Photographies D Arabie:

Imaging and Imagining Palestine Karène Sanchez Summerer, Sary Zananiri, 2021-07-05 Imaging and Imagining Palestine is the first comprehensive study of photography during the British Mandate period 1918-1948. It addresses well-known archives, photos from private collections never available before, and archives that have until recently remained closed. This interdisciplinary volume argues that photography is central to a different understanding of the social and political complexities of Palestine in this period. While Biblical and Orientalist images abound, the chapters in this book go further by questioning the impact of photography on the social histories of British Mandate Palestine. This book considers the specific archives, the work of individual photographers, methods for reading historical photography from the present, and how we might begin the process of decolonising photography. Imaging and Imagining Palestine presents a timely and much-needed critical evaluation of the role of photography in Palestine. Drawing together leading interdisciplinary specialists and engaging a range of innovative methodologies, the volume makes clear the ways in which photography reflects the shifting political, cultural, and economic landscape of the British Mandate period and experiences of modernity in Palestine. Actively problematising conventional understandings of production, circulation, and the instability of the photographic document, Imaging and Imagining Palestine provides essential reading for decolonial studies of photography and visual culture studies of Palestine. Chrisoula Lionis, author of *Laughter in Occupied Palestine: Comedy and Identity in Art and Film*. Imaging and Imagining Palestine is the first and much-needed overview of photography during the British Mandate period. From well-known and accessible photographic archives to private family albums, it deals with the cultural and political relations of the period, thinking about both the Western perceptions of Palestine as well as its modern social life. This book brings together an impressive array of material and analyses to form an interdisciplinary perspective that considers just how photography shapes our understanding of the past as well as the ways in which the past might be reclaimed. Jack Persekian, Founding Director of Al Ma mal Foundation for Contemporary Art in Jerusalem. Imaging and Imagining Palestine draws together a plethora of fresh approaches to the field of photography in Palestine. It considers Palestine as a central node in global photographic production and the ways in which photography shaped the modern imaging and imagining from within a fresh regional theoretical perspective. Salwa Mikdadi, Director al Mawrid Arab Center for the Study of Art, New York University. Abu Dhabi. Unearthing Jerusalem Katharina Galor, Gideon Avni, 2011-06-30. On a cold winter morning in January of 1851, a small group of people approached the monumental facade of an ancient rock-cut burial cave located north of the Old City of Jerusalem. The team, consisting of two Europeans and a number of local workers, was led by Louis F. Licien Caignart de Saulcy, descendant of a noble Flemish family who later was to become a distinguished member of the French parliament. As an amateur archaeologist and a devout Catholic, de Saulcy was attracted to the Holy Land and Jerusalem in particular and was obsessed by his desire to uncover some tangible evidence for the city's glorious past. However, unlike numerous other

European pilgrims researchers and adventurers before him de Saulcy was determined to expose the evidence by physically excavating ancient sites His first object of investigation constitutes one of the most attractive and mysterious monumental burial caves within the vicinity of the Old City from then onward to be referred to as the Tomb of the Kings Kubur al Muluk By conducting an archaeological investigation de Saulcy tried to prove that this complex represented no less than the monumental sepulcher of the biblical Davidic Dynasty His brief exploration of the burial complex in 1851 led to the discovery of several ancient artifacts including sizeable marble fragments of one or several sarcophagi It would take him another 13 years to raise the funds for a more comprehensive investigation of the site On November 17 1863 de Saulcy returned to Jerusalem with a larger team to initiate what would later be referred to as the first archaeological excavation to be conducted in the city from the Preface In 2006 some two dozen contemporary archaeologists and historians met at Brown University in Providence RI to present papers and illustrations marking the 150th anniversary of modern archaeological exploration of the Holy City The papers from that conference are published here presented in 5 major sections 1 The History of Research 2 From Early Humans to the Iron Age 3 The Roman Period 4 The Byzantine Period and 5 The Early Islamic and Medieval Periods The volume is heavily illustrated with materials from historical archives as well as from contemporary excavations It provides a helpful and informative introduction to the history of the various national and religious organizations that have sponsored excavations in the Holy Land and Jerusalem in particular as well as a summary of the current status of excavations in Jerusalem

