Philosophy Of Human Hope:

A Philosophy of Human Hope J.J. Godfrey, 1987-03-31 Few reference works in philosophy have articles on hope Few also are systematic or large scale philosophical studies of hope Hope is admitted to be important in people s lives but as a topic for study hope has largely been left to psychologists and theologians For the most part philosophers treat hope en passant My aim is to outline a general theory of hope to explore its structure forms goals reasonableness and implications and to trace the implications of such a theory for atheism or theism What has been written is quite disparate Some see hope in an individualistic often existential way and some in a social and political way Hope is proposed by some as essentially atheistic and by others as incomprehensible outside of one or another kind of theism Is it possible to think consistently and at the same time comprehensively about the phenomenon of human hoping Or is it several phenomena How could there be such diverse understandings of so central a human experience On what rational basis could people differ over whether hope is linked to God What I offer here is a systematic analysis but one worked out in dialogue with Ernst Bloch Immanuel Kant and Gabriel Marcel Ernst Bloch of course was a Marxist and officially an atheist Gabriel Marcel a Christian theist and Immanuel Kant was a theist but not in a conventional way *A Philosophy of Human Hope* Joseph John Godfrey, Alfonso Verdú, 1987

A Philosophy of Hope Bernard N. Schumacher, 2003 Schumacher looks at hope as a virtue one opposed by vices such as despair and presumption particularly as they are treated in existentialism and Marxism He also explores Pieper s treatment of hope in relation to the ideas of death and immortality and in the philosophy of history Using the idea of hope to examine such themes as dignity ethics the good and the just Schumacher provides a valuable wide ranging introduction to a shaper of contemporary Christian thought against a richly drawn intellectual background BOOK JACKET **A Philosophical**

Analysis of Hope J. Waterworth, 2003-12-16 Despite the familiarity of hope in human experience it is a phenomenon infrequently considered from a philosophical point of view This book charts the centrality of hope in thought and action from first second and third person perspectives From everyday situations to extreme circumstances of trial and endings in life the contours of hope are given a phenomenological description and subjected to conceptual analysis This consistently secular account of hope sheds a different light on questions of agency and meaning *The Principle of Political Hope* Loren

Goldman, 2022-12-27 In *The Principle of Political Hope* Loren Goldman draws on Immanuel Kant Ernst Bloch Charles Peirce William James and John Dewey to offer an account of political hope as a frame for navigating the relationship between subjective aspiration and objective possibility Considering what political hope is how it operates how it has been thought about and how to think about it in the contemporary world Goldman s conceptualization of hope rejects grand notions of progress while still maintaining the possibility of a brighter future Refreshing and lucid Goldman reconstructs hope as a necessary precondition for social and political engagement reinvigorating the possibility of utopia in the process **The**

Moral Psychology of Hope Claudia Blöser, Titus Stahl, 2019-11-13 That we can hope is one of the capacities that define us

as human beings To hope means not just to have beliefs about what will happen but to imagine the future as potentially fulfilling some of our most important wishes It is therefore not surprising that hope has received attention by philosophers psychologists and by religious thinkers throughout the ages The contributions in this volume written by leading scholars in the philosophy of hope gives a systematic overview over the philosophical history of hope about contemporary debates and about the role of hope in our collective life *Hope and the Kantian Legacy* Katerina Mihaylova, Anna Ezekiel, 2023-09-21 Hope is understood to be a significant part of human experience including for motivating behaviour promoting happiness and justifying a conception of the self as having agency Yet substantial gaps remain regarding the development of the concept of hope in the history of philosophy This collection addresses this gap by reconstructing and analysing a variety of approaches to hope in late 18th and 19th century German philosophy In 1781 Kant's idea of a rational hope shifted the terms of discussion about hope and its role for human self understanding In the 19th century a wide ranging debate over the meaning and function of hope emerged in response to his work Drawing on expertise from a diverse group of contributors this collection explores perspectives on hope from Kant Fichte Schelling Schopenhauer J S Beck J C Hoffbauer Wilhelm von Humboldt Georg Friedrich Creuzer Kierkegaard and others Chapters consider different aspects of the concept of hope including the rationality of hope appropriate and inappropriate applications of hope and the function of hope in relation to religion and society The result is a valuable collection covering a century of the role of hope in shaping cognitive attitudes and constructing social political and moral communities As an overview of philosophical approaches to hope during this period including by philosophers who are seldom studied today the collection constitutes a valuable resource for exploring the development of this important concept in post Kantian German philosophy *The Virtue of Hope* Nancy E. Snow, Lewis Ricardo Gordon, 2024 What is hope In the history of western philosophy to the present day there is tremendous disagreement about the answer to this seemingly simple question Contemporary philosophical literature on hope on the subject is robust complex and full of interesting debates Whether hope is good or bad and whether we should focus not on hope but on hopes hoping or hopefulness as some contemporary philosophers argue are contested questions This volume features eleven chapters by scholars from different disciplines each providing a unique perspective on hope It includes discussion and analysis of classical texts Judeo Christian traditions non religious contexts epistemology existentialism Black oppression Zen Buddhism eschatology theological anthropology psychology and optimism culture education theory and climate change Hardly any stones are left unturned in this interdisciplinary collection of one of philosophy's most vexing virtues The study of hope is ongoing in many fields This volume will be useful to scholars in a variety of disciplines who wish to learn more about hope and to contribute to the myriad discussions currently taking place *Theories of Hope* Rochelle M. Green, 2018-12-12 *Theories of Hope Exploring Affective Dimensions of Human Experience* is a collection of essays dedicated to inquiring into the nature of hope in its multiple and varied guises Looking specifically at the ways in which some experiences of hope

