## **Philosophy And Ideology In Humes Political Thought:**

**Philosophy and Ideology in Hume's Political Thought** David Miller, 1981 This book was written with three aims in mind The first was to provide a reasonably concise account of Hume's social and political thought that might help students coming to it for the first time The second aim was to say something about the relationship between philosophy and politics with explicit attention to Hume but implicit reference to a general issue The third is to offer an integrated account of Hume's thought The book accounts for the varying interpretation of the conservative and liberalist traditions by arguing that the distinction between liberalism and conservatism had little application in mid 18th century Britain Hume's ideology contained elements that we should now identify as conservative and liberal respectively and so by selective emphasis it is possible to make him seem a thoroughbred conservative or liberal according to choice These two problems the relationship between Hume's philosophy and his politics and the ideological character of his thought are pursued through the first and second parts of the book respectively David Hume's Political Theory Neil McArthur, 2007-01-01 David Hume's Political Theory brings together Hume's diverse writings on law and government collected and examined with a view to revealing the philosopher's coherent and persuasive theory of politics *Political Thought of Hume and his Contemporaries* Frederick G. Whelan, 2014-12-05 Intended for scholars in the fields of political theory and the history of political thought this two volume examines David Hume's Political Thought 1711-1776 and that of his contemporaries including Smith Blackstone Burke and Robertson This book is unified by its temporal focus on the middle and later decades of the eighteenth century and hence on what is usually taken to be the core period of the Enlightenment a somewhat problematic term Covering topics such as property contract and resistance theory religious establishments the law of nations the balance of power demography and the role of unintended consequences in social life Frederick G Whelan convincingly conveys the diversity and creativity of the intellectual engagements of even a limited set of Enlightenment thinkers in contrast to dismissive attitudes in some quarters toward the Enlightenment and its supposed unitary project *Political Thought of Hume and his Contemporaries* Enlightenment Projects Vol 1 contains six in depth studies of issues in eighteenth century political thought with an emphasis on topics in normative theory such as property rights the social contract resistance to oppressive government and religious liberty The central figure is David Hume with substantial attention to Edmund Burke Adam Smith and others in the period The introduction situates the studies in the Enlightenment and considers interpretations of that movement Western Political Thought Robert Eccleshall, Michael Kenny, 1995 This is a guide to the vast amount of literature on the history of political thought which has appeared in English since 1945 The editors provide an annotation of the content of many entries and where appropriate indicate their significance controversial nature and readability *The Germ of Justice* Leslie Green, 2023 The Germ of Justice covers the leading problems of contemporary jurisprudence to introduce current conversations surrounding the morality of law in an accessible way Through the works of Hume Hart and others it addresses the nature of law relations

