Pre-State Photographic Archives and the Zionist Movement Rotem Rozental,2023-03-24 By entering and critically re activating the Zionist photographic archive established by the Division of Journalism and Propaganda of the Jewish National Fund this research examines its rippling impact on civil landscapes prior to 1948 in Palestine and its lasting impact on the region to date This study argues that the Zionist movement makes particular use of the machinery of the photographic archive aiming to constitute the boundaries of Palestine as a Jewish state claiming ownership over the land and announcing internationally the success of its enterprise thus substantiating the image it sought to embed as the reality of the land This archive was not stand alone as it was functioning in relation to a vast complicated network of organizational systems and technologies in the Middle East and across the world Crucially this system functioned as a national archive in future tense for a nation state that was not yet in existence seeking to substantiate its regional authority and shape its cultural repository outlining parameters for inclusion and exclusion from its civic space The book will be of interest to scholars working in art history photography history visual culture Jewish studies Israel studies and Middle East studies

Visual Syntax of Race Noa Hazan,2022-09-27 Analyzing the visual syntax and display rhetoric applied in newspaper photos national historical albums and museum exhibitions Noa Hazan shows that although racial thought was and still is verbally suppressed in Israel it is vividly present in its nonverbal official and public visual sphere The racist perspective of newspaper editors book publishers photographers and museum curators were morally justified in its time by such patronizing ideals as realistic news coverage or the salvation of Jewish heritage assets Although their perspectives played a dominant role in establishing a visual syntax of race in Israel they were not seen as racially discriminating at the time The racist motifs and actions are revealed here by colligating multiple cases into a coherent narrative in retrospect This book points to a direct influence of the anti Semitic discourse in Europe toward Mizrahim in Israel highlighting the shared visual stereotypes used in both Europe and the fledgling state of Israel Engraved in their body these cultural traits were depicted and understood as racial biological qualities and were visually manipulated to silo Ashkenazim and Mizrahim in Israel as distinct racial types

Photography and Making Bedouin Histories in the Naqab, 1906-2013 Emilie Le Febvre, 2023-12-22 Introducing a novel anthropological study of photography in the Middle East Emilie Le Febvre takes us to the Naqab Desert where Bedouin use photographs to make and respond to their own histories She argues Bedouin presentations of the past are selective but increasingly reliant on archival documents such as

photographs which spokespersons treat as evidence of their local histories amid escalating tensions in Israel These practices shape Bedouin visual historicity that is the diverse ways people produce their pasts in the present with images This book charts these processes through the afterlives of six photographs c 1906 2013 as they circulate between the Naqab s entangled visual economies a transregional landscape organised by cultural ideals of proximity and assemblages of Bedouin iconography Le Febvre illustrates how representational contentions associated with tribal civic and Palestinian Israeli politics influence how images do history work in this society She concludes Bedouin visual historicity is defined by acts of persuasion during which photographs authenticate alternating history projects Here Bedouin value photographs not because they evidence singular narratives of the past Rather the knowledges inscribed by photography are multifarious as they support diverse constructions of history and society with which members mediate a wide range of relationships in southern Israel This book bridges studies of anthropology photography Palestinian Israeli politics and Bedouin Middle East history Travel Writing, Visual Culture, and Form, 1760-1900 Brian H. Murray, Mary Henes, 2016-03-18 This collection reveals the variety of literary forms and visual media through which travel records were conveyed in the long nineteenth century bringing together a group of leading researchers from a range of disciplines to explore the relationship between travel writing visual representation and formal innovation **Encyclopedia of Nineteenth-Century Photography** John Hannavy, 2013-12-16 The Encyclopedia of Nineteenth Century Photography is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth century It sets out to be the standard definitive reference work on the subject for years to come Its coverage is global an important first in that authorities from all over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication The Encyclopedia presents new and ground breaking research alongside accounts of the major established figures in the nineteenth century arena Coverage includes all the key people processes equipment movements styles debates and groupings which helped photography develop from being a solution in search of a problem when first invented to the essential communication tool creative medium and recorder of everyday life which it had become by the dawn of the twentieth century The sheer breadth of coverage in the 1200 essays makes the Encyclopedia of Nineteenth Century Photography an essential reference source for academics students researchers and libraries worldwide The Holy Fire and the Divine Photography Giulio Fanti, Robert Siefker, 2023-10-06 The information presented in this book will startle the world For centuries the authenticity of the Holy Shroud has been argued about Skeptics push their negative opinion based on a few highly questionable clues while the authenticists continue to detect new facts confirming that the Relic wrapped the corpse of Jesus Christ and that the body image impressed on it was produced by a source of energy generated during the Resurrection What is world changing is that to explain this impossible image of a tortured and crucified man the book presents a startling new hypothesis the Divine Photograph taken at the instant of the Resurrection based on a phenomenon the Miracle of the Holy Fire that manifests on every Holy Saturday at the
