Philosophy Of Punishment A Collection Of Papers

**A. C. Grayling, Andrew Pyle, Naomi
Goulder**

Philosophy Of Punishment A Collection Of Papers:

The Philosophy of Punishment Harry Burrows Acton, 1969 **The Philosophy of Punishment** Anthony Ellis, 2012-05-30 The series St Andrews Studies in Philosophy and Public Life originates in the Centre for Ethics Philosophy and Public Affairs University of St Andrews and is under the general editorship of John Haldane The series includes monographs collections of essays and occasional anthologies of source material representing study in those areas of philosophy most relevant to topics of public importance with the aim of advancing the contribution of philosophy in the discussion of these topics In this volume the author sets aside the usual division between theories of punishment that do or do not focus on retribution In its place he proposes and explores the distinction between internalist and externalist theories The final chapter discusses the deterrent value of punishment **The philosophy of punishment** Harry Burrows Acton, 1969 *Philosophical Foundations of the Law of Torts* John Oberdiek, 2014-02 This book offers a rich insight into the law of torts and cognate fields and will be of broad interest to those working in legal and moral philosophy It has contributions from all over the world and represents the state of the art in tort theory **The Penal Crisis and the Clapham Omnibus** David J. Cornwell, 2009-07-10 What is restorative justice and does it work These are just two of the many questions posed by David J Cornwell in this incisive work Based on a lifetime of research and experience it deals with the concerns about crime and punishment of that most vivid of judicial creations The Man or Woman on the Clapham Omnibus As the author explains this human reference point for reason and good sense is likely to be far more receptive to sound explanation and argument than the media and tabloid press in particular might give credit And after all it is his or her taxes which are being routinely wasted on outmoded or discredited methods Crime will not disappear through the application of heavy handed sanctions Indeed they make matters worse With prisons overflowing in many western countries restorative justice offers a better and ultimately more intuitive solution Cornwell dismantles the traditional arguments for locking people away and undermines the idea that it is necessary to be tough on crime The book credits people with a higher level of intelligence It provides them with proper answers and explanations based on sound data copious research and an in depth analysis of existing trends It is a work for people who value credibility rather than politically driven excuses with their increasingly damaging effects **Handbook on Prisons** Yvonne Jewkes, Ben Crewe, Jamie Bennett, 2016-02-23 The second edition of the Handbook on Prisons provides a completely revised and updated collection of essays on a wide range of topics concerning prisons and imprisonment Bringing together three of the leading prison scholars in the UK as editors this new volume builds on the success of the first edition and reveals the range and depth of prison scholarship around the world The Handbook contains chapters written not only by those who have established and developed prison research but also features contributions from ex prisoners prison governors and ex governors prison inspectors and others who have worked with prisoners in a wide range of professional capacities This second edition includes several completely new chapters on topics

as diverse as prison design technology in prisons the high security estate therapeutic communities prisons and desistance supermax and solitary confinement plus a brand new section on international perspectives The Handbook aims to convey the reality of imprisonment and to reflect the main issues and debates surrounding prisons and prisoners while also providing novel ways of thinking about familiar penal problems and enhancing our theoretical understanding of imprisonment The Handbook on Prisons Second edition is a key text for students taking courses in prisons penology criminal justice criminology and related subjects and is also an essential reference for academics and practitioners working in the prison service or in related agencies who need up to date knowledge of thinking on prisons and imprisonment

