

Phratries Of Attica

S. D. Lambert

Phratries Of Attica:

The Phratries of Attica S. D. Lambert,1998 Presents the innovative view that the classical Greek phratry system reflected democratic government rather than aristocratic *Athenian Democratic Origins* Geoffrey de Ste. Croix,2004-03-26 In these interconnected essays the late Geoffrey de Ste Croix defends the institutions of the Athenian democracy showing that they were much more practical rational and impartial than has usually been acknowledged A major essay provides a new view of Aristotle s use of sources in *The Constitution of the Athenians* on which so much of our knowledge of Athenian constitutional history depends Ste Croix also argues that commercial factors had much less influence on Greek politics than modern scholars tend to assume and that there was no such thing in any Greek state as a commercial aristocracy As always he works out these general positions with the utmost lucidity and pungency and in meticulous detail Though written in the 1960s these hitherto unpublished essays by a great radical historian will still constitute a major contribution to contemporary debate The editors and other specialists have supplied an updating Afterword to each chapter and the book contains a thorough index

Childhood in Ancient Athens Lesley A. Beaumont,2013-01-17 Childhood in Ancient Athens offers an in depth study of children during the heyday of the Athenian city state thereby illuminating a significant social group largely ignored by most ancient and modern authors alike It concentrates not only on the child s own experience but also examines the perceptions of children and childhood by Athenian society these perceptions variously exhibit both similarities and stark contrasts with those of our own 21st century Western society The study covers the juvenile life course from birth and infancy through early and later childhood and treats these life stages according to the topics of nurture play education work cult and ritual and death In view of the scant ancient Greek literary evidence pertaining to childhood Beaumont focuses on the more copious ancient visual representations of children in Athenian pot painting sculpture and terracotta modelling Notably this is the first full length monograph in English to address the iconography of childhood in ancient Athens and it breaks important new ground by rigorously analysing and evaluating classical art to reconstruct childhood s social history With over 120 illustrations the book provides a rich visual as well as narrative resource for the history of childhood in classical antiquity

An Encyclopedic Chronology of Greece and Its History Demetrios Protopsaltis,2012-05-09 **An Encyclopedic Chronology of Greece and Its History** **Greek and Roman Networks in the Mediterranean** Irad Malkin,Christy Constantakopoulou,Katerina Panagopoulou,2013-09-13 How useful is the concept of network for historical studies and the ancient world in particular Using theoretical models of social network analysis this book illuminates aspects of the economic social religious and political history of the ancient Greek and Roman worlds Bringing together some of the most active and prominent researchers in ancient history this book moves beyond political institutions ethnic and geographical boundaries in order to observe the ancient Mediterranean through a perspective of network interaction It employs a wide range of approaches and to examine relationships and interactions among various social entities in the Mediterranean Chronologically

the book extends from the early Iron Age to the late Antique world covering the Mediterranean between Antioch in the east to Massalia Marseilles in the west This book was published as two special issues in Mediterranean Historical Review

Athenian Religion: A History ,1996-03-28 Tantalizingly inadequately documented ancient Greek religion can all too easily be reduced to the dry analysis of archaeological remains and so called ritual objects or the isolated interpretation of other scattered fragments of evidence This authoritative new work is an innovative attempt to bridge the gap that usually divides Greek religion from Greek history setting it firmly in the thick of contemporary events and politics The book discusses the actual dates and circumstances of the foundation of temples at Athens its festivals and cults the historical development of the social structures within which religious activities took place and the effects on the religious sphere of the radical shift in Athens political life from tyranny to democracy and the acquisition of an empire Dr Parker brings to life the details of what actually went on in worship considers the introduction of new gods and looks in detail at such key personalities and events in the religious history of Athens as Lycurgus the Eteoboutad and his religious policies and the trial of Socrates Rich in detail and providing a wealth of information this is a book that promises to be the definitive work on the subject for some time to come It covers the whole of the archaic classical and hellenistic period up to the middle of the third century BC

Citizenship in Classical Athens Josine Blok,2017-03-10 What did citizenship really mean in classical Athens It is conventionally understood as characterised by holding political office Since only men could do so only they were considered to be citizens and the community polis has appeared primarily as the scene of men s political actions However Athenian law defined citizens not by political office but by descent Religion was central to the polis and in this domain women played prominent public roles Both men and women were called citizens On a new reading of the evidence Josine Blok argues that for the Athenians their polis was founded on an enduring bond with the gods Laws anchored the polis commitments to humans and gods in this bond transmitted over time to male and female Athenians as equal heirs All public offices in various ways and as befitting gender and age served both the human community and the divine powers protecting Athens

