Written by experts in their specialist fields the series creates a unique service for the active research chemist supplying
regular critical in depth accounts of progress in particular areas of chemistry For over 80 years the Royal Society of
Chemistry and its predecessor the Chemical Society have been publishing reports charting developments in chemistry which
originally took the form of Annual Reports However by 1967 the whole spectrum of chemistry could no longer be contained
within one volume and the series Specialist Periodical Reports was born The Annual Reports themselves still existed but were
divided into two and subsequently three volumes covering Inorganic Organic and Physical Chemistry For more general
coverage of the highlights in chemistry they remain a must Since that time the SPR series has altered according to the
fluctuating degree of activity in various fields of chemistry Some titles have remained unchanged while others have altered
their emphasis along with their titles some have been combined under a new name whereas others have had to be
discontinued The current list of Specialist Periodical Reports can be seen on the inside flap of this volume **American**