Hart's Legal Philosophy M.E. Bayles, 2013-03-09 During the last half of the twentieth century legal philosophy or legal theory or jurisprudence has grown significantly It is no longer the domain of a few isolated scholars in law and philosophy Hundreds of scholars from diverse fields attend international meetings on the subject In some universities large lecture courses of five hundred students or more study it The primary aim of the Law and Philosophy Library is to present some of the best original work on legal philosophy from both the Anglo American and European traditions Not only does it help make some of the best work available to an international audience but it also encourages increased awareness of and interaction between the two major traditions The primary focus is on full length scholarly monographs although some edited volumes of original papers are also included The Library editors are assisted by an Editorial Advisory Board of internationally renowned scholars Legal philosophy should not be considered a narrowly circumscribed field Insights into law and legal institutions can come from diverse disciplines on a wide range of topics Among the relevant disciplines or perspectives contributing to legal philosophy besides law and philosophy are anthropology economics political science and sociology Among the topics included in legal philosophy are theories of law the concepts of law and legal institutions legal reasoning and adjudication epistemological issues of evidence and procedure law and justice economics politics or morality legal ethics and theories of legal fields such as criminal law contracts and property

Theoretical Foundations of Law and Economics Mark D. White, 2009 A book length examination of the methodology and philosophy of law and economics

Criminal Punishment and Restorative Justice David J. Cornwell, F. W. M. McElrea, John R. Blad, Robert B. Cormier, 2006 Criminal Punishment and Restorative Justice is an appraisal of the divide that exists between punitive and restorative methods The book looks at events that serve to restrict a greater and more emphatic adoption of restorative justice and its huge potential in contemporary criminal justice developments In an era of increasing and worldwide reliance on imprisonment and other punitive methods the author argues that justice and communities would be far better served by a more enthusiastic and early shift to restorative methods Criminal Punishment and Restorative Justice provides an international perspective on how restorative justice can bring about an altogether more enlightened approach to dealing with offenders and victims alike against a backdrop of often spurious traditional justifications for punishment While acknowledging the need for a constructive use of custody and other

corrections in response to serious crime the author points out that the present over reliance on custody can be reduced by challenging offenders to take responsibility for their offenses and to make practical reparation for their wrong doing and repairing the harm that they have caused The book also assesses the potential of restorative justice to make corrections more effective civilized humane and pragmatic in terms of finding solutions to crime on the basis of sound principles and information not political expediency

Batman and Ethics Mark D. White,2019-02-26 Batman has been one of the world s most beloved superheroes since his first appearance in Detective Comics 27 in 1939 Clad in his dark cowl and cape he has captured the imagination of millions with his single minded mission to create a better world for the people of Gotham City by fighting crime making use of expert detective skills high tech crime fighting gadgets and an extensive network of sidekicks and partners But why has this self made hero enjoyed such enduring popularity And why are his choices so often the subject of intense debate among his fans and philosophers alike Batman and Ethics goes behind the mask to shed new light on the complexities and contradictions of the Dark Knight s moral code From the logic behind his aversion to killing to the moral status of vigilantism and his use of torture in pursuit of justice or perhaps revenge Batman s ethical precepts are compelling but often inconsistent and controversial Philosopher and pop culture expert Mark D White uses the tools of moral philosophy to track Batman s most striking ethical dilemmas and decisions across his most prominent storylines from the early 1970s through the launch of the New 52 and suggests how understanding the mercurial moral character of the caped crusader might help us reconcile our own A thought provoking and entertaining journey through four decades of Batman s struggles and triumphs in time for the franchise s 80th anniversary Batman and Ethics is a perfect gateway into the complex questions of moral philosophy through a focused character study of this most famous of fictional superheroes *Doing Justice Better*

David J. Cornwell,2007-08-21 An uncompromising appraisal of the unique penal crisis affecting Britain and other Western style democracies **Scribes and Translators** Natalio Fernández Marcos,1993 This volume based on recently published Old Latin material provides fascinating information and discussion on the textual pluralism attested by the Hebrew texts and versions of the books of Kings an intriguing page in the history of the biblical texts Western Philosophy John G.

