**Birds Cannot Give Birth to Crocodiles, But Humanity Can Soar Beyond the Horizon** Bob Avakian, 2014-04-16 This book makes the case for why humanity needs a communist revolution and deeply explores the means for actually bringing about such a liberating revolution In this two part work Part 1 Revolution and the State and Part 2 Building the Movement for Revolution Bob Avakian examines the contradictory dynamics of historical development in human society and the possible pathways of change and discusses the scientific methods and means for realizing the Impossible Dream of a viable and radically different world one where humanity can soar beyond social relations characterized by domination exploitation and oppression In a style that has been described as totally outrageous and eminently reasonable Avakian punctures conventional thinking on a number of diverse themes for example the theory of social contract notions of human nature and today s revolting culture In a penetrating critique capitalism and the philosophies of the bourgeois epoch are sharply contrasted with the basic vision principles and approach of a new liberating society including how this would be reflected in a constitution radically different than the current U S Constitution **Birds Cannot Give Birth to Crocodiles But Humanity Can Soar Beyond the Horizon** embodies the new synthesis of communism which Bob Avakian has been developing over the course of the past several decades and provides new insights into the dynamics of social change and the strategy for revolution Phony

Communism is Dead-- Long Live Real Communism Bob Avakian, 1992 **Marxism and the Call of the Future** Bob Avakian, Bill Martin, 2005 This book offers readers a rare chance to witness a mainstream thinker challenge an outlaw activist Avakian and Martin wrestle with big questions that have to do with the state of the world and the possibility for radical change The scope and relevance of Marxism and the nature and reach of communist revolution are at the heart of this rich and lively dialogue Avakian and Martin probe a wide range of issues the place of ethics in a transformative revolutionary politics Kant Rousseau and Hegel Marx and the question of colonialism and Eurocentrism the Maoist experience in China sustainable agriculture and the task of overcoming the urban rural divide imperialism and lopsided development in the world and the effects on social structure and revolution animal rights secularism and religion the post 911 agenda of the U S ruling class the political social cultural landscape of the U S and the prospects for resistance and revolution Marxism and the question of homosexuality the challenges confronting radical and communist intellectuals and the possibilities for engaged creative intellectual work today *Away With All Gods!* Bob Avakian, 2008-04-01 Is believing in gods actually harmful How has Christianity for centuries served as an ideology of conquest and subjugation Why is the Bible Belt in the U S also the lynching belt Why is there a rise of religious fundamentalism throughout the world In the intensifying conflict between U S imperialism and Islamic fundamentalism is the only choice to take one side or the other Why is patriarchy and the oppression of women foundational to so many religions Can people be good without god These are just some of the questions explored in this provocative work by Bob Avakian Bringing a unique revolutionary communist voice to the current discourse about god

atheism and morality Avakian demystifies religious belief and examines how even in its most progressive interpretations religion stands in the way of the emancipation of humanity A thread deeply woven throughout *Away With All Gods* is the need to fully rupture with all forms of superstition and to take up instead a truly scientific approach to understanding and transforming reality Whether you believe in god or are an agnostic or an atheist Bob Avakian will challenge you with his powerful critique of long established traditions and his liberating vision of a radically different world **The Faces of**

**Janus** A. James Gregor, 2004-03-04 Attempting to understand the catalogue of horrors that has characterised much of twentieth century history Western scholars generally distinguish between violent revolutions of the right and the left Fascist regimes are assigned to the evil right Marxist Leninist regimes to the benign left But this distinction has left us without a coherent understanding of the revolutionary history of the twentieth century contends A James Gregor in this insightful book He traces the evolution of Marxist theory from the 1920s through the 1990s and argues that the ideology of Marxism Leninism devolved into fascism Fascist regimes and Communist regimes both anti democratic ideocracies are far more closely related than has been recognised Employing wide ranging primary source materials in Italian German Russian and Chinese the book opens with an examination of the first standard Marxist interpretation of Mussolini s fascism in the early 1920s and proceeds through the emergence of fascist phenomena in post Communist Russia A clearer understanding of the relation between fascism and communism provides a sharper lens through which to view twentieth century history as well as the present and future politics of Russia Communist China and other non democratic states Gregor concludes **Preaching**

**From a Pulpit of Bones** Bob Avakian, 1999-06-01 This provocative book includes a scathing refutation of the reality behind conservative Christian fundamentalist morality a critical look at the limitations of liberation theology including a discussion of Jim Wallis s book *The Soul of Politics* and an inspiring look at morality from a revolutionary perspective This work is even more timely today as it was when it was published in 1999 Bob Avakian says in the Prologue that From whatever vantage point one looks it is unmistakable that there is what could be called a moral crisis in America There has been to a significant degree a breakdown of traditional morality But the answer to this at least the answer that is in the interests of the majority of people in the U S and the overwhelming majority of humanity is not a more aggressive assertion of that traditional morality but winning people to a radically different morality in the process of radically transforming society and the world as a whole

Politics in the impasse Bill Martin, 1996-01-01 Develops a radical politics of community that engages with practical issues such as the Gulf War and the 1992 uprisings in Los Angeles set against the context of postmodern capitalism **Dispatches From the People's War in Nepal** Li Onesto, 2004-11-20 A Maoist revolution has been raging in Nepal since 1996 In 1999 Li Onesto became the first foreign journalist to travel deep into the guerrilla zones Allowed unprecedented access she interviewed political leaders guerrilla fighters villagers in areas under Maoist control and relatives of those killed by government forces Millions in Nepal now live in areas under guerrilla control Peasants are running grass roots institutions

exercising what they call people's power. Li Onesto describes these transformations: the establishment of new governing committees and courts, the confiscation and re-division of land, new cultural and social practices, and the emergence of a new outlook. Increasingly, the UK and US have directly intervened to provide political and military support to the counter-insurgency efforts of the Nepalese regime. Onesto analyzes this in the context of the broader international situation and the war on terrorism.

