further details gathered during more than fifty interviews undertaken with the artist's family and acquaintances including Robert Motherwell and Susan Sontag. Lindsay Blair gives us the most detailed picture yet of an artist who hid so much of his life from the world. Her conclusion, wholly convincing in the light of the evidence she provides, is that Cornell's ultimate subject was the mind itself. *AIA Guide to Chicago* Alice Sinkevitch, Laurie McGovern Petersen, 2004. Completely revised and updated. *AIA Guide to Chicago* Second Edition is the liveliest and most wide-ranging guide ever written about Chicago's architecture. The book is arranged geographically so that the user, whether Chicago citizen or visitor, can tour each area of the city as conveniently as possible. Building descriptions focus on the illuminating but easily overlooked details that give the buildings their character. Behind the scenes, often unexpected stories of why a building took the shape it did. And in the best Chicago tradition, this guide does not shy away from opinions where opinions are called for. *Comprehensively researched, meticulously written, and more than thorough*. **Chicago in Season** Chicago Tribune (Firm), 2010-11. *Chicago and Downstate* Robert L. Reid, Larry A. Viskochil, 1989. The photographs in this collection, drawn from the most extensive photodocumentary project ever conceived, reflect the wide diversity of what has been called the nation's most representative state. The renowned photographers of Roy Stryker's Farm Security Administration staff traveled throughout the state, focusing on the people of Illinois at home, at work, at play. The editors selected 162 photos for this collection from the more than 2,400 taken in Illinois by such photographers as John Vachon, Russell Lee, Arthur Rothstein, Jack Delano, Dorothea Lange, Esther Bubley, Theodor Jung, Carl Mydans, Ann Rosen, and Edwin Rosskam. *Barnesandnoble.com*. *War, Peace, and All that Jazz* Joy Hakim, 2006. A beautifully illustrated global history of collage, from the origins of paper to today. While the emergence of collage is frequently placed in the twentieth century, when it was a favored medium of modern artists, its earliest beginnings are tied to the invention of paper in China around 200 BCE. Subsequent forms occurred in twelfth-century Japan with illuminated manuscripts that combined calligraphic poetry with torn, colored papers. In early modern Europe, collage was used to document and organize herbaria, plant specimens, and other systems of knowledge. In the eighteenth and nineteenth centuries, collage became firmly associated with the expression of

intimate relations and familial affections *Fragmentary Forms* offers a new global perspective on one of the world's oldest and most enduring means of cultural expression tracing the rich history of collage from its ancient origins to its uses today as a powerful tool for storytelling and explorations of identity Presenting an expansive approach to collage and the history of art Freya Gowrley explores what happens when overlapping fragmentary forms are in conversation with one another She looks at everything from volumes of pilgrims religious relics and Victorian seaweed albums to modernist papiers collés by Pablo Picasso and Georges Braque and quilts by Faith Ringgold exploring African American identity Gowrley examines the work of anonymous and unknown artists whose names have been lost to history either by accident or through exclusion Featuring hundreds of beautiful images *Fragmentary Forms* demonstrates how the use of found objects is an important characteristic of this unique art form and shows how collage is an inclusive medium that has given voice to marginalized communities and artists across centuries and cultures

International Photography Andrew H. Eskin, Greg Drake, 1998 This 3 vol work constitutes a vastly enlarged and expanded new edition of the *Index to American Photographic Collections* 3rd enlarged edition differing from the previous editions in two important respects First is the inclusion of holdings from outside the United States a natural evolution in our shrinking world The second is the inclusion of exhibition histories cross referenced by photographer and sponsoring institution providing a useful new context for evaluating less well known photographers
