Phoenix From The Ashes Rebuilding Shattered Lives:

Phoenix from the Ashes Saul V. Levine, 1992 **Adolescent Psychiatry, V. 25** Aaron H. Esman, 2013-06-17 Volume 25 of *The Annals* is a timely reprise on developmental psychotherapeutic and forensic issues that enter into the evaluation and treatment of adolescents. It traverses different explanatory perspectives, offers integrative expositions of several treatment modalities, and wrestles with the legal dimensions of adolescent care. The volume begins with three developmental studies: Shelley Doctors's clinically grounded reconsideration of adolescent turmoil; Charles Jaffe's dynamic systems approach to adolescent psychotherapy; and Saul Levin's thoughtful consideration of four aspects of the adolescent passage that clinicians tend to ignore: the adolescent's sense of being, of belonging, of believing, and of benevolence. A thorough review of adolescent personality pathology and a case report of adolescent mourning are followed by a series of papers exploring three principal treatment modalities commonly employed in work with disturbed adolescents: psychodynamic, interpersonal, and the integrated approach of the Austen Riggs Center. Consideration of the game of chess as a method and metaphor for working with object relationships in narcissistic teenagers concludes the section of material on therapeutic approaches. The final section of volume 25 engages two knotty forensic issues that have come to the fore in adolescent psychiatry. Saul Levin examines the legal and developmental dimensions of the informed consent of minors, whereas Everett Dulit outlines three clinical constellations associated with female adolescents' denial of pregnancy and examines their relationship to neonaticide. Like its distinguished predecessors, volume 25 is a thoughtfully assembled collection that not only spans the many facets of adolescent psychiatry but is responsive to the most pressing challenges: evaluative, therapeutic, legal, before the field. **Our Emotional Footprint** Saul Levine MD, 2015-04-30 Everyone experiences drama and unexpected changes in their lives. We've all exulted and endured. We've had loves and losses. We've tasted joys and sorrows and successes and setbacks. But each person reacts differently to these issues. In *Our Emotional Footprint*, author Dr. Saul Levine examines human reactions to relationships, life changes, and unexpected events. Levine introduces ten unique people who are passengers in a single rail car and details their fascinating life stories. He looks at how the passengers fared at different points in their lives, how they may have been courageous at times and fearful at others, or were both caring and callous at different times. Through the lens of the four Bs—being, belonging, believing, and benevolence—*Our Emotional Footprint* examines their lives and our own, how they've affected others in the course of their lives, and how they may have been resilient in the face of defeat and gracious in times of success. A celebration of so-called ordinary people, *Our Emotional Footprint* offers a collection of stories that provide a unique glimpse at life's pathways and complexities and how we deal with our hopes and expectations. Praise for *Our Emotional Footprint*: Irv Yalom MD, a wonderful and original book; the stories are wise and compassionate. Dean Delis PhD, a rare treasure: deep compassion and wisdom. E Fuller Torrey MD helps us analyze our own life tapestry and the emotional footprint which will be our heritage, strongly recommended. *The Road to Pearl Harbor: The Untold Story* Pasquale De