A Line in the Sand: The Anglo-French Struggle for the Middle East, 1914-1948 James Barr, 2012-01-09 Uses recently declassified French and British government documents to describe how the two countries secretly divided the Middle East during World War I and the effect these mandates had on local Arabs and Jews

quseir : an ottoman and napoleonic fortress on the red sea coast of egypt charles le qusene, 2007 This volume presents the results of recent archaeological and historical studies of the Ottoman fort of Quseir which was Upper Egypt's only direct outlet to the Red Sea at that time Illustrated with over 100 maps drawings and photos this groundbreaking study examines a key example of Ottoman era material culture in Egypt a topic largely overlooked by archaeologists With contributions from seven historians and archaeologists Quseir traces the development and history of an important Ottoman fortress built near an abandoned medieval port Its establishment was part of a constant struggle by the Ottoman state to maintain control of the desert and the routes across it Studies of the archaeological remains from the fort reveal the presence of reused stones from a Greco Roman temple and emphasize its key role as a regional grain entrepôt and port of embarkation for Muslim pilgrims on the way to Mecca Quseir is a portrait of a place at the boundary of two powerful cultural and economic systems While serving as an outlet for the pilgrims and produce of Upper Egypt Quseir also played a role in the distinctive maritime culture of the Red Sea This study also reveals in detail for the first time the story of the struggle between the British and French for control of Quseir during the Napoleonic occupation of 1798-1801 Drawing on recent archaeological investigations and new

archival research Quseir offers important new scholarship on a key Ottoman site American Research Center in Egypt Conservation Series 2 Behind the Lawrence Legend Philip Walker, 2018-01-26 T E Lawrence became world famous as Lawrence of Arabia after helping Sherif Hussein of Mecca gain independence from Turkey during the Arab Revolt of 1916 18 His achievements however would have been impossible without the unsung efforts of a forgotten band of fellow officers and spies This groundbreaking account by Philip Walker interweaves the compelling stories of Colonel Cyril Wilson and a colourful supporting cast with the narrative of Lawrence and the desert campaign These men's lost tales provide a remarkable and fresh perspective on Lawrence and the Arab Revolt While Lawrence and others blew up trains in the desert Wilson and his men carried out their shadowy intelligence and diplomatic work His deputies rooted out anti British jihadists who were trying to sabotage the revolt Meanwhile Lieutenant Lionel Gray a cipher officer provided a gateway into unknown aspects of the revolt through his previously unpublished photographs and eyewitness writings Wilson's crucial influence underpinned all these missions and steadied the revolt on a number of occasions when it could have collapsed Without Wilson and his circle there would have been no Lawrence of Arabia Yet Wilson's band mostly fell through the cracks of history into obscurity Behind the Lawrence Legend reveals their vital impact and puts Lawrence's efforts into context thus helping to set the record straight for one of the most beguiling and iconic characters of the twentieth century **Setting the Desert on Fire: T. E. Lawrence and Britain's Secret War in Arabia, 1916-1918** James Barr, 2009-07-06 Greed and intrigue combine explosively in this gripping masterly account of a key moment in the history of the Middle East and a portrait of T E Lawrence Lawrence of Arabia himself that is bright nuanced and full of fresh insights into the true nature of the master mythmaker Photos Maps **The Life of the Red Sea Dhow** Dionisius A. Agius, 2019-04-04 Few images are as evocative as the silhouette of the Arab dhow as under full sail it tacks to windward on glittering waters of Red Sea before moving across the face of the rising or setting sun In this authoritative new book Dionisius A Agius one of the foremost scholars of Islamic material culture offers a lucid and wide ranging history of the iconic dhow from medieval to modern times Traversing the Arabian and African coasts he shows that the dhow was central not just to commerce but to the vital transmission and exchange of ideas Discussing trade and salt routes shoals and wind patterns spice harvest seasons and the deep and resonant connection between language memory and oral tradition this is the first book to place the dhow in its full and remarkable cultural contexts Songs of the Arabian Red Sea Dionisius A. Agius, Muhammad Zafer Alhazmi, Hasan Hujairi, 2025-07-24 Song and music have always played an important part in the cultural identity of the mariners and coastal peoples of the Red Sea While previous studies on the maritime culture of this region have focused on the sailing vessel the dhow and seafaring communities this is the first book to examine its rich musical repertoire Using fieldwork conducted along the Hijaz and Upper Tihama coasts The Songs of the Arabian Red Sea documents examples of different musical forms and styles as well as the stories of older mariners who describe the contexts in which songs were sung from sea shanties during

the working day to soulful ballads about home and loved ones at night Presenting the songs and their lyrics in the context of the geography culture oral history and musicology of the region the book reveals the complex and connected network that influenced their development and the vital place of song and music for diverse communities of the region **International Photography Index** ,1980 **Modern photography annual** ,1970 **France Images & Messages** Ronald W.
