Morality in the Quran: The Greater Good of Humanity Muhammad Abdullah Draz, Muhammad Abdullah Draz 1894-1958 is often referred to as the teacher of the teachers and in a league of his own He is one of the most important Islamic and Azhari scholars of the past century and has made significant contributions to contemporary Islamic thought especially in the fields of Quranic and Maqasid objectives studies The original version of this book formed the doctoral dissertation *La Morale du Coran* which earned Muhammad Abdullah Draz a doctorate degree with the highest level of distinction at the Sorbonne Paris in 1947 The author's theory of morality presented in this book has not been matched in its originality integrity and depth either past or present Through a thematic interpretation of the Quran the author proposes the following five critical elements to morality obligation responsibility sanction intent and effort Each

element plays an indispensable role in the conscience of a believer The author postulates that every human possesses a light that enables them to determine good and evil on a fundamental level propelling them towards duty kindness and charity It is then asserted that the believer possesses a double light a deep knowledge that incorporates divine law into our very essence

Islamic Ethics Abdulaziz Sachedina, 2022-06-10 There have been two main traditions of writing on ethics in the Islamic tradition one philosophical and related to the works of Aristotle and other Greek philosophers represented by thinkers such as Avicenna and one theological represented by such figures as the famous theologian al Qadi Abd al Jabbar Some later scholars attempted to combine those two traditions For the most part however the views of the jurists have been ignored Abdulaziz Sachedina here calls attention to this third tradition of ethics which has its home in legal literature The problem is that Islamic jurists did not produce a genre of ethical manuals and their form of ethics which Sachedina terms juridical ethics must be derived or extracted from works that ostensibly treat legal rulings and obligations or scriptural hermeneutics and legal theory Presenting an outline of the version of Islamic ethics that is embedded in the textual legacy of the Islamic legal tradition he argues that this juridical ethics is an important even dominant form of ethics in modern Islam He notes that this form of ethics has been challenged by modernity and examines the variety of ways in which legal ethical thinkers have reacted How do Muslim religious leaders come to grips with modern demands of directing their communities to live as modern citizens of nation states What kind of moral and spiritual resources are being garnered by their scholars to respond to the new issues in sciences more immediately in medicine and constantly changing social relationships To answer these pressing questions it is necessary to go beyond the philosophical ethics of virtue and human character and acknowledge the importance of ethics to the formulation in Muslim interpretive jurisprudence of religious and moral decisions that are based on reason and revelation

The Moral World of the Qur'an Muḥammad 'Abd Allāh Darāz, 2008 This book analyzes for the first time in English the ethical theory that underpins Quranic legislation by providing a classification of specific verses in which Islam's holy book discusses moral issues It demonstrates the ways in which the Quran theoretically and practically provides the moral code to which Muslims around the world adhere The author divides his analysis into a survey of Quranic attitudes towards the basic ethical issues of obligation and responsibility issues of moral psychology such as motivation and intention as well as matters of social ethics such as the function of law in society He then explores the meanings of individual morality morality within the family and civil society and the relationship of morality to the idea of the state

Muslim Medical Ethics Jonathan E. Brockopp, Thomas Eich, 2021-02-09 A timely exploration of balancing Islamic heritage with contemporary medical and health concerns Muslim Medical Ethics draws on the work of historians health care professionals theologians and social scientists to produce an interdisciplinary view of medical ethics in Muslim societies and of the impact of caring for Muslim patients in non Muslim societies Edited by Jonathan E Brockopp and Thomas Eich the volume challenges traditional presumptions of theory and practice to demonstrate the ways in which Muslims balance respect for their heritage

