Philosophy And Myth In Karl Marx:

Philosophy and Myth in Karl Marx Robert C. Tucker, 2017-07-05 In Karl Marx's early writing first made available many years after his death his economic interpretation of history and his concept of communism were set in a comprehensive philosophical framework Marx's main preoccupation at this time was with man estranged from himself in an alienated world a subjective almost religious theme Taking full account of these earlier writings Robert Tucker critiques and reinterprets Marx's thought He shows how its origins can be located in earlier German philosophers in particular Kant Hegel and Feuerbach Reconstructing the genesis of Marxism in its founder's own mind he clarifies Marx's mystifying contention that Marxism represented Hegelianism turned on its head He then presents a new interpretation based on close textual analysis of the relation between Marx's early philosophical system and the subsequent materialist conception of history as expounded in the later and best known writings of Marx and Engels Against this background Tucker presents Das Kapital as a work belonging to the post Hegelian mythical development of Germany philosophy Considering in turn the genesis of Marxism and the underlying continuity of his thought from the early writings to Das Kapital Tucker shows the theme of alienation is central throughout In the years since the book was first written comments and criticism have encouraged Tucker to change his position somewhat This is explained in a new introduction that goes beyond the interpretative enterprise of the rest of the book to assess Marx in relation to contemporary concerns first it presents a critique of Marx's treatment of alienation and then it comments on the moot problem of the continuing relevance of his social and economic thought On the latter point his views have matured and altered during the intervening years and he now finds the economic and social aspects of Marx's thought considerably more relevant than he did before

Philosophy and Myth in Karl Marx Robert C. Tucker, 2001-01-01 In Karl Marx's early writing first made available many years after his death his economic interpretation of history and his concept of communism were set in a comprehensive philosophical framework Marx's main preoccupation at this time was with man estranged from himself in an alienated world a subjective almost religious theme Taking full account of these earlier writings Robert Tucker critiques and reinterprets Marx's thought He shows how its origins can be located in earlier German philosophers in particular Kant Hegel and Feuerbach Reconstructing the genesis of Marxism in its founder's own mind he clarifies Marx's mystifying contention that Marxism represented Hegelianism turned on its head He then presents a new interpretation based on close textual analysis of the relation between Marx's early philosophical system and the subsequent materialist conception of history as expounded in the later and best known writings of Marx and Engels Against this background Tucker presents Das Kapital as a work belonging to the post Hegelian mythical development of Germany philosophy Considering in turn the genesis of Marxism and the underlying continuity of his thought from the early writings to Das Kapital Tucker shows the theme of alienation is central throughout In the years since the book was first written comments and criticism have encouraged Tucker to change his position somewhat This is explained in a new introduction

that goes beyond the interpretative enterprise of the rest of the book to assess Marx in relation to contemporary concerns first it presents a critique of Marx's treatment of alienation and then it comments on the moot problem of the continuing relevance of his social and economic thought On the latter point his views have matured and altered during the intervening years and he now finds the economic and social aspects of Marx's thought considerably more relevant than he did before

Philosophy and Myth in Karl Marx, by Robert C. Tucker Robert C. Tucker, 1972 *Philosophy and Myth in Karl Marx* Robert C. Tucker, 2023-07-18 Tucker examines the role of myth and ideology in the writings of Karl Marx shedding new light on the philosophical foundations of Marxism and its continuing relevance today Drawing on a wide range of sources he argues that Marx's approach to ideology and myth provides a powerful framework for understanding contemporary political and economic realities This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

Philosophy and Myth in Karl Marx... Robert Charles Tucker, 1969 *Critique of Philosophy and Myth in Karl Marx* by Robert Tucker Atietie O. Tonwe, 1983 **Marx's Ethics of Freedom** George G Brenkert, 2013-10-17 This book reveals Marx's moral philosophy and analyzes its nature The author shows that there is an underlying system of ethics which runs the length and breadth of Marx's thought The book begins by discussing the methodological side of Marx's ethics showing how Marx's criticism of conventional morality and his views on historical materialism determinism and ideology are compatible with having an ideological system of his own In the light of contemporary social moral and political philosophy the insights and defects of Marx's major ethical themes are discussed

The Rise of Modern Mythology, 1680-1860 Burton Feldman, Robert D. Richardson, 2000-04-22 A book on modern mythology Karl Marx's Social and Political Thought Bob Jessop, Russell Wheatley, 1999 *Marxism And The Moral Point Of View* Kai Nielsen, 2021-11-28 Marxism and the Moral Point of View attempts to say what consistent Marxists working within the parameters of the canonical conceptions of Marxism should say about morality This includes what they should say about the function of morality in society about the extent of moral comment they can justifiably make and about freedom equality and justice including the justice of whole social formations Karl Marx and most Marxists follow him was opposed

Karl Marx's Economics John Cunningham Wood, 1987 The first 4 volumes of an 8 volume re issue of Karl Marx's key essays in the economics arena these titles also cover newer controversies in Marxian economics such as reinterpretations by Sraffa and Roemer **Marxism and Phenomenology** Bryan Smyth, Richard Westerman, 2021-10-25 Marxism and Phenomenology The Dialectical Horizons of Critique edited by Bryan Smyth and Richard Westerman offers new perspectives

on the possibility of a philosophical outlook that combines Marxism and phenomenology in the critique of capitalism Although Marxism's focus on impersonal social structures and phenomenology's concern with lived experience can make these traditions appear conceptually incompatible the potential critical force of a theoretical reconciliation inspired several attempts in the twentieth century to articulate a phenomenological Marxism Updating and extending this approach the contributors to this volume identify and develop new and previously overlooked connections between the traditions offering new perspectives on Marx Husserl and Heidegger exploring themes such as alienation reification and ecology and examining the intersection of Marxism and phenomenology in figures such as Michel Henry Walter Benjamin and Frantz Fanon These glimpses of a productive reconciliation of the respective strengths of phenomenology and Marxism offer promising possibilities for illuminating and resolving the increasingly intense social crises of capitalism in the twenty first century

