Holland, Heather Hewett, 2021-09-23 Literature has always recorded a history of patriarchy sexual violence and resistance Academics have been using literature to expose and critique this violence and domination for half a century But the continued potency of MeToo after its 2017 explosion adds new urgency and wider awareness about these issues while revealing new ways in which rape culture shapes our everyday lives This intersectional guide helps readers students teachers and scholars face and challenge our culture of sexual violence by confronting it through the study of literature MeToo and Literary Studies gathers essays on literature from Ovid to Carmen Maria Machado by academics working across the United States and around the world who offer clear ways of using our reading teaching and critical practices to address rape culture and sexual violence It also examines the promise and limitations of the MeToo movement itself speaking to the productive use of social media as well as to the voices that the movement has so far muted In uniting diverse voices to enable the MeToo movement to reshape literary studies this book is also committed to the idea that the way we read and write about literature can make real change in the world the Incompleteness of History Zhu Ying, Ying Zhu, 2006 Based on the author's thesis Doctoral University of Hong Kong 2005

Father-Daughter Incest in Twentieth-Century American Literature Christine Grogan,2016-10-03 The first major study to challenge the narrow definition of post traumatic stress disorder PTSD by rereading six American literary texts this book argues for the importance of literature in representing not just circumscribed singular traumatic events as Cathy Caruth argued in the late nineties but for giving voice to chronic and cumulative or complex traumatic experiences This interdisciplinary study traces the development of father daughter incest narratives published in the last hundred years from male authored fiction to female authored memoir bringing new readings to Fitzgerald s Tender Is the Night Ellison s Invisible Man and the Dylan Farrow Woody Allen case This study builds on the work of those ushering in a second wave of trauma

theory which has argued that the difficulty of speaking about a traumatic experience is not necessarily caused by neurobiological changes that prevent victims from recalling details Rather it s from social and political repercussions In other words they argue that many who experience trauma aren t unable to deliver accounts they fear the results There is a significant gender component to trauma whose implications along with those of race and class have largely gone unexamined in the first wave of trauma theory Exploring two additional questions about articulating trauma this book asks what happens when the voice of trauma is crying out from what Toni Morrison has called the most delicate most vulnerable member of society a female child and second what happens when the trauma is not just a time limit event but chronic and cumulative experiences Some traumatic experiences namely father daughter incest are culturally reduced to the untellable and yet accounts of paternal incest are readily available in American literature This book is written in part as a response to the psychological community which failed to include complex PTSD in the latest edition of the DSM DSM 5 denying victims many of whom are father daughter incest survivors the validation and recognition they deserve and leaving many misdiagnosed and thereby mistreated The Critical Life of Toni Morrison Susan Neal Mayberry, 2021 The first book to trace the critical reception of the great African American woman writer attending not only to her fiction but to her nonfiction and critical A Jury of Her Peers Elaine Showalter, 2010-01-12 An unprecedented literary landmark the first comprehensive writings history of American women writers from 1650 to the present In a narrative of immense scope and fascination here are more than 250 female writers including the famous Harriet Beecher Stowe Dorothy Parker Flannery O Connor and Toni Morrison among others and the little known from the early American bestselling novelist Catherine Sedgwick to the Pulitzer Prize winning playwright Susan Glaspell Showalter integrates women s contributions into our nation s literary heritage with brilliance and flair making the case for the unfairly overlooked and putting the overrated firmly in their place Cambridge Companion to the Literature of Los Angeles Kevin R. McNamara, 2010-05-06 Diverse vibrant and challenging as the city itself this Companion is the definitive guide to LA in literature Creating Memory and Cultural Identity in African American Trauma Fiction Patricia San José Rico, 2019-03-19 How do contemporary African American authors relate trauma memory and the recovery of the past with the processes of cultural and identity formation in African American communities Patricia San Jos analyses a variety of novels by authors like Toni Morrison Gloria Naylor and David Bradley and explores these works as valuable instruments for the disclosure giving voice and public recognition of African American collective and The Detroit Genre Vincent Haddad, 2024-11-12 The first comprehensive investigation of the literary historical trauma What is African American Literature? Margo N. Crawford, 2021-01-27 and popular cultural representations of Detroit After Kenneth W Warren s What Was African American Literature Margo N Crawford delivers What is African American Literature The idea of African American literature may be much more than literature written by authors who identify as Black What is African American Literature focuses on feeling as form in order to show that African American literature is an

archive of feelings a tradition of the tension between uncontainable black affect and rigid historical structure Margo N Crawford argues that textual production of affect such as blush vibration shiver twitch and wink reveals that African American literature keeps reimagining a black collective nervous system Crawford foregrounds the idea of African American literature and uncovers the black feeling world co created by writers and readers Rejecting the notion that there are no formal lines separating African American literature and a broader American literary tradition Crawford contends that the distinguishing feature of African American literature is a moodscape that is as stable as electricity Presenting a fresh perspective on the affective atmosphere of African American literature this compelling text frames central questions around the idea of African American literature shows the limits of historicism in explaining the mood of African American literature and addresses textual production in the creation of the African American literary tradition Part of the acclaimed Wiley Blackwell Manifestos series What is African American Literature is a significant addition to scholarship in the field Professors and students of American literature African American literature and Black Studies will find this book an invaluable source of fresh perspectives and new insights on America's black literary tradition The Story of Jazz Justine Tally, 2001 Since its publication in 1992 Jazz probably Toni Morrison s most difficult novel to date has illicited a wide array of critical response Many of these analyses while both thoughtful and thought provoking have provided only partial or inherently inconclusive interpretations The title and certain of the author's own pronouncements have led other critics to focus on the music itself both as medium and aesthetic support for the narration Choosing an entirely different approach for The Story of Jazz Justine Tally further develops her hypothesis first elaborated in her study of Paradise that the Morrison trilogy is undergirded by the relationship of history memory and story and discusses jazz not as the music but as a metaphor for language and storytelling Taking her cue from the author's epigraph for the novel she discusses the relevance of storytelling to contemporary critics in many different fields explains Morrison's choice of the hard boiled detective genre as a ghost text for her novel and guides the reader through the intricacies of Bakhtinian theory in order to elucidate and ground her interpretation of this important text finally entering into a chapter by chapter analysis of the novel which leads to a surprising conclusion Novels of George Eliot George Eliot, 1870