The Family in Greek History Cynthia B. Patterson,2009-07-01 The family Cynthia Patterson demonstrates played a key role in the political changes that mark the history of ancient Greece From the archaic society portrayed in Homer and Hesiod to the Hellenistic age the private world of the family and household was integral with and essential to the civic realm Early Greek society was rooted not in clans but in individual households and a man s or woman s place in the larger community was determined by relationships within those households The development of the city state did not result in loss of the family s power and authority Patterson argues rather the protection of household relationships was an important element of early public law The interaction of civic and family concerns in classical Athens is neatly articulated by the examples of marriage and adultery laws In law courts and in theater performances violation of marital relationships was presented as a public danger the adulterer as a sexual thief This is an understanding that fits the Athenian concept of the city as the highest form

of family The suppression of the cities with the ascendancy of Alexander's empire led to a new resolution of the relationship between public and private authority the concept of a community of households which is clearly exemplified in Menander's plays Undercutting common interpretations of Greek experience as evolving from clan to patriarchal state Patterson's insightful analysis sheds new light on the role of men and women in Greek culture Greek Notions of the Past in the Archaic and Classical Eras John Marincola, 2012-07-23 This volume in The Edinburgh Leventis Studies series collects the papers presented at the sixth A G Leventis conference organised under the auspices of the Department of Classics at the University of Edinburgh As with earlier volumes it engages with new research and new approaches to the Greek past and brings the fruits of that research to a wider audience Although Greek historians were fundamental in the enterprise of preserving the memory of great deeds in antiquity they were not alone in their interest in the past The Greeks themselves quite apart from their historians and in a variety of non historiographical media were constantly creating pasts for themselves that answered to the needs political social moral and even religious of their society In this volume eighteen scholars discuss the variety of ways in which the Greeks constructed de constructed engaged with alluded to and relied on their pasts whether it was in the poetry of Homer in the victory odes of Pindar in tragedy and comedy on the Athenian stage in their pictorial art in their political assemblies or in their religious practices What emerges is a comprehensive overview of the importance of and presence of the past at every level of Greek society In the final chapter the three discussants present at the conference Simon Goldhill Christopher Pelling and Suzanne Said survey the contributions to the volume summarise its overall contributions as well as indicate new directions that further scholarship might follow **Citizenship in Antiquity** Jakub Filonik, Christine Plastow, Rachel Zelnick-Abramovitz, 2023-06-30 Citizenship in Antiquity brings together scholars working on the multifaceted and changing dimensions of citizenship in the ancient Mediterranean from the second millennium BCE to the first millennium CE adopting a multidisciplinary and comparative perspective The chapters in this volume cover numerous periods and regions from the Ancient Near East through the Greek and Hellenistic worlds and pre Roman North Africa to the Roman Empire and its continuations and with excursions to modernity The contributors to this book adopt various contemporary theories demonstrating the manifold meanings and ways of defining the concept and practices of citizenship and belonging in ancient societies and in turn of non citizenship and non belonging Whether citizenship was defined by territorial belonging or blood descent by privileged or exclusive access to resources or participation in communal decision making or by a sense of group belonging such identifications were also open to discursive redefinitions and manipulation Citizenship and belonging as well as non citizenship and non belonging had many shades and degrees citizenship could be bought or faked or even removed By casting light on different areas of the Mediterranean over the course of antiquity the volume seeks to explore this multi layered notion of citizenship and contribute to an ongoing and relevant discourse Citizenship in Antiquity offers a wide ranging comprehensive collection suitable for students and scholars

of citizenship politics and society in the ancient Mediterranean world as well as those working on citizenship throughout history interested in taking a comparative approach Chapters 47 and 48 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license *The Origin of the Family, Private Property and the State* Friedrich Engels, 1902

Theophrastus: Characters Theophrastus, 2004-12-16 Theophrastus Characters is a collection of 30 short character sketches of various types of individuals who might be met in the streets of Athens in the late fourth century BC It is a work which had a profound influence on European literature and this is a detailed and elaborate treatment of it This edition presents an improved text a translation which is designed both to be readable and to bring out fully the nuances of the very difficult Greek and a commentary which covers every feature of the text and its interpretation and offers particularly full elucidation of the often enigmatic references to contemporary social practices and historical events There is also a lengthy introduction which discusses the antecedents and affiliations of the work its date its purpose and the manuscript tradition Extensive indexes are also provided including an Index Verborum

