Photography Theory James Elkins, 2013-10-18 Photography Theory presents forty of the world's most active art historians and theorists including Victor Burgin, Joel Snyder, Rosalind Krauss, Alan Trachtenberg, Geoffrey Batchen, Carol Squiers, Margaret Iversen, and Abigail Solomon Godeau in animated debate on the nature of photography. Photography has been around for nearly two centuries but we are no closer to understanding what it is. For some people a photograph is an optically accurate impression of the world; for others it is mainly a way of remembering people and places. Some view it as a sign of bourgeois life, a kind of addiction of the middle class, whilst others see it as a troublesome interloper that has confused people's ideas of reality and fine art to the point that they have difficulty even defining what a photograph is. For some the whole question of finding photography's nature is itself misguided from the beginning. This provocative second volume in the Routledge The Art Seminar series presents not one but many answers to the question: what makes a photograph a photograph.

□□□□□□ 1912-1990 Manfred Heiting, Duncan Forbes, 2017 This book illustrates the development of photography as seen in photo publications in Japan from the time of influence by European and American pictorialism, the German Bauhaus, and Imperial military propaganda to the complete collapse and destruction of the country in 1945. Then followed a new beginning with the unique self-determination of a young generation of photographers and visual artists highlighted by the Provoke style as well as protest and war documentation of the late 1950s to the early 70s, the signature Japanese photobook as we have come to know it was born. With detailed information and illustrations of over 500 photo publications, an introduction by Kaneko Ryuichi, and essays by Fujimura Satomi, Duncan Forbes, Manfred Heiting, Mitsuda Yuri, Iizawa Kotaro, Shirayama Mari, and Takeba Joe, this is the first extensive English-language survey of Japanese photobooks of this period.

**A Box of Photographs** Roger Grenier, 2019-04-05 Most attempts to generalize about photography as a medium run up against our experience of the photographs themselves. We live with photos and cameras every day, and philosophies of the photographic image do little to shake our intimate sense of how we produce photographs and what they mean to us. In this book, that is equal parts memoir and intellectual and cultural history, French writer Roger Grenier contemplates the ways that photography can change the course of a life, reflecting along the way on the history of photography and its practitioners. Unfolding in brief charming vignettes, *A Box of Photographs* evokes Grenier's childhood in Pau, his war years, and his working life at the Gallimard publishing house in Paris. Throughout these personal stories, Grenier subtly weaves the story of a lifetime of practicing and thinking about photography and its heroes: Henri Cartier-Bresson, Weegee, Alfred Eisenstaedt, George Brassa Inge, Morath, and others. Adding their own insights about photography to the narrative are a striking range of writers, thinkers, and artists from Lewis Carroll, Albert Camus, and Arthur

Schopenhauer to Susan Sontag Edgar Degas and Eugène Delacroix Even cameras themselves come to life and take on personalities an Agfa accompanies Grenier on grueling military duty in Algeria a Voigtlander almost gets him killed by German soldiers during the liberation of Paris and an ill fated Olympus drowns in a boating accident Throughout Grenier draws us into the private life of photographs seeking the secrets they hold for him and for us A valedictory salute to a lost world of darkrooms proofs and the gummed paper corners of old photo albums A Box of Photographs is a warm look at the most honest of life's mirrors **Gustave Le Gray, 1820-1884** Sylvie Aubenas, Gustave Le Gray, 2002 He occasionally made photographs until his death in poverty there in 1884 leaving behind some of the most dazzling photographic images of his era

Photographic Travel Books Danièle Méaux, 2017-07-24 Since early in its history photography has been used by a diversity of travellers whose collected photographs have been compiled into albums But Photographic Travel as a genre of art did not appear before the second half of the twentieth century and had a singular fate and fortune in the US as well as in Europe The initial objective of some itinerant photographers is to make a book their shooting practice is conditioned by this objective as well as their travel experience Their books designed as one coherent hole refer to their wandering experience even though their stories are never completely free from fiction In these books their travels are converged and their subjectivity is revealed It is therefore relevant to call such books made of photographs and possibly words about the travel experience Photographic Travel books comparably to Travel books Danièle Méaux has tackled the task of characterizing this genre