Cottingham,2007-11-28 Western Philosophy An Anthology provides the most comprehensive and authoritative survey of the Western philosophical tradition from ancient Greece to the leading philosophers of today Features substantial and carefully chosen excerpts from all the greats of philosophy arranged thematically and chronologically Readings are introduced and linked together by a lucid philosophical commentary which guides the reader through the key arguments Embraces all the major subfields of philosophy theory of knowledge and metaphysics philosophy of mind religion and science moral philosophy theoretical and applied political theory and aesthetics Updated edition now includes additional contemporary readings in each section Augmented by two completely new sections on logic and language and philosophy and the meaning of life

The Publishers' Trade List Annual ,1878 **Mercy** David J. Cornwell,2014 Restorative justice has attracted increasing

support world wide but it sits uncomfortably alongside entrenched attitudes towards punishment and retribution Because it does not involve locking up people and throwing away the key it is not favoured reading for risk averse politicians or the media There are also vested interests at play which can be traced back to when the state first sought to enhance its coffers and cast victims to the sidelines As a result the concept of mercy has become largely lost distorting relationships between victims offenders and communities This is a book for everyone concerned about the unfortunate state of our existing penal practices Tapio Lappi Sepp l The author argues that rediscovering mercy would lead to a more humane and purposeful form of criminal justice His book looks at the characteristics of mercy and explains how it has become confused with mitigation and leniency He goes on to deconstruct and analyze current theories and make proposals for reform Long overdue reform of contemporary criminal justice necessitates as the author writes a paradigm shift requiring inspired leadership and a consensus to do justice better between policy makers academics jurists professionals and opinion formers The book examines the implications and challenges of such a journey and its value in helping to shape a modern progressive enlightened and civilised society Identifies a lost ingredient of criminal justice shows where criminal justice went wrong and why it needs to recover and change direction contains important new proposals Based on a lifetime s experience of prisons and dealing with prisoners of all kinds in the UK and abroad David J Cornwell has extensive experience of prisons and is an expert on restorative justice His books include Criminal Punishment and Restorative Justice 2006 and the more recently acclaimed Civilising Criminal Justice 2013 as editor with John Blad and Martin Wright Tapio Lappi Sepp l is Director General of the National Research Institute of Legal Policy and former senior legislative adviser on criminal law in Finland s Ministry of Justice

Restorative Justice Gerry Johnstone, 2013-03-01 Restorative justice is one of the most talked about developments in the field of crime and justice Its advocates and practitioners argue that state punishment society s customary response to crime neither meets the needs of crime victims nor prevents reoffending In its place they suggest should be restorative justice in which families and communities of offenders encourage them to take responsibility for the consequences of their actions express repentance and repair the harm they have done First published in 2002 Restorative Justice Ideas Values Debates is renowned worldwide as an accessible balanced and invaluable analysis of the argument that restorative justice can provide an attractive alternative to traditional responses to crime The second edition includes a new chapter identifying and analyzing fundamental shifts and developments in restorative justice thinking over the last decade It suggests that the campaign for restorative justice has not only grown rapidly in the last decade but has also changed in its focus and character What started as a campaign to revolutionize criminal justice has evolved into a social movement that aspires to implant restorative values into the fabric of everyday life This new edition explores the implications of this development for restorative justice s claim to provide a feasible and desirable alternative to mainstream thinking on matters of crime and justice This book provides an essential introduction to the most fundamental and distinctive ideas of restorative justice and

will appeal to students of criminology law or related disciplines or researchers and professionals with an interest in crime and justice issues In addition it extends the debate about the meaning of restorative justice pros cons and wider significance hence it will also be of interest to those already familiar with the topic The Philosophy of Punishment H. B. Acton,1973

Selected Philosophical and Methodological Papers Paul Everett Meehl,1991 The scope and imagination of Meehl s emeritus of psychology psychiatry and philosophy at the U of Minnesota and cofounder of the Minnesota Center for Philosophy of Science work are revealed in this collection of previously published essays as he explores the mind body problem freedom and determinism psychoanalytic explanation theory appraisal moral aspects of insanity and the law and precognitive telepathy Annotation copyrighted by Book News Inc Portland OR **Continuum Encyclopedia of British**
