Hight, 2011 Expanding the canon of photographic history *Capturing Japan in Nineteenth Century New England Photography Collections* focuses on six New Englanders whose travel and photograph collecting influenced the flowering of Japonism in late nineteenth century Boston The book also explores the history of Japanese photography and its main themes The first history of its kind this study illuminates the ways photographs seeming conveyors of fact imprint mental images and suppositions on their viewers *Photographers* Peter E. Palmquist, 2000 *Liminalities of Gender and Sexuality in Nineteenth-Century Iranian Photography* Staci Gem Scheiwiller, 2016-12-01 Nineteenth century Iran was an ocularcentered society predicated on visibility and what was seen and unseen and photographs became liminal sites of desire that maneuvered betwixt and between various social spaces public private seen unseen accessible and forbidden thus mapping graphing and even transgressing those spaces especially in light of increasing modernization and global contact during the nineteenth and early twentieth centuries Of primary interest is how photographs negotiated and coded gender sexuality and desire becoming strategies of empowerment of domination of expression and of being seen Hence the photograph became a vehicle to traverse multiple locations that various gendered physical bodies could not and it was also the social and political relations that had preceded the photograph that determined those ideological spaces of immobility In identifying these notions in photographs one may glean information about how modern Iran metamorphosed throughout its own long duration or resisted those societal transformations as a result of modernization **Mina Loy, Twentieth-Century**

 Notes Bibliography Index Journals of the Century Tony Stankus, 2019-12-06 This book first published in 2002 gathers
 some of America's top subject expert librarians to determine the most influential journals in their respective fields 32
 contributing authors reviewed journals from over twenty countries that have successfully shaped the evolution of their
 individual specialties worldwide Their choices reflect the history of each discipline or profession taking into account rivalries
 between universities professional societies for profit and not for profit publishers and even nation states and international
 ideologies in each journal's quest for reputational dominance Each journal was judged using criteria such as longevity of
 publication foresight in carving out its niche ability to attract none are in the employ of any publisher but each is fully
 credentialed and well published and many are award winners The authors guide college and professional school librarians on
 limited budgets via an exposition of their analytical and critical winnowing process in determining the classic resources for
 their faculty students and working professional clientele *Nineteenth-Century Photographs and Architecture* Micheline
 Nilsen, 2017-07-05 Eschewing the limiting idea that nineteenth century architecture photography merely reflects
 functionality the objective of this collection is to reflect the aesthetic intellectual and cultural concerns of the time The essays
 hold appeal for social and cultural historians as well as those with an interest in the fields of art history urban geography
 history of travel and tourism Nineteenth century photographers captured what could be seen and what they wanted to be
 seen Their images informed of exploration progress heritage and destruction Architecture was a staple subject for the first
 generation of photographers as it patiently tolerated the long exposures of the early processes During its formative decades
 photography responded to evolutionary cultural forces of market and artistic production Photographs of architecture

reflected a specific political or social context modulated through individual points of view For this reason the examination of each photographic image as a primary visual document and an aesthetic object rather than a technical milestone on a chronological trajectory affords a richer multi faceted approach to the extensive and complex corpus of photographs taken by photographers all over the world This project acknowledges the importance of technique in the early decades of photography but focuses on the thematic content of the material It places the photography of architecture in an international context under the contemporary critical lens sharpened by theoretical and cultural examinations of the topic *The Photographic History of the Civil War: The decisive battles* Francis Trevelyan Miller,Robert Sampson Lanier,1911 Thousands of scenes photographed 1861 65 with text by many special authorities **The German Century** Michael St rmer,2001 The German Century is a magnificent and compelling photographic chronicle of this country at the heart of Europe More than 300 images many of them previously unpublished are complimented by Michael Sturmer s penetrating text Gathered from national and state archives newspapers and private collections this visual survey includes the work of talented photographers like the Nazi era photojournalist Max Ehlert whose work had largely been forgotten From imperial ambition to democratic high hopes from violence and destruction to political division and rebirth Germany s story has been an integral part of the dramatic events of the 20th century *The World of Francis Cooper: Nineteenth-Century Pennsylvania Photographer* ,1999 **A Photographic History, why America Won the War** Roy Oscar Randall,John Sydney Baxter,1922