between law and morality and the demands that law makes of its officers and its subjects      **A Companion to Hume** Elizabeth S. Radcliffe, 2011-05-31 Comprised of twenty nine specially commissioned essays A Companion to Hume examines the depth of the philosophies and influence of one of history's most remarkable thinkers Demonstrates the range of Hume's work and illuminates the ongoing debates that it has generated Organized by subject with introductions to each section to orient the reader Explores topics such as knowledge passion morality religion economics and politics Examines the paradoxes of Hume's thought and his legacy covering the methods themes and consequences of his contributions to philosophy      *Key Thinkers, Past and Present (RLE Social Theory)* Jessica Kuper, 2014-09-04 This volume provides a fascinating perspective on the social sciences through its examination of the leading proponents their ideas and careers It includes useful suggestions for further reading All the great names in the history of the subject are here Freud Marx Weber Adam Smith and so on along with many less prominent but nevertheless important thinkers      The Needs of Strangers Michael Ignatieff, 2015-01-06 This thought provoking book uncovers a crisis in the political imagination a wide spread failure to provide the passionate sense of community in which our need for belonging can be met Seeking the answers to fundamental questions Michael Ignatieff writes vividly both about ideas and about the people who tried to live by them from Augustine to Bosch from Rousseau to Simone Weil Incisive and moving The Needs of Strangers returns philosophy to its proper place as a guide to the art of being human      *Melancholy Duty* S.P. Foster, 2013-03-09 This book studies the complementary features of the thought of David Hume and Edward Gibbon in the complete range of its confrontation with eighteenth century Christianity The ten chapters explore the iconoclasm of these two philosophical historians Hume as the premier philosopher Gibbon as the consummate historian as they labored to naturalize the study of Christianity particularly with attention to its social and political dimensions No other work deals as comprehensively or thoroughly with the attempt of philosophical history's challenge to Christianity Belief in miracles and the afterlife the dimensions of fanaticism and superstition and the nature of religious persecution were the themes that occupied Hume and Gibbon in the making of their critique of Christianity This book makes a valuable contribution to scholarship in a number of fields including the history of ideas religious studies and philosophy It will be of interest to philosophers of religion historians of ideas eighteenth century intellectual historians scholars of the Scottish Enlightenment and Hume and Gibbon scholars      **Toward Democracy** James T. Kloppenberg, 2016-05-06 In this magnificent and encyclopedic overview James T. Kloppenberg presents the history of democracy from the perspective of those who struggled to envision and achieve it The story of democracy remains one without an ending a dynamic of progress and regress that continues to our own day In the classical age democracy was seen as the failure rather than the ideal of good governance Democracies were deemed chaotic and bloody indicative of rule by the rabble rather than by enlightened minds Beginning in the 16th and 17th centuries however first in Europe and then in England's North American colonies the reputation of democracy began to rise resulting in changes that were sometimes

revolutionary and dramatic sometimes gradual and incremental Kloppenberg offers a fresh look at how concepts and institutions of representative government developed and how understandings of self rule changed over time on both sides of the Atlantic. Notions about what constituted true democracy preoccupied many of the most influential thinkers of the Western world from Montaigne and Roger Williams to Milton and John Locke from Rousseau and Jefferson to Wollstonecraft and Madison and from de Tocqueville and J S Mill to Lincoln and Frederick Douglass. Over three centuries explosive ideas and practices of democracy sparked revolutions English American and French that again and again culminated in civil wars disastrous failures of democracy that impeded further progress. Comprehensive provocative and authoritative *Toward Democracy* traces self government through three pivotal centuries. The product of twenty years of research and reflection this momentous work reveals how nations have repeatedly fallen short in their attempts to construct democratic societies based on the principles of autonomy equality deliberation and reciprocity that they have claimed to prize. Underlying this exploration lies Kloppenberg's compelling conviction that democracy was and remains an ethical ideal rather than merely a set of institutions a goal toward which we continue to struggle.

*Classical Liberalism and International Relations Theory* Edwin van de Haar, 2009-08-31 This book calls for a reappraisal of liberalism in IR theory. Based on the first comprehensive analysis of the ideas by David Hume Ludwig von Mises and Friedrich Hayek and a new perspective on Adam Smith and international relations the analysis shows that classical liberalism differs substantially from other forms of liberalism.

*The Cambridge Companion to Hume* David Fate Norton, 1993-10-29 David Hume is arguably the most important philosopher ever to have written in English. Although best known for his contributions to epistemology metaphysics and the philosophy of religion Hume also made substantial and influential contributions to psychology and the philosophy of mind ethics the philosophy of science political and economic theory political and social history and to a lesser extent aesthetic and literary theory. All facets of Hume's output are discussed in this volume the first genuinely comprehensive overview of his work. The picture that emerges is of a thinker who though critical to the point of scepticism was nonetheless able to build on that scepticism a profoundly important and still viable constructive philosophy.

*The Moral Animus of David Hume* Donald T. Siebert, 1990 Rejecting a morality based on religious sanctions and appeals to a spiritual order of being David Hume advocated a wholehearted immersion in worldliness. Contemptus mundi is replaced with amor mundi an orientation that Hume saw as fostering virtue and socially beneficial relationships.