*The New Communism* Bob Avakian, 2016-10-15 Nominee 2017 American Book Fest Best Book Awards

For anyone who cares about the state of the world and the condition of humanity and agonizes over whether fundamental change is really possible, this landmark work provides a sweeping and comprehensive orientation, foundation, and guide to making the most radical of revolutions: a communist revolution aimed at emancipating humanity, getting beyond all forms of oppression and exploitation on a world scale. The author, Bob Avakian, is the architect of a new synthesis of communism. This new synthesis is a continuation of but also represents a qualitative leap beyond and in some important ways a break with communist theory as it had been previously developed. Avakian has written this book in such a way as to make even complex theory accessible to a broad audience. In this book, he draws on his decades of work advancing the science of communism and his experience as a revolutionary communist leader, including leading the Revolutionary Communist Party, USA, as its Chairman since its founding in 1975. This is a pathbreaking work, one that scientifically analyzes the system of capitalism, imperialism, and its unresolvable contradictions, confronts the challenges facing the movement for revolution, and forges a way forward to making an actual revolution in this country as part of contributing to communist revolution internationally.

From Ike to Mao and Beyond Bob Avakian, 2005 Bob Avakian has written a memoir containing three unique but interwoven stories. The first tells of a white middle-class kid growing up in 1950s America who goes to an integrated high school and has his world turned around; the second of a young man who overcomes a near-fatal disease and jumps with both feet into the heady swirl of Berkeley in the sixties; and the third of a radical activist who matures into a tempered revolutionary communist leader. If you think about the past or if you urgently care about the future, if you want to hear a unique voice of utter realism and deep humanity, and if you dare to have your assumptions challenged and your stereotypes overturned, then take a look at this book.

**You Don't Know What You Think You "Know" About... The Communist Revolution and the REAL Path to Emancipation: Its History and Our Future** Raymond Lotta, 2014-03-21 This book takes on and refutes the conventional wisdom that communist revolution has been a disaster and nightmare. In a wide-ranging, provocative, and richly detailed interview, Raymond Lotta, a political economist and expert in the history of communism, guides the reader through the first wave of socialist revolutions: the Paris Commune of 1871, the Bolshevik Revolution of 1917-56, and the Chinese revolution of 1949-76. This is the real history and a penetrating analysis of what these revolutions and their leadership actually set out to do: the liberating economic, social, and cultural transformations brought about, and the shortcomings as well. How did the lives of women radically change? How did revolution attack the

oppression of minority nationalities This book will show you It also sails straight into the face of controversy It addresses the important historical role of Stalin the slanders directed at the Great Leap Forward and Mao's Cultural Revolution in China and the wrong ways that people in U S society have been trained to think about society the world and revolution Lotta examines why these revolutions ultimately met defeat But he also explains why it is possible drawing the right lessons to go further and do better in a new stage of revolution In this he introduces the reader to Bob Avakian's new synthesis of communism At once rigorous and accessible the book is an unparalleled resource The world cries out for fundamental change yet people are told there is no alternative Raymond Lotta makes the case that the whole history of communism thus far shows that the world does not have to be this way *Socialism Is Dead! Long Live Socialism!* Todor Bombov, 2017-01-10 This work is divided into two autonomous books The first book The State represents a radically new political system of society one which is the most democratic system ever possible This is a completely new society a real civil society which otherwise in the capitalist system is only a utopia In this book I scrutinize the principles of scientific socialism i e all those principles of Marxism concerning the state that build socialism as a political system The second book The Economic Theory of Socialism is a sequel and as far as I know the only sequel of the greatest work by Karl Marx Capital The economics of socialism makes Marx's socialism already completely possible In this book I scrutinize the economic laws that build socialism as a more effective economic system than capitalism These laws are extracted from Marx's main work Capital From 1917 to 1991 the totalitarian system in USSR and East Europe was called socialism and even by the scientific nonsense and absurd names of communism and communist system In this system the official ideology was allegedly Marxism but really it could not endure any Marxist criticism There was never any socialism anywhere In the twentieth century we passed through a system of utopian socialism as proof that this was not socialism that was not possible but for the utopia of writers before and after Marx We were visited by a utopian socialism which at the contemporary stage is simply capitalism state monopolistic There is no better application of Keynes's doctrine than the socialism of the twentieth century His planned capitalism is actually planned socialism Legacy to Liberation Fred Wei-han Ho, 2000 Legacy to Liberation is a groundbreaking anthology which documents analyzes three decades of radical and revolutionary movement building in Asian America from the 60s to the 90s Penetrating essays are interwoven with archival photos artwork poetry and an appendix of rare manifestos position papers and other documents compiled by veteran and younger Asian Pacific American activist fighters from across the U S

Observations on Art and Culture, Science and Philosophy Bob Avakian, 2005 This provocative collection of reflections and observations by Bob Avakian on art culture science and philosophy offers a rare treat Excerpted from formal talks as well as more informal discussions and conversations this collection allows the reader to experience Bob Avakian in the process of developing his thinking and re envisioning the communist project on a wide range of subjects from the dictatorship of the proletariat to discussions of truth beauty science and imagination This collection will provide the reader with important fresh

and provocative insights and provoke further creative and critical thinking on art culture science philosophy and revolution