An Anthropology of Marxism Cedric J. Robinson, 2019-01-18 An Anthropology of Marxism offers Cedric Robinson's analysis of the history of communalism that has been claimed by Marx and Marxists Suggesting that the socialist ideal was embedded both in Western and non Western civilizations and cultures long before the opening of the modern era and did not begin with or depend on the existence of capitalism Robinson interrogates the social cultural institutional and historical materials that were the seedbeds for communal modes of living and reimagining society Ultimately it pushes back against Marx's vision of a better society as rooted in a Eurocentric society and cut off from its own precursors Accompanied by a new foreword by H L T Quan and a preface by Avery Gordon this invaluable text reimagines the communal ideal from a broader perspective that transcends modernity industrialization and capitalism

Karl Marx Allen W. Wood, 1999 First published in 1999 Routledge is an imprint of Taylor Francis an informal company *Marxism and the Leninist Revolutionary Model* W. Davidsohn, 2014-09-11 This book explores Marxist and Leninist revolutionary theory Topics include the philosophical dialectic historical materialism the revolutionary movement and Communist cadre political rule in the socialist state Emphasis on Lenin's wartime political treatment of imperialism national self determination and socialism in one country

How Karl Marx Can Save American Capitalism Ronald W. Dworkin, 2015-01-14 When the Cold War ended some people called it the end of history Capitalism and liberal democracy had prevailed Later when the West clashed with radical Islam Americans realized history hadn't ended after all at least not abroad Now in How Marx Can Save American Capitalism Ronald W Dworkin shows us that even the home front is in play and capitalism and liberal democracy are threatened Dworkin uses Karl Marx to tip the balance in their favor a paradox as Marx was the sworn enemy of capitalism and liberal democracy but also logical as Marx knew the weak spots in capitalism and democracy better than anyone In the past capitalism's weak spots were obvious sweatshops workhouses and hunger The twentieth century welfare state saved capitalism by fixing them Today's weak spots are less obvious they don't even seem related mass loneliness a declining birth rate young people postponing adulthood and workers using sleep aids to function on the job Yet they pose the same risk to capitalism that child

labor and horrid factory conditions once did Marx's ideas applied to contemporary America show how they are all of a piece. Saving capitalism demands a third way not rigid Republican conservatism or blind Democratic state interventionism but a new politics in which the state focuses laser like on advanced capitalism's unique threats to private life while leaving much of the free market intact.

Hegel's Critique of Modernity Timothy C. Luther, 2009-06-16 Hegel's enduring importance lies in the fact that his philosophy sheds light on many contemporary problems his conception of freedom enables us to reconcile many of the differences that divide liberalism and communitarianism. While liberalism tends to overemphasize the individual and devalue the community communitarianism tends to do the reverse. One of his central aims is to integrate liberalism's concern for the political rights and interests of individuals within the framework of a community. He tries to reconcile the individual and community in a way that creates the proper mix of liberty and authority. One of Hegel's goals is to discover social structures that will allow individuals to escape the alienation that characterizes contemporary life. He sought a method of reconciling his contemporaries to the modern world by overcoming the things that split the self from the social world that is a place where people are at home in the social world. A sense of estrangement is all too common even for those who enjoy more personal freedom and material abundance than ever thought possible. While Hegel is speaking directly to and about his contemporaries their social world bears much in common with ours. Consequently his attempt to reconcile philosophical and social contradictions can elucidate our own condition. While the modern world reflects important contributions the advent of modern liberalism leads to excessive individualism that fragments social life leaving individuals disconnected and adrift from meaningful social life. The major goal of Hegel's political philosophy is to reconcile the individual with his or her political community in a way that overcomes the alienation of modern life.

Marxism, Religion and Ideology David Bates, Iain MacKenzie, Sean Sayers, 2015-10-05 As austerity measures are put into place the world over and global restructuring is acknowledged by all as an attempt to bolster the economic system that led to the crash there is a great need to come to grips with the economic political and philosophical legacy of Marx. Of particular interest are Marx's analyses of alienation and the cycles of boom and bust thought to be integral to the functioning of capitalism. Moreover as the Cold War drifts into the history books it is possible to reconsider the lasting impact of Marx's analyses without the shadows cast by the Soviet version of communism. Equally though scholars are increasingly turning to Marx for insight into the rise of religion and the corresponding demise of political ideologies that seems to mark the contemporary age. Are we witnessing the return of Marx? Few scholars have done as much to tease out the intricacies of Marx ideology and religion and their overlapping concerns as the eminent writer and Marx biographer Professor David McLellan. This book brings together a group of internationally renowned academics to reflect upon develop and criticise McLellan's analyses of these three themes with a view to contributing more broadly to scholarly debates in these fields. This exciting and timely analysis will be of interest to scholars of political theory the history of political thought including historical methodology Marx and Marxism sociology of knowledge

particularly in relation to discussions of ideology religion and theology more widely **Communism and Gita** Himmat Singh Sinha,1979 **Evil in Modern Myth and Ritual** Richard Stivers,2020-04-28 Richard Stivers concern is with the social construction of evil that is with how modern societies in a partly unconscious way create evil as a category of the sacred and how symbols myths and rituals of evil are related to this He is interested moreover in how modern societies provoke individuals to commit evil actions This fascinating and stimulating book is the first attempt to work out in detail how the concepts of the sacred symbol myth and ritual form a cultural configuration in modern technological societies and not just in traditional societies
