With a focus on the media text image and the human body the chapters of this book demonstrate how Kincaid's poetics of impermanence counter colonial representations of history with strategies of ambiguity repetition and redirection Kincaid's texts repeat and revise aspects of colonial history a process that decenters the totality of historical colonial ideology and replaces it with self-determined versions of the past through a multiplication of perspectives and voices

American Women Photographers Martha Kreisel, 1999-02-28 American women have made significant contributions to the field of photography for well over a century This bibliography compiles more than 1 070 sources for over 600 photographers from the 1880s to the present As women's role in society changed so did their role as photographers In the early years women often served as

photographic assistants in their husbands studios The photography equipment initially heavy and difficult to transport was improved in the 1880s by George Eastman s innovations With the lighter camera equipment photography became accessible to everyone Women photographers became journalists and portraitists who documented vanishing cultures and ways of life Many of these important female photographers recorded life in the growing Northwest and the streets of New York City became pioneers of historic photography as they captured the plight of Americans fleeing the Dust Bowl and the horrors of the concentration camps and were members of the Photo Secessionist Movement to promote photography as a true art form This source serves as a checklist for not only the famous but also the less familiar women photographers who deserve attention

ever so fashionable glitz and glam of temptations *Women's Art of the British Empire* Mary Ellen Snodgrass, 2019-11-11

The spread of the British Empire around the globe made vast changes in the relationship of peoples to places. Because the logistics of colonization varied, countries passed in and out of the empire some rapidly and others slower or by degrees. Multiculturalism broadened the world's ability to read the English language and understand and adopt England's ethics and morals. Into the early twentieth century, the posting of the British army and navy and the establishment of English style embassies and police forces in remote colonies freed single travelers, especially women and children, of the fear of violence or kidnap. As a result, girls and women found outlets for creativity by exploring unfamiliar lands.

In *Women's Art of the British Empire*, Mary Ellen Snodgrass provides an overview of multiracial arts and crafts from Great Britain's Empire. Drawing upon primary sources, this volume encompasses a wide variety of artistic accomplishment, such as sewing and quilting, basketry and weaving, songwriting and dancing, diaries, memoirs, editorials, and speeches. Each entry includes a comprehensive bibliography of primary and secondary sources as well as further readings on the female artists and their respective crafts. With its informative entries and extensive examinations of artistic talent, *Women's Art of the British Empire* is a valuable resource for students, scholars, and anyone interested in learning about the history of women and their artistic contributions.

Slavery, Geography and Empire in Nineteenth-Century Marine Landscapes of Montreal and Jamaica Charmaine A. Nelson, 2017-07-05

Slavery, Geography and Empire in Nineteenth-Century Marine Landscapes of Montreal and Jamaica is among the first Slavery Studies books and the first in Art History to juxtapose temperate and tropical slavery. Charmaine A. Nelson explores the central role of geography and its racialized representation as landscape art in imperial conquest. One could easily assume that nineteenth-century Montreal and Jamaica were worlds apart, but through her astute examination of marine landscape art, the author re-connects these two significant British island colonies, sites of colonial ports with profound economic and military value. Through an analysis of prints, illustrated travel books, and maps, the author exposes the fallacy of their disconnection, arguing instead that the separation of these colonies was a retroactive fabrication designed in part to rid Canada of its deeply colonial history as an integral part of Britain's global trading network, which enriched the motherland through extensive trade in crops produced by enslaved workers on tropical plantations.

The first study to explore James Hakewill's Jamaican landscapes and William Clark's Antiguan genre studies in depth, it also examines the Montreal landscapes of artists including Thomas Davies, Robert Sproule, George Heriot, and James Duncan. Breaking new ground, Nelson reveals how gender and race mediated the aesthetic and scientific access of such mainly white male artists. She analyzes this moment of deep political crisis for British slave owners, between the end of the slave trade in 1807 and complete abolition in 1833, who employed visual culture to imagine spaces free of conflict and to alleviate their pervasive anxiety about slave resistance. Nelson explores how vision and cartographic knowledge translated into authority, which allowed colonizers to civilize the terrains of the so-called New World while belying the oppression of slavery and indigenous displacement.

Women and Migration Deborah Willis, Ellyn Toscano, Kalia Brooks Nelson, 2019-03-08 The essays in this book chart how women's profound and turbulent experiences of migration have been articulated in writing, photography, art, and film. As a whole, the volume gives an impression of a wide range of migratory events from women's perspectives covering the Caribbean Diaspora, refugees, and slavery through the various lenses of politics and war, love and family. The contributors, which include academics and artists, offer both personal and critical points of view on the artistic and historical repositories of these experiences. Selfies, motherhood, violence, and Hollywood all feature in this substantial treasure trove of women's joy and suffering, disaster and delight, place, memory, and identity. This collection appeals to artists and scholars of the humanities, particularly within the social sciences, though there is much to recommend it to creatives seeking inspiration or counsel on the issue of migratory experiences.

Black Matrilineage, Photography, and Representation Lesly Deschler Canossi, Zoraida Lopez-Diago, 2022-10-03 *Black Matrilineage: Photography and Representation: Another Way of Knowing* questions how the Black female body, specifically the Black maternal body, navigates interlocking structures that place a false narrative on her body and that of her maternal ancestors. This volume, which includes a curated selection of images, addresses the complicated relationship between Blackness and photography and, in particular, its gendered dimension, its relationship to health, sexuality, and digital culture, primarily in the context of racialized heteronormativity. With over forty contributors, this volume draws on scholarly inquiry ranging from academic essays, interviews, poetry, to documentary practice and on contemporary art. *Black Matrilineage: Photography and Representation: Another Way of Knowing* thus offers a cross section of analysis on the topic of Black motherhood, mothering, and the participation of photography in the process. This collection challenges racist images and discourses, both historically and in its persistence in contemporary society, while reclaiming the innate brilliance of Black women through personal narratives, political acts, connections to place, moments of pleasure, and communal celebration. It serves as a reflection of the past, a portal to the future, and contributes to recent scholarship on the complexities of Black life and Black joy.