Halpin,2002-11 This book is a welcome addition to the thinking about education and education policy making at a time when the future of education is highly politicised and very negative Resourcing Hope for Ageing and Dying in a Broken World

Ashley Moyse,2022-09-06 For those captive to the broken world of late modernity wherein ageing and dying persons become vulnerable to despair this book offers a diagnostic of such despair It also resources the practices of a realistic humanising hope that might enable a strength for person to journey with and for others together through such despair Thus by addressing the aetiology of despair experienced by people confronting ageing frailty and dying and drawing upon the writings of Gabriel Marcel among others Ashley Moyse reveals the problematic life of a broken world with its functionalising

metaphors instrumentalising reasoning and objectifying desires that offer no hope at all It is a broken world where despair generates behaviours that anticipate suicide or other often tragic outcomes that impede or greatly curtail or even completely inhibit human flourishing Resisting despair but living through it Moyse presents the activity of the moral life demonstrating a way persons might be resourced through an intersubjective and reflective pedagogy with its habits or practices that enable a humanising hope liberating human beings to become those readied to confront the actualities of human living and dying and encouraged to grow and develop as wayfarers hopefully *Interdisciplinary Perspectives on Hope* Jaklin A. Lester, 1995-04-01 In this ground breaking book pastoral counselor Andrew Lester demonstrates that pastoral theology as well as social and behavioral sciences has neglected to address effectively the predominant cause of human suffering a lack of hope a sense of futurelessness Lester not only looks at the reasons why addressing the ideas of hope and despair has been overlooked by pastoral theology and other social and behavioral sciences He also offers a starting point for the development of addressing these important dimensions of human life He provides clinical theories and methods for pastoral assessment of and intervention with those who despair He also puts forth strategies for assessing the future stories of those who despair and offers a corrective to these stories through deconstruction reframing and reconstruction **Kant and the Human**

Curtis Holtzen, 2019-12-10 The Bible resounds with affirmations that God is faithful and trustworthy But might he also exhibit faith and trust Wm Curtis Holtzen contends that because God is a being of relational love and exists in relationship with humans then God is a God who trusts Holtzen argues that understanding the relationship between divine

trust and human faith can give us a fuller truer picture of who God is and who we are *Understanding Prayer for the Dead*
James B Gould, 2017-08-31 Throughout history Christians have prayed for the dead both for continual growth of the faithful and for their advancement from purgatory and sometimes even for the deliverance of the unsaved from hell *Understanding Prayer for the Dead* defends all three kinds of prayer It challenges Protestants who seldom pray for the dead to begin doing so and Roman Catholics and Eastern Orthodox who pray only for the Christian dead to include the unsaved as well James B Gould addresses the biblical credentials of prayer for the dead and provides a historical overview of such prayers from ancient Christianity to the current practice of the three main branches of the Church He also discusses the logical assumptions prayer for the dead requires that prayer is effective that the dead are conscious and that the afterlife involves change and lays out a theological framework for such prayers Prayer for the departed raises the most basic of theological questions matters that go to the centre of God's purpose in creating spiritual beings and redeeming sinful humankind The argument while revisionary in some respects is orthodox ecumenical and integrative engaging a range of academic disciplines so as to be biblically accurate historically informed and philosophically reasoned
