Phosphate Metabolism:

Phosphate Metabolism Mohammed S. Razzaque, 2022-03-14 This contributed volume discusses the most important physiological aspects of phosphate metabolism and how its pathological dysregulation can induce organ damage which includes but is not limited to blood vessels kidney bone and tumor The editor has selected a varied group of world renowned experts to provide a basic understanding of normal phosphate regulation to then move on to explain the complex molecular mechanisms of abnormal phosphate regulation also shedding some light on the downstream clinical consequences owing to phosphate toxicity Each chapter clearly presents the biochemically important problems related to phosphate dysregulation with the necessary illustrations Readers will be able to use the proposed book as a quick reference for updated information on phosphate metabolism ranging from cellular system to physiology from pathology to toxicity also including the associated clinical consequences without much prior acquaintance with the field

Phosphate Metabolism Shaul Massry, 2013-11-21 We present to our readers the proceedings of the Second International Workshop on Phosphate A short account of the history of the effort led to the Phosphate Workshops is appropriate and can be of interest to the reader The idea for Phosphate Workshops was born in the early days of November 1974 One of us S G M suggested the thought to a group of scientists gathered for a luncheon in one of the attractive small restaurants in Weisbaden Germany The purpose of the workshop was to bring together interested scientists to discuss the newer developments and the recent advances in the field of phosphate metabolism and the other related minerals An Organizing Committee made of Shaul G Massry USA Louis V Avioli USA Philippe Bordier France Herbert Fleisch Switzerland and Eduardo Slatopolsky USA was formed The First Workshop was held in Paris during June 5 6 1975 and was hosted by Dr Philippe Bordier Its proceeding was already published The Second Workshop took place in Heidelberg during June 28 30 1976 and was hosted by Dr Eberhard Ritz Both of these workshops were extremely successful scientific endeavors and the need for them was demonstrated by the great interest they generated among the scientific community The Organizing Committee therefore decided to continue with the tradition to hold additional Workshops annually or every other year