A History of Greece: From the earliest times to the Ionian revolt Evelyn Abbott, 1893 **Ancient Greece** Matthew Dillon, Matthew Dillion, Lynda Garland, 2010-06-18 The third edition of a definitive collection of source material on Greek social and political history from 800 to 399 BC from all over the Greek world *The Origin of the Family, Private Property and the State* Friedrich Engels, 2019-11-19 In *The Origin of the Family Private Property and the State* Friedrich Engels presents a groundbreaking analysis of the interplay between family structures economic systems and societal hierarchies Blending rigorous socio economic critique with historical materialism Engels deconstructs conventional notions of the family by tracing its evolution from primitive communal societies to the patriarchal systems of modernity His examination unveils the profound impact of private property on social relations positing that the emergence of ownership fundamentally altered familial dynamics and consequently the formation of the state Engels employs a dialectical method crafting a narrative that is both accessible and deeply theoretical situating his ideas within the revolutionary context of 19th century Europe Engels a staunch collaborator of Karl Marx draws upon both personal observations and extensive historical research in constructing this seminal work His background as a member of the industrial bourgeoisie and his engagement with radical political movements provided a unique lens through which he interrogated the structures of power The book reflects his commitment to social change aimed at illuminating the roots of oppression in order to facilitate a transformative understanding of society Engels text is essential for those interested in sociology gender studies and historical materialism offering critical insights into the ingrained relationships between economic practices and social institutions Readers will find an essential framework for understanding contemporary issues surrounding family and property making this work a vital reference for scholars and activists alike In this enriched edition we have carefully created added value for your reading experience A succinct Introduction situates the work s timeless appeal

and themes The Synopsis outlines the central plot highlighting key developments without spoiling critical twists A detailed Historical Context immerses you in the era s events and influences that shaped the writing An Author Biography reveals milestones in the author s life illuminating the personal insights behind the text A thorough Analysis dissects symbols motifs and character arcs to unearth underlying meanings Reflection questions prompt you to engage personally with the work s messages connecting them to modern life Hand picked Memorable Quotes shine a spotlight on moments of literary brilliance Interactive footnotes clarify unusual references historical allusions and archaic phrases for an effortless more informed read

Classical Philology ,1910 Collected Works of Karl Marx and Friederich Engels. Illustrated Karl Marx,Friederich Engels,2021-10-05 The Marx and Engels Collected Works is the a carefully compiled collection of translations into English of the most significant works of Karl Marx and Friederich Engels Marx and Engels founded Marxist theory In 1848 the co authored The Communist Manifesto was published Later Engels supported Marx financially to do research and write Das Kapital Marxism is a social political and economic philosophy named after Karl Marx Engels developed what is now known as Marxism together with Karl Marx Karl Marx The Communist Manifesto Karl Marx The Capital Karl Marx The Eighteenth Brumaire of Louis Bonaparte Karl Marx A Contribution to the Critique of Political Economy Friederich Engels Socialism Utopian and Scientific Friederich Engels The Origin of the Family Private Property and the State Friederich Engels Feuerbach The roots of the socialist philosophy Appendices: The Scyths of Herodotus Geography of Scythia. The date, motives, and course of the expedition of Dareios in Europe. The Persians in Thrace 512-489. B.C. etc Herodotus,1895

The Oxford encyclopedia of ancient Greece and Rome. - Vol. 1 - 7 Michael Gagarin,2010 *Rationes Centesimarum* S.D. Lambert,1997-01-01 The Rationes Centesimarum inscribed accounts of a 1 percent tax paid on sales of land by Attic corporate groups demes phratries etc to individual Athenian citizens in the 4th century B C are an important source for the social and economic history o f classical Athens Although some of the fragments have been known for over a century this book is the first comprehensive edition In addition to a new fragment published here for the first time it contains revised texts of the 15 fragments already k nown based on a fresh autopsy of the stones This has resulted in many new readings and a new arrangement of the fragments into stelai A translation in tabular form is followed by a textual and epigraphical commentary and full notes on the 150 indivi duals and the 60 corporate groups mentioned in the records a number of them identified for the first time Prosopographical analysis enables likely dates for the sales to be established to within a few years This forms the basis for a final discussion chapter which identifies the inscriptions as records of a centrally organised land sale programme probably attributable to the leading Athenian financial administrator Lykourgos

Phratries Of Attica Book Review: Unveiling the Power of Words
