Quintana Roo:

Tales of the Quintana Roo James Tiptree, 1986 The Quintana Roo is a real and very strange place It is the long wild easternmost shore of the Yucatan Peninsula officially but not psychologically part of Mexico A diary of daily life on its jungly beaches could sometimes be taken for a log of life on an alien planet writes James Tiptree Jr in the preface to this new collection of three talismanic tales of the supernatural During the late 1970s Tiptree one of the greatest American authors of short imaginative fiction lived for months on the eerie windswept shore of the Yucatan and the true protagonist of this book is neither the Tiptree narrator nor the manifestations of ancient Maya civilization but rather the Quintana Roo itself as a living pulsating entity that envelops the reader within a uniquely alien ambience Following Tiptree's introduction are these unforgettable nouvelles of weird fantasy What Came Ashore at Lirios The Boy Who Waterskied to Forever and Beyond the Dead Reef

Quintana Roo Archaeology Justine M. Shaw, Jennifer P. Mathews, 2022-08-23 Mexico's southern state of Quintana Roo is often perceived by archaeologists as a blank spot on the map of the Maya world a region generally assumed to hold little of interest thanks to its relative isolation from the rest of Mexico But salvage archaeology required by recent development along the Maya Riviera along with a suite of other ongoing and recent research projects have shown that the region was critical in connecting coastal and inland zones and it is now viewed as an important area in its own right from Preclassic through post contact times The first volume devoted to the archaeology of Quintana Roo this book reveals a long tradition of exploration and discovery in the region and an increasingly rich recent history of study Covering a time span from the Formative period through the early twentieth century it offers a sampling of recent and ongoing research by Mexican North American and European archaeologists Each of the chapters helps to integrate sites within and beyond the borders of the modern state inviting readers to consider Quintana Roo as part of an interacting Maya world whose boundaries were entirely different from today's In taking in the range of the region the authors consider studies in the northern part of the state resulting from modern development around Canc n the mid state sites of Muyil and Yo'okop both of which witnessed continual occupations from the Middle Preclassic through the Postclassic and new data from such southern sites as Cerros Lagartera and Chichmuul The contributions consider such subjects as ceramic controversies settlement shifts site planning strategies epigraphic and iconographic materials the impact of recent coastal development and the interplay between ancient historic and modern use of the region Many of the chapters confirm the region as a cultural corridor between Cob and the southern lowland centers and address demographic shifts of the Terminal Classic through Postclassic periods while others help elucidate some of Peter Harrison's Uaymil Survey work of the 1970s Quintana Roo Archaeology unfolds a rich archaeological record spanning 2 500 years depicting the depth and breadth of modern archaeological studies within the state It is an important touchstone for Maya and Mesoamerican archaeologists demonstrating the shifting web of connections between Quintanarooense sites and their neighbors and confirming the need to integrate this region into a

Witschey,Clifford T. Brown,2025-04-19 This volume is the first comprehensive atlas of the Maya region published since 1940 Large format pages provide 119 detailed full color maps with striking terrain and over 10 000 known site locations sacbes fortifications emblem glyphs inscriptions and LiDAR coverage Area maps show elevations rainfall physiography soils and political subdivisions With map keys a site index gazetteer references and instructions this atlas is an essential reference for libraries and Maya scholars for students and travelers it will be invaluable for field work and trip planning Thirty years in preparation this atlas will be treasured by anyone with an interest in the ancient Maya world **The Community Forests of Mexico** David Barton Bray,Leticia Merino-Pérez,Deborah Barry,2009-03-16 Mexico leads the world in community management of forests for the commercial production of timber Yet this success story is not widely known even in Mexico despite the fact that communities around the globe are increasingly involved in managing their own forest resources To assess the achievements and shortcomings of Mexico s community forest management programs and to offer approaches that can be applied in other parts of the world this book collects fourteen articles that explore community forest management from historical policy economic ecological sociological and political perspectives The contributors to this book are established researchers in the field as well as many of the important actors in Mexico s nongovernmental organization sector Some articles are case studies of community forest management programs in the states of Michoac n Oaxaca Durango Quintana Roo and Guerrero Others provide broader historical and contemporary overviews of various aspects of community forest management As a whole this volume clearly establishes that the community forest sector in Mexico is large diverse and has achieved unusual maturity in doing what communities in the rest of the world are only beginning to explore how to balance community income with forest conservation In this process Mexican communities are also managing for sustainable landscapes and livelihoods **Bioarchaeology of Pre-Columbian Mesoamerica** Cathy Willermet,Andrea Cucina,2018-09-03 This volume offers a novel interdisciplinary view of the migration mobility ethnicity and social identities of pre Columbian Mesoamerican peoples In studies that combine bioarchaeology ethnohistory isotope data and dental morphology contributors demonstrate the challenges and rewards of such integrative work when applied to large regional questions of population history The essays in this volume are the results of fieldwork in Honduras Belize and a variety of sites in Mexico One chapter uses dental health data and burial rituals to investigate the social status of sacrificial victims during

the Late Classic period Another analyzes skeletal remains from multiple research perspectives to explore the immigrant makeup of the multiethnic city of Copan Contributors also use strontium and oxygen isotope data from tooth enamel and dental morphological traits to test hypotheses about migration and they incorporate ethnohistorical sources in an examination of ancient Maya understandings of belonging and otherness Revealing how complementary fields of study can together create a better understanding of the complex forces that impact population movements this volume provides an inspiring picture of the exciting collaborative work currently under way among researchers in the region A volume in the series Bioarchaeological Interpretations of the Human Past Local Regional and Global Perspectives edited by Clark Spencer Larsen

Maya Imagery, Architecture, and Activity Kaylee R. Spencer, Maline D. Werness-Rude, 2015-05-01 Maya Imagery Architecture and Activity privileges art historical perspectives in addressing the ways the ancient Maya organized manipulated created interacted with and conceived of the world around them The Maya provide a particularly strong example of the ways in which the built and imaged environment are intentionally oriented relative to political religious economic and other spatial constructs In examining space the contributors of this volume demonstrate the core interrelationships inherent in a wide variety of places and spaces both concrete and abstract They explore the links between spatial order and cosmic order and the possibility that such connections have sociopolitical consequences This book will prove useful not just to Mayanists but to art historians in other fields and scholars from a variety of disciplines including anthropology archaeology geography and landscape architecture
