Photographers Peter E. Palmquist, 2000 **Photographers in Arizona, 1850-1920** Jeremy S. Rowe, 1997 The Old West comes alive through photographs made in the Arizona Territory from its beginning to statehood Jeremy Rowe a well known Arizona photo historian has combined his unique collection of photographs with his rendering of the history of photography in Arizona opening a window into one of the most colorful chapters in our western heritage In addition the book includes the most comprehensive listing of photographers working in Arizona from 1850 to 1920 together with biographies of each and sources utilized in gathering the biographical information Picturing Arizona Katherine G. Morrissey, Kirsten Jensen, 2005-10-01 As cultural documents as works of art and as historical records photographs of 1930s Arizona tell a remarkable story They capture enduring visions of the Depression that linger in cultural memory dust storms Okies on their way to California breadlines and ramshackle tent cities They also reflect a more particular experience and a unique perspective This book places the work of local Arizonans alongside that of federal photographers both to illuminate the impact of the Depression on the state's distinctive racial and natural landscapes and to show the influence of differing cultural agendas on the photographic record The more than one hundred images by well known photographers such as Dorothea Lange and Laura Gilpin as well as by an array of less familiar photographers represent a variety of purposes and perspectives from public to personal political to promotional Six essays and three photo essays bring together prominent authorities in history the arts and other fields who provide diverse perspectives on this period in Arizona and American history Viewed together the words and images capture a Depression era Arizona bustling with activity as federally funded construction projects and seasonal agricultural jobs brought migrants and newcomers to the state They convey the celebrations and the struggles of commercial photographers archaeologists city folks farmers tourists native peoples and others in these hard times As the economic strains of the decade reverberated through the state local photographers documented the lives of Arizona residents including those frequently overlooked by historians As this book persuasively shows photographs can conceal as much as they reveal A young Mexican American girl stands in front of a backdrop that hides the outhouse behind her a deeply moving image for what it suggests about the efforts of her family to conceal their economic circumstances Yet this image is a perfect metaphor for all the photographs in this book stories remain hidden but when viewers begin to question what they cannot see pictures resonate more loudly than ever before This book is a history of Arizona written from the photographic record offering a point of view that may differ from the written record From the images and the insights of the authors we can gain a new appreciation of how one state and its indomitable people weathered our nation's toughest times **A Photographic Tour of 1916 Prescott, Arizona** Nancy Burgess, Richard Williams, 2015-11-24 In the spring of 1916 an unknown photographer captured the heart of Prescott Arizona For decades the fruits of that labor a collection of glass plate negatives lay largely forgotten in the local opera house and theater Now an

historic western town comes to life as it once was through images of the town's business district as found on those photographic plates Step into a soda fountain a pool hall a mercantile a haberdashery a saddlery and more and experience life as it existed in the newly minted state of Arizona in the early twentieth century This photographic history of Prescott Arizona is based upon more than 100 images from the 1916 glass plate negatives Complementary images of business advertisements trade tokens and streetscapes supplement the main photographs Richly detailed captions highlight many aspects of the pictures and the text further explores and describes the town's historic downtown district much of which still exists Maps a bibliography and an index complete the work **New Deal Art in Arizona** Betsy Fahlman, 2016-05-26

early 1900s Walter Elias Hadsell a skilled photographer who had recently graduated as a mining engineer documented a critical period of foreign investment in Mexico's mining industry and in the process captured scenes of Mexican life in other cities Susan Toomey Frost draws from an extensive collection of Hadsell's original photographic prints to narrate his ten years in Mexico The images in *Witness to War* follow him from his time as a mining engineer in Mexico to his 1917 return to mining in Arizona his home state Planning for a future career in photography Hadsell soon acquired the Kodak franchise for Veracruz Mexico's most important port since colonial times He documented the damage done in Mexico City during a ten day uprising in 1913 that led to the assassination of Mexican president Francisco Madero Veracruz became a vortex for U S interference in the Mexican Revolution when President Woodrow Wilson invaded the country in 1914 in an attempt to thwart Mexico's successor president and to favor opposing forces Hadsell as a resident American citizen had immediate access to the military operation as it unfolded His images are essential historical records of Wilson's intervention in Mexican affairs Hadsell's camera recorded images of a defenseless city disrupted by the landing of thousands of American troops With no exit plan U S forces remained for seven months before abruptly departing Hadsell's personal life took a tragic turn with the death of his wife who left him with three young children all born in Mexico He endured another tragedy with the loss of his Veracruz studio during a period of anti Americanism though he ultimately left a rich legacy documenting U S Mexico relations at a critical time