**The Blackwell Guide to Hume's Treatise** Saul Traiger, 2008-04-15 This Guide provides students with the scholarly and interpretive tools they need to understand Hume's *A Treatise of Human Nature* and its influence on modern philosophy. A student guide to Hume's *A Treatise of Human Nature* Focuses on recent developments in Hume scholarship. Covers topics such as the formulation reception and scope of the *Treatise* imagination and memory the passions moral sentiments and the role of sympathy. All the chapters are newly written by Hume scholars. Each chapter guides the reader through a portion of the *Treatise* explaining the central arguments and

key contemporary interpretations of those arguments      **David Hume** Christopher J. Berry, 2013-02-07 In this compelling and accessible account of the life and thought of the Scottish Enlightenment philosopher David Hume 1711 1776 Professor Christopher J Berry of the University of Glasgow argues that the belief in the uniformity of human nature was at the heart of Hume's thought In this volume Berry introduces classic Humean themes including the evolution of social institutions as an unintended consequence of the pursuit of self interest the importance of custom and habit in establishing rules of just conduct and the defence of commerce and luxury The book reveals Hume as an original thinker whose thought may be understood as a combination of various strands of conservatism libertarianism and liberalism      **The ^AOxford Handbook of Hume** Paul Russell, 2016-02-22 The Oxford Handbook of Hume's 38 newly commissioned chapters are divided into six parts Central Themes Metaphysics and Epistemology Passion Morality and Politics Aesthetics History and Economics Religion Hume and the Enlightenment and After Hume The volume also features a thorough introduction from editor Paul Russell and a chapter on Hume's biography      *Reflections on Commercial Life* Patrick Murray, 2014-06-11 *Reflections on Commercial Life* an anthology of writings from the ancient Greeks to contemporary thinkers provides students scholars and general readers an opportunity to develop a more self conscious and critical relationship to commercial life Selections are drawn from seminal works of high intellectual and literary quality Through an inquiry into history nature and outcomes this volume offers the opportunity to explore as never before alternatives to modern commercial life      **The Birth of Economic Rhetoric** Estrella Trincado, 2019-03-28 This book explores and compares the works of two great economists and philosophers David Hume and Adam Smith considering their contributions to language perception sympathy reason art and theatre to find a general theory of rationality and economics The author considers and analyses both figures through a range of approaches and moves on to demonstrate how different concepts of language affect Hume's and Smith's idea of value and economic growth This book contributes to a wider literature on communication and language to demonstrate that economics is linked to rhetoric and is an essential part of human nature      *The Politics of Eloquence* Marc Hanvelt, 2012-03-08 History has shown us that the power of political speech can be put to both positive and manipulative ends while rhetoric is a powerful tool for those who seek to persuade others to adopt their views it can also be employed to foment factionalism and undermine the very basis of a democratic society In this unique study Marc Hanvelt shows how eighteenth century philosopher David Hume confronted questions about the negative moral and political effects of rhetoric and how he differentiated between manipulative and non manipulative political speech Drawing on Hume's philosophical historical and popular writings *The Politics of Eloquence* presents an understanding of rhetoric that can be properly ascribed to this important thinker an understanding hitherto overlooked in the scholarly literature Offering an original approach to thinking about political rhetoric an essential element of democratic politics Hanvelt makes important contributions to both Hume scholarship and to broader areas in political theory and philosophy      **The Pragmatic Enlightenment** Dennis C.

Rasmussen, 2014 This is a study of the political and moral thought of the Enlightenment focusing on four key eighteenth century thinkers David Hume Adam Smith Montesquieu and Voltaire Dennis C Rasmussen argues that these thinkers exemplify a particularly attractive type of liberalism one that is more realistic moderate flexible and contextually sensitive than most other branches of this tradition

The Top Books of the Year Philosophy And Ideology In Humes Political Thought The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have enthralled audiences this year. Philosophy And Ideology In Humes Political Thought : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
