Encyclopedia of Indian Philosophies Karl H. Potter,1995-01-01 This constitutes the first volume of the series It indicates the scope of the project and provides a list of sources which will be surveyed in the subsequent volumes as well as provide a guide to secondary literature for further study of Indian Philosophy It lists in relative chronological order Sanskrit and Tamil works All known editions and translations into European languages are cited where published versions of the text are not known a guide to the location of manuscripts of the work is provided The Philosophy of Vaiṣṇava Religion (with Special Reference to the Kṛṣṇite and Gaurāṅgite Cults) Girindra Narayan Mallik,1927 **Meditation for the Love of It** Sally Kempton,2011-01-01 Meditation is like a love affair with your innermost self At times it can be ecstatic and entrancing other times simple and still and sometimes you might not even feel its profound effects until later Now with Meditation for the Love of It Sally Kempton shares practical secrets to help us turn meditation into an unconditional embrace of the fullness of our experience on and off the meditation cushion With the gentle wisdom and compassion of one who understands the nuances of practice she opens us to the joy of exploring the deep and mysterious inner landscape of the heart mind and body Drawing on her 40 years as a teacher and a fellow meditator Sally teaches us how we can connect to our inner longings and creative shakti energy to allow the transformative gifts and blessings of meditation to unfold With playfulness and devotion two key attitudes in sustaining a daily practice she shares indispensable guidance for this voyage of self discovery including How to tune in to your own meditation channel a bandwidth of tranquillity energy and joy Why you don't need a quiet mind to meditate How the force known as Kundalini can fuel your practice Connecting to your ever present Inner Beloved to let go of conditioned ideas about yourself and make space for the True Self to come forth Ripening your practice beyond technique into the sweet mysterious expanse of spontaneous meditation More than 20 practices for bringing the peace and insight of meditation into your daily life Remember what you seek in meditation is your own Beloved your own inner intelligence your own Awareness and your own Truth teaches Sally Meditation for the Love of It points us back to our own intimate heart of hearts our own deepest experience and the bliss of existence itself **Sir John Woodroffe, Tantra and Bengal** Kathleen Taylor,2001 This biographical study of Sir John Woodroffe famous for his tantric studies examines his social identity in Calcutta as well as his relationship to Sanskrit and the texts **Phenomenology/Ontopoiesis Retrieving Geo-cosmic Horizons of Antiquity** Anna-Teresa Tymieniecka,2011-08-10 The controversy of flux and stasis as the groundwork of reality of Greek ancient philosophy reached its crux in the all encompassing doctrine of the logos by Heraclitus of Ephesus It centers upon human soul in its role with the cosmos Philosophy of the Occident corroborating Greek insights with the progress of culture in numerous interpretations Kant Kierkegaard Husserl Merleau Ponty Ricoeur presented in this collection has neglected the cosmic sphere While contemporary development of science revealed its grounding principles papers by Grandpierre Kule and Trutty Coohill the ancient logos fully emerges Thus logos hitherto hidden in our commerce with earth

is revealed in its intertwinings with the cosmos through the trajectories of the phenomenology onto-poiesis of life Tymieniecka  
The crucial link between the soul and the cosmos in a new geo-cosmic horizon is thus being retrieved **The Seat of**

**Consciousness in Ancient Literature** Richard E. Lind, 2015-01-09 For early civilizations consciousness and the sense of self were experienced as located in the center of the body most often near to or within the physical heart Enlightenment was understood as the illumination of a transformed spiritual heart Thus the mind of the body as a whole was represented by the heart-soul In contrast modern culture places consciousness within the brain resulting in a mind-body dualism This separation of mind and body has recently been emphasized as characteristic of the psychopathologies of the modern self This volume explores the understanding and experience of consciousness in the earliest civilizations before about 500 BCE Beginning with a description of ancient Western and Eastern heart-consciousness the psychological and spiritual manifestations of the ancient mature heart-soul are summarized Ancestor worship lineage identity primitive consciousness and the ways in which the external world was mirrored by the inner world provide additional clues about the experience of heart-consciousness Finally the work addresses the fundamental changes in the experience of consciousness that led to the mind-body dualism of today

**Religions of India in Practice** Donald S. Lopez, 1995-04-23 The inaugural volume of Princeton Readings in Religions brings together the work of thirty scholars of the religions of India in a new anthology designed to reshape the ways in which the religious traditions of India are understood The book contains translations of forty-five works most of which have never before been available in a Western language Many of these highlight types of discourse especially ritual manuals folktales and oral narratives and voices vernacular esoteric domestic and female that have not been sufficiently represented in previous anthologies and standard accounts of Indian religions The selections are drawn from ancient texts medieval manuscripts modern pamphlets and contemporary fieldwork in rural and urban India They represent every region in South Asia and include Hindu Buddhist Jain Sikh and Muslim materials Some are written texts reflecting elite concerns while others are transcriptions of oral narratives told by nonliterate peasants Some texts are addressed to a public and pan-Indian audience others to a limited coterie of initiates in an esoteric sect and still others are intended for a few women gathered in the courtyard for a household ceremony The editor has reinforced this diversity by arranging the selections within several overarching themes and categories of discourse hymns rituals narratives and religious interactions and encourages us to make our own connections

**Body Parts** Michelle Voss Roberts, 2017-12-01 Christians have traditionally claimed that humans are created in the image of God *imago Dei* but they have consistently defined that image in ways that exclude people from full humanity The most well-known definition locates the image in the rational soul which is constructed in such a way that women children and many persons with disabilities are found deficient *Body Parts* claims the importance of embodiment difference and limitation not only as descriptions of the human condition but also as part of the *imago Dei* itself