with the health issues of a modern world Like members of many other faiths Muslims are deeply engaged by the technological challenges posed by modern biomedicine and they respond to those challenges with enormous creativity whether as patients doctors or religious scholars Muslim Medical Ethics demonstrates that religiously based cultural norms often inform medical practice and vice versa in an ongoing discourse The contributors map the breadth and boundaries of this discourse through discussions of contested issues on the cutting edge of ethical debates from fertilized embryos in Saudi Arabia to patient autonomy in Toronto from organ trafficking in Egypt to sterilization in Tanzania As the authors illustrate the effects of Muslim medical ethics have ramifications beyond the Muslim world With growing populations of Muslims in North America and Europe Western physicians and health care workers should be educated on the special needs of this category of patients In every essay the richness of the Islamic tradition is visible In the premodern period Muslim physicians were considered among the best in the world building and improving on Greek and Indian traditions Muslim physicians today continue that tradition while incorporating scientific advances Scholars of Islamic law work closely with physicians to develop ethical guidelines for national and international bodies and individual Muslims take full advantage of advances in medicine and religious law combining them with the wisdom of Sufism and traditions of family and community This exploration of Muslim medical ethics is therefore a foray into the richness and sophistication of the Islamic tradition itself Designed as an engaging point of entrance for students in religious studies anthropology ethics and medical humanities this pathbreaking volume also has utility for health care professionals and policy makers Islamic Ethics Mariam

Islamic Law and Ethics David R. Vishanoff ,2020-09-01 Does Islamic law define Islamic ethics Or is the law a branch of a broader ethical system Or is it but one of several independent moral discourses Islamic and otherwise competing for Muslims allegiance The essays in this book present a range of answers some take fiqh as the defining framework for ethics others insert the law into a broader ethical system and others present it as just one among several parallel Islamic ethical discourses or show how Islamic ethics might coexist with non Muslim normative systems Their answers have far reaching implications for epistemology for the authority of jurists and lay Muslims for the practical moral challenges of daily life and for relationships with non Muslims The book presents Muslim ethicists with a strategic contemporary choice should they pursue a single overarching methodology for judging all ethical questions or should they relish the rhetorical and political competition of alternative but not necessarily incompatible moral discourses Dynamic Islam Jon Armajani,2004 Dynamic Islam analyzes the lives and works of four of the most influential liberal diaspora Muslim intellectuals of the late twentieth and early twenty first centuries Fatima Mernissi Leila Ahmed Fazlur Rahman and Mohammed Arkoun These prolific scholars are among the first generation of Muslims writing in Western languages who have intentionally directed their works toward audiences in the West as well as the Muslim world Jon Armajani examines the way these cutting edge scholars have interpreted the Quran Hadith and Islamic history as they have constructed their visions for Islam in the modern world Armajani vividly describes their perspectives on women and gender veiling Islamic revivalism Islam and democracy and Islamic mysticism The volume also situates their ideas with respect to conservatively minded western Muslims and Islamic revivalists Gendered Morality Zahra M. S. Ayubi,2019-07-30 Islamic scriptural sources offer potentially radical notions of equality Yet medieval Islamic philosophers chose to establish a hierarchical male centered virtue ethics In Gendered Morality Zahra Ayubi rethinks the tradition of Islamic philosophical ethics from a feminist critical perspective She calls for a philosophical turn in the study of gender in Islam based on resources for gender equality that are unlocked by feminist engagement with the Islamic ethical tradition Developing a lens for a feminist philosophy of Islam Ayubi analyzes constructions of masculinity femininity and gender relations in classic works of philosophical ethics In close readings of

foundational texts by Abu Hamid Muhammad al Ghazali Nasir ad Din Tusi and Jalal ad Din Davani she interrogates how these thinkers conceive of the ethical human being as an elite male within a hierarchical cosmology built on the exclusion of women and nonelites Yet in the course of prescribing ethical behavior the ethicists speak of complex gendered and human relations that contradict their hierarchies Their metaphysical premises about the nature of the divine humanity and moral responsibility indicate a potential egalitarian core Gendered Morality offers a vital and disruptive new perspective on patriarchal Islamic ethics and metaphysics showing the ways in which the philosophical tradition can support the aims of gender justice and human flourishing
