Singhvi,2020-01-01 Global Togetherness is an idea the time of which has come It is an idea which has been evolving for many millennia The idea permeated the Vedic and the Sramana vision of life in India Vasudhaiva Kutumbakam was the credo of the liberal large hearted enlightened emancipated and civilizational mindset of India in its radiant magnanimity The seers of India envisioned in their concept of global togetherness the oneness of the human family the foundation of which was the sharing and caring philosophy of reciprocity interdependence and affirmative tolerance based on an understanding and acceptance of diversities **The Flight of the Vernacular** Maria Cristina Fumagalli,2021-10-18 In this book Dante Seamus Heaney and Derek Walcott engage in an eloquent and meaningful conversation Dante s capacity for being faithful to the collective historical experience and true to the recognitions of the emerging self the permanent immediacy of his poetry the healthy state of his language which is so close to the object that the two are identified and his adamant refusal to get lost in the wide and open sea of abstraction all these are shown to have affected and to continue to affect Heaney s and Walcott s work The Flight of the Vernacular however is not only a record of what Dante means to the two contemporary poets but also a cogent study of Heaney s and Walcott s attitude towards language and of their views on the function of poetry in our time Heaney s programmatic endeavour to be adept at dialect and Walcott s idiosyncratic redefinition of the vernacular in poetry as tone rather than as dialect apart from having Dantean overtones are presented as being associated with the belief that poetry is a social reality and that language is a living alphabet bound to the opened ground of the world Healing the Nation Yucel Yanikdag,2014-08-20 Yucel Yanikdag explores how during the First World War Ottoman prisoners of war and military doctors discursively constructed their nation as a community and at the same time attempted to exclude certain groups from that nation Those excluded were not always from different ethnic or religious groups as you might expect The educated officer prisoners excluded the uncivilised and illiterate peasants from their concept of the nation while doctors used international socio medicine to exclude all those officers enlisted men civilians they deemed to be hereditarily weak *The Abongo Abroad* John V. Clune,2017-07-19

Blending African social history with US foreign relations John V Clune documents how ordinary people experienced a major aspect of Cold War diplomacy The book describes how military sponsored international travel especially military training abroad and United Nations peacekeeping deployments in the Sinai and Lebanon altered Ghanaian service members and their families during the three decades after independence in 1957 Military assistance to Ghana included sponsoring training and education in the United States and American policymakers imagined that national modernization would result from the personal relationships Ghanaian service members and their families would forge As an act of faith American military assistance policy with Ghana remained remarkably consistent despite little evidence that military education and training in the United States produced any measurable results Merging newly discovered documents from Ghana s armed forces and declassified sources on American military assistance to Africa this work argues that military sponsored travel made individual Ghanaians outlooks on the world more international just as military assistance planners hoped they would but the Ghanaian state struggled to turn that new identity into political or economic progress
