Michael Cholbi,2015-12-02 Death comes for us all eventually Philosophers have long been perplexed by how we ought to feel about death Many people fear death and believe that death is bad for the person who dies But is death bad for us and if so how is its badness best explained If we do not survive death if death is simply a state of nothingness how can death be bad for us If death is bad for us do we have good reason to live as long as possible Would an immortal life really be a good human life or would even an immortal life eventually become tedious and make us long for mortality This volume presents fourteen philosophical essays that examine our attitudes toward mortality and immortality The topics addressed have become more urgent as scientists attempt to extend the human lifespan perhaps even indefinitely This book invites the reader to critically appraise his or her own attitudes toward death and immortality by exploring the ethical metaphysical and psychological complexities associated with these issues **Death** Herbert Fingarette,1996 Fingarette faces up to the reality of death and demolishes some popular errors in our thinking about death He examines the metaphors which mislead us death as parting death as sleep immortality as the denial of death and selflessness as a kind of consolation He thinks through some of the more illuminating metaphors death as the end of the world for me death as the conclusion of a story life as ceremony and life as a tourist visit to earth Fingarette goes on to discuss living a future without end and living a present without bounds The author offers no facile consolation but he identifies the true root of fear of death and explains how the meaning of death can be reconceived *Political Theory on Death and Dying* Erin A. Dolgoy,Kimberly Hurd Hale,Bruce Peabody,2021-09-14

The Philosophy of the Daodejing Hans-Georg Moeller,2006-05-02 For centuries the ancient Chinese philosophical text the Daodejing Tao Te Ching has fascinated and frustrated its readers While it offers a wealth of rich philosophical insights concerning the cultivation of one s body and attaining one s proper place within nature and the cosmos its teachings and structure can be enigmatic and obscure Hans Georg Moeller presents a clear and coherent description and analysis of this vaguely understood Chinese classic He explores the recurring images and ideas that shape the work and offers a variety of useful approaches to understanding and appreciating this canonical text Moeller expounds on the core philosophical issues addressed in the Daodejing clarifying such crucial concepts as Yin and Yang and Dao and De He explains its teachings on a variety of subjects including sexuality ethics desire cosmology human nature the emotions time death and the death penalty The Daodejing also offers a distinctive ideal of social order and political leadership and presents a philosophy of war and peace An illuminating exploration The Daodejing is an interesting foil to the philosophical outlook of Western humanism and contains surprising parallels between its teachings and nontraditional contemporary philosophies **Death, Immorality, and Meaning in Life** John Martin Fischer,2019-06-19 There are seven chapters addressing philosophical issues pertaining to death the badness of death time and death ideas on immortality near death experiences and extending life through medical technology The book is shorter and less elaborate than Kagan s Death And it goes into more depth about a selection of central issues related to death and immortality than May s book It gives an original take on various basic puzzles pertaining to death and integrates a discussion of these philosophical issues with an analysis of near death experiences as well as an exploration of contemporary efforts to extend life by heroic medical means **The Philosophy of Death** Andrew Jackson Davis,1876 The Metaphysics of Death John Martin Fischer,1993 This collection of seventeen essays deals with the metaphysical as opposed to the moral issues pertaining to death For example the authors investigate among other things the issue of what makes death a bad thing for an individual if indeed death is a bad thing This issue is more basic and abstract than such moral questions as the particular conditions under which euthanasia is justified if it is ever justified Though there are important connections between the more abstract questions addressed in this book and many contemporary moral issues such as euthanasia suicide and abortion the primary focus of this book is on metaphysical issues concerning the nature of death What is the nature of the harm or bad involved in death If it is not pain wha is it and how can it be bad Who is the subject of the harm or bad if the person is no longer alive how can he be the subject of the bad An if he is not the subject who is Can one have harm with no subject When does the harm take place Can a harm take place after its

subject ceases to exist If death harms a person can the harm take place before the death occurs If death can be a bad thing would immortality be a desirable alternative This family of questions helps to frame the puzzle of why and how death is bad Other subjects addressed include the Epicurean view that death is not a misfortune for the person who dies the nature of misfortune and benefit the meaningfulness and value of life and the distinction between the life of a person and the life of a living creature who is not a person There is an extensive bibliography that includes science fiction treatments of death and immortality

Death and Mortality in Contemporary Philosophy Bernard N. Schumacher, 2010-09-30 This book contributes to current bioethical debates by providing a critical analysis of the philosophy of human death Bernard N Schumacher discusses contemporary philosophical perspectives on death creating a dialogue between phenomenology existentialism and analytic philosophy He also examines the ancient philosophies that have shaped our current ideas about death His analysis focuses on three fundamental problems 1 the definition of human death 2 the knowledge of mortality and of human death as such and 3 the question of whether death is nothing to us or on the contrary whether it can be regarded as an absolute or relative evil Drawing on scholarship published in four languages and from three distinct currents of thought this volume represents a comprehensive and systematic study of the philosophy of death one that provides a provocative basis for discussions of the bioethics of human mortality

Death Geoffrey Scarre, 2014-12-05 What is death and why does it matter to us How should the knowledge of our finitude affect the living of our lives and what are the virtues suitable to mortal beings Does death destroy the meaningfulness of lives or would lives that never ended be eternally and absurdly tedious Should we reconcile ourselves to the fact of our forthcoming death or refuse to go gently into that good night Can death really be an evil if after death we no longer exist as subjects of goods or evils How should we respond to the deaths of others and do we have any duties towards the dead These and many other questions are addressed in Geoffrey Scarre's book which draws upon a wide variety of philosophical and literary sources to offer an up to date and highly readable study of some major ethical and metaphysical riddles concerning death and dying

The Cambridge Companion to Life and Death Steven Luper, 2014-02-13 This volume discusses the philosophical issues connected with the nature and significance of life and death and the ethics of killing It will be of interest to all those taking courses on the philosophy of life and death applied ethics covering abortion euthanasia and suicide and ethics and metaphysics

Avengers Infinity Saga and Philosophy Robert Arp, Heather L. Rivera, 2020-06-09 In *Avengers Infinity Saga and Philosophy* philosophers explore the momentous issues and the fascinating puzzles raised by Marvel's compelling series of movies Is the Thanos snap truly an answer to overpopulation and famine or is it simply indefensible mass murder on a cosmic scale Are the Avengers who try to stop Thanos dishing out justice or merely fighting a man who is himself just Captain America or Tony Stark which leader holds the key to a civilized society Dr Strange claims to see 14 000 605 possible futures in one of which Thanos is defeated What does this tell us about the true nature of reality Sometimes your best just isn't enough How can we cope with

inevitability How can the Soul Stone and the Binding of Isaac by Abraham help us understand the Infinity War saga Is Thanos a utilitarian And if so is his utilitarian calculus logically sound Would it be possible for a group like the Avengers to amass enormous power to fight for humankind without themselves becoming a corrupt ruling class Can the past Nebula shooting the future Nebula cause her to cease to exist Can you change the future by communicating with yourself or your family in the past Can Thanos be seen as the epitome of non self serving behavior or is Thanos masking his own egoism with the lie that his altruistic mission is to bring the universe into balance Does Thanos show us the danger of living by an absolute moral compass which allows us to see only what we believe to be the right with no variations or nuances
