The Oxford Handbook of the History of Terrorism Carola Dietze, Claudia Verhoeven, 2022 The Oxford Handbook of the History of Terrorism presents a re evaluation of the major narratives in the history of terrorism exploring the emergence and the use of terrorism in world history from antiquity up to the twenty first century The volume presents terrorism as a historically specific form of political violence that was generated by modern Western culture and then transported around the globe where it interacted with and was transformed in accordance with local conditions It offers cogent arguments and well documented case studies that support a reading of terrorism as a modern phenomenon as well as sustained analyses of the challenges involved in the application of the theories and practices of modernity and terrorism to non Western parts of the world both for historical actors and academic commentators

Teaching Mysticism William B. Parsons, 2011-12-16 The term mysticism has never been consistently defined or employed either in religious traditions or in academic discourse The essays in this volume offer ways of defining what mysticism is as well as methods for grappling with its complexity in a classroom

This volume addresses the diverse literature surrounding mysticism in four interrelated parts. The first part includes essays on the tradition and context of mysticism devoted to drawing out and examining the mystical element in many religious traditions. The second part engages traditions and religious cultural strands in which mysticism is linked to other terms such as shamanism, esotericism, and Gnosticism. The volume's third part focuses on methodological strategies for defining mysticism with respect to varying social spaces. The final essays show how contemporary social issues and movements have impacted the meaning, study, and pedagogy of mysticism. *Teaching Mysticism* presents pedagogical reflections on how best to communicate mysticism from a variety of institutional spaces. It surveys the broad range of meanings of mysticism, its utilization in the traditions, the theories and methods that have been used to understand it, and provides critical insight into the resulting controversies.

The Boko Haram Reader Abdulbasit Kassim, Michael Nwankpa, 2018-07-01 Since it erupted onto the world stage in 2009, people have asked what is Boko Haram and what does it stand for. Is there a coherent vision or set of beliefs behind it? Despite the growing literature about the group, few if any attempts have been made to answer these questions, even though Boko Haram is but the latest in a long line of millenarian Muslim reform groups to emerge in Northern Nigeria over the last two centuries. *The Boko Haram Reader* offers an unprecedented collection of essential texts, documents, videos, audio, and nashids, martial hymns translated into English from Hausa, Arabic, and Kanuri, tracing the group's origins, history, and evolution. Its editors, two Nigerian scholars, reveal how Boko Haram's leaders manipulate Islamic theology for the legitimization, radicalization, indoctrination, and dissemination of their ideas across West Africa. Mandatory reading for anyone wishing to grasp the underpinnings of Boko Haram's insurgency, particularly how the group strives to delegitimize its rivals and establish its beliefs as a dominant strand of Islamic thought in West Africa's religious marketplace.

Faith and Reason in Islam Averroes, 2014-10-01 Available for the first time in the English language, this is a complete and annotated translation of a key work by the twelfth-century Muslim philosopher Averroes Ibn Rushd. Acknowledged as the leading transmitter of Aristotelian thought, Averroes also held controversial views about the relationship between faith and reason, arguing that religion should not be allowed to impose limits on the exercise of rational thought. His theory of rationality, along with others on language, justice, and the interpretation of religious texts, is clearly presented here in a work that provides the most comprehensive picture available of Averroes's great intellectual achievements.

Marked Word Order in the Qurān and its English Translations Dr. Ahmed Saleh Elimam, 2013-10-28 The literature on *Balaghah*, the art of Arabic eloquence, and commentaries on the Qur'an stress that the style of the Qur'an is beautiful, eloquent, and inimitable. This literature identifies word order as one of the most distinctive aspects of Qur'anic style. One of the main reasons for this is that, compared to English, Arabic has fewer restrictions on word order thanks to its elaborate verb inflection system and case marking. This flexibility allows for the foregrounding of some elements within the sentence, resulting in a marked or non-canonical word order and fulfilling certain discursive functions, including specification, restriction, emphasis, amplification, glorification, and denial.

