## WHAT IS PHILOSOPHY ?

Philosophy (from Greek:  $\phi\iota\lambda\omicron\varsigma$  = love,  $\sigma\omicron\phi\iota\alpha$  = wisdom) is the study of general and fundamental questions, such as those about existence, reason, knowledge, values, mind, and language. Such questions are often posed as problems to be studied or resolved. Philosophy is characterized by various general features. It is a form of rational inquiry. It aims to be systematic, and it tends to critically reflect on its own methods and presuppositions. Historically, philosophy encompassed all bodies of knowledge and a practitioner was known as a philosopher.
