the present day To the extent that other philosophical traditions are taken into account these tend to be selected philosophical traditions of Asia Rarely is African philosophy considered in this context even though Africa and the West are deeply interconnected through long histories of colonialism and slavery In this important book Séverine Kodjo-Grandvaux argues that a serious engagement with African philosophy is long overdue She shows that there is a

rich tradition of philosophical thought in Africa that addresses issues ranging from the legacies of colonialism to the nature of time the state responsibility identity dignity and personhood An engagement with African philosophy also offers a fresh perspective on Western philosophy prompting us to interrogate ourselves and our own history Conceptualizing African philosophy becomes a way of conceptualizing the world and of understanding how to know ourselves through the gaze of another African Philosophies is not so much a survey of philosophy in Africa but rather an account of how the question of African philosophy emerged in the second half of the 20th century and of what we can learn from a serious engagement with African philosophy today It will be of great interest to students and scholars in philosophy in colonial and postcolonial studies and throughout the humanities **Philosophy and the Spiritual Life** Victoria S. Harrison, Tyler Dalton

McNabb, 2023-07-01 This book breaks new ground for the philosophy of religion by showcasing work that engages with the lived reality of the spiritual life It demonstrates that philosophy's relationship with spirituality is more than a historical curiosity and that in the twenty first century it is still meaningful to think about philosophy in connection with spirituality The chapters are organised around the following themes spiritual practice and philosophical understanding philosophical reflections on living a spiritual life philosophical problems concerning the spiritual life The first part discusses whether or not the topic of spirituality should be given a more fundamental role within the philosophy of religion and if so how that might be accomplished The second part addresses fundamental issues concerning human beings their lives and their self understanding in relation to the spiritual life The final part considers philosophical problems that emerge when discussing the spiritual life By bringing together discussions of these topics this volume constitutes a valuable resource for scholars in disciplines in which the spiritual life is a focus of interest particularly philosophy theology and religious studies

Philosophies of the Afterlife in the Early Italian Renaissance Joanna Papiernik, 2024-03-21 The immortality of the soul is one of the oldest tropes in the history of philosophy and one that gained significant momentum in 16th century Europe But what came before Pietro Pomponazzi and his contemporaries Through examination of four neglected but central figures Joanna Papiernik uncovers the rich and varied nature of the afterlife debate in 15th century Italy By engaging with old prints manuscripts and other archival material this book reveals just how much interest there was in the question of immortality before the 16th century boom in Aristotelian translations In particular Papiernik sheds light on the treatises of Agostino Dati Leonardo Nogarola Antonio degli Agli and Giovanni Canali all of which have until now been overlooked in modern scholarship From Dati's critiques of ancient and existing positions to Agli's study of immortality and its relation to the metaphysics of light this volume investigates not only how wide ranging the debate was but also the important impact it had on later philosophical thinking Deftly combining close reading with a broad intellectual survey and including two editions of unpublished primary texts Philosophies of the Afterlife in the Early Italian Renaissance provides a crucial insight into the development of early Renaissance Platonism and philosophy of religion [Living Issues in Philosophy: Second Edition](#)

Philosophy as a Way of Life This unique collection of essays on the late Pierre Hadot's revolutionary methodological approach to studying and practicing philosophy explores Hadot's primary conviction that philosophy itself goes beyond solving puzzles and analyzing abstract arguments Hadot believed that philosophy is a key part of humanity's search for happiness that it can transform our perception of the world and thus can alter our very mode of being His argument that the goal of philosophy is to shift our focus away from our habitual obsession with individuality and to embrace universality and objectivity has resonated with thinkers across the Academy and outside it Offering genuinely interdisciplinary analysis of Hadot's work and philosophical practice this volume includes papers written from a gamut of philosophical historical and geographical perspectives Articles address issues in the history of philosophy from Pythagoras to Descartes by way of Islamic thought thus corresponding to Hadot's view of the importance of philologically based analysis of ancient texts and historical contexts Others study the presence of ideas related to or influenced by Hadot in contemporary thought from Wittgenstein to Leonard Nelson analytic philosophy and French postmodernism The result is a wide ranging publication pointing to an additional third way alongside the traditional approaches of Continental and analytic philosophy one that expands our horizons with secular spiritual exercises designed to enable us to be in a fuller more authentic way