Marked word order is used to highlight or downplay certain elements in speech or writing. It constitutes one way of delivering meanings to the addressee as these meanings are ordered in the mind of the speaker in terms of their importance, making the style a precise reflection of the speaker's mind and feelings. This book is a descriptive study which attempts to examine how translations of the Qur'an have handled various verses of the Qur'an that feature lexical foregrounding, focusing on ten published translations into English carried out by translators from different ideological and linguistic backgrounds. It offers a systematic comparison of the ways in which the selected translators deal with the linguistic feature of word order variation and examines issues relating to the translator's style. Specifically, the book identifies and examines the following instances of marked word order discussed by commentators on the Qur'an and the function served by each case of lexical foregrounding: secondly, the options and/or patterns employed by translators to render the different functions of marked word order; thirdly, the recurrent options and/or patterns for rendering different types of word order variation. Finally, the book explores the factors which may have influenced the choice of particular strategies by different translators, including the translators' motivations and the various historical contexts in which the translations were made.

Voices of Islam Virginia G. Blakemore-Henry, Vincent J. Cornell, Omid Safi, 2006-12-30 Despite frequent and extensive publications on Islam, very few Americans indeed, very few non-Muslims truly understand the faith or the more than one billion adherents who live it. This set presents the diversity and richness of Islam, filling in the blanks and expanding our knowledge and understanding. Portraying Muslims in all their humanity and diversity balances the images that have bombarded society and presents the reader with a fuller and more accurate picture of the Islamic faith and what it means to live as a Muslim in Muslim communities and as part of a broader tapestry of pluralism in the nations of the world. What does it mean to share Muslim concerns? To experience Muslim spirituality? What is the difference between Sunni and Shiite sects? Why do Muslims pray so frequently? What is the reality of Muslim marriage and gender relations? What is the meaning of jihad and martyrdom to a practicing Muslim? What role do the arts and humanities play in modern Muslim life? How are Islamic children raised? These questions and others are answered in these volumes, which bring together Muslim voices from around the world, including men and women scholars and laypersons, fundamentalists and progressives, and others from various cultural, political, and Islamic backgrounds. Personal experiences and poetry are included to illustrate the many different expressions of Islam.

Women in Muslim Family Law John L. Esposito, 2001-09-01 This second edition of John L. Esposito's landmark book expands and updates coverage of family law reforms in marriage, divorce, and inheritance throughout the Middle East, North Africa, and South and Southeast Asia, and analyzes the diverse interpretation of Muslim family law, identifying shifts, key problems, and challenges in the twenty-first century.

Books of Definition in Islamic Philosophy Kiki Kennedy-Day, 2003-09-02 Islamic Philosophy has unusual origins. Originally a hybrid of Greek philosophy and early Islamic theology, its technical

language consisted of a number of words translated from the Greek This book studies how Islamic philosophers of the ninth century AD such as al Kindi al Farabi and Ibn Sina developed an indigenous set of terms and concepts Their Books of Definition influenced the revision of the Arabic language to incorporate these new fields of knowledge Books of Definition in Islamic Philosophy The Limits of Words uses the work of these philosophers as a basis from which a comparison with their Greek precedents is enabled The book presents a framework for incorporating an Islamic and historically contextualised philosophy into a continuum of world philosophers At the core of this framework is Ibn Sina s Kitab al hudud which the author has translated into English and situates it in its correct geopolitical framework In establishing a historical and literary context for the writing and circulation of Ibn Sina s definitions the book breaks new ground in the integration of Islamic philosophy within a general history of philosophies This fascinating and comprehensive study will be of interest to scholars and postgraduate students of Islamic Philosophy

Martyrdom and Sacrifice in Islam Meir Hatina,2016-11-14 Over the years the belief system around self sacrifice has become key to understanding the Middle East and its political relationships with the West although much of the literature and conversation has been restricted to modern concepts of jihadism The recent spate of scholarship relating to suicide bombers and jihadists studies these concepts without a broader understanding of the principle of martyrdom This book expands on the chronology of self sacrifice within Islam and contextualises the use of suicide bombings using details of the rise of martyrdom in places such as Iraq Lebanon Chechnya and Pakistan It historicises the background in which jihad has been glorified while also exploring contemporary methods of recruitment like the use of the internet The authors pay close attention to the different sects and factions of Islam and the differing interpretations of jihad that accompany these ideologies In the current political climate a book that explores martyrdom within the framework of historical perspectives geographical regions and the influence of outside cultures is essential
