The Quiet Sound of Disappearing Ryan Rayston, 2011-04 Feather Harrington sits on an airplane with a pound of cocaine taped to her body The Quiet Sound of Disappearing by Ryan Rayston is a tense gritty unorthodox bizarrely funny fictionalized story of one woman's descent into drugs and dealing her arrest and her daring struggle to find her way back This engrossing account of the hedonistic drug culture of the early eighties provides humorous and searing testimony to the literal trials and tribulations of that time She bottoms out in a pivotal moment that leads her to try and fail rehab After getting sober on her own Feather is arrested and indicted as a co-conspirator in a large DC drug scandal Shockingly brave and honest this gorgeously written stream of consciousness novel gets at the gritty heart of what it is like to battle a disease and carry a shameful secret The Quiet Sound of Disappearing is an emotional rollercoaster about love loss need and managing to survive the unsurvivable

Trance-Migrations Lee Siegel, 2014-10-08 Part non-fiction part short fiction part memoir part essay Trance migrations is both an entertaining and informative read and a thoroughly original and creative experiment in metafiction Combining great erudition with sophisticated word play and bawdy humor it alternates sections containing stories both fictional and non-fictional to be read by the reader to her or himself with sections of stories to be read aloud to a listener In the latter cases Siegel intends that the listener actually go into a hypnotic trance out of which the reader will eventually awaken her or him In this way the narrative form of the book performs a hypnotic induction script out of which the listener awakens to find that it is impossible to tell what really happened just as in hypnosis the line between fact and fiction is irremediably blurred Siegel uses hypnosis and the dynamic between hypnotist and hypnosand as a way of exploring other power dynamics between lovers between writer and reader or listener between masculine colonial culture and the feminized East between God or gods and mortals and ultimately between memory historical and personal and constantly shifting meaning The book is above all about reading as a hypnotic experience Through stories based on motifs and characters from both Indian mythology and from real life notably Abbe Faria a Goan Catholic monk who gained notoriety in the early nineteenth century with demonstrations of magnetism in Paris and James Esdaile a Scottish surgeon for the East India Company who experimented with mesmerism as a surgical anesthetic in Calcutta Siegel epitomizes and elucidates the psychological and political dynamics of a fascination with a mysterious Orient and reveals the anxieties embedded in such fascination
